Colors,  
Devoc Mixed  
House Paints

—AT—

**OLSEN'S**  
MODEL DRUG STORE.

If you are going to paint or kalcimine give us a call, sample cards furnished.

## New Ulm Review

Wednesday, May 11, 1904.

Let us bear in mind that Memorial Day comes on the 30th of this month; and the words of Lincoln: "The debt we owe the Union soldiers can never be paid."

It begins to look as though nothing could stop Mr. Hearst from being the choice of the democrats of this state for the nomination of president. He seems to be too much for the New York machine.

This has been an ideal spring—such a one as gave rise to the stories of Minnesota's famous climate. It has really been the best seeding season for a number of years. Very little rain, and a total absence of the high winds that have made out-door work so disagreeable.

June 4th is the date set for the trip which the editors of the state are to take to St. Louis to attend the dedication ceremonies of the State building. They are unusually well served this year and the trip will be one of the least costly of the many the association has undertaken.

Let the republican party make its platform such that the men who stand upon it will be compelled to destroy the trusts that sink their roots into the foulest vices and bear for their owners the fairest flowers of dividends. We are tired carrying water to a plant that blossoms for only a choice few.

The willingness of the city council to assist in getting affairs at the city clerk's office in such a shape that any person could by looking at the books tell how business is going, is very commendable and goes to show that the members are ready to do what is right and proper, and are not anxious to stand in the way of a fair and business-like administration.

The date of the Minnesota State Fair has been set for August 29th to September 30th. This is about the only great fair that has ever been attempted where the gates open upon a complete and perfect display at the time advertised. The World's Fair at St. Louis will probably lessen the attendance at the state fair but it is safe to assume that there will be a paying attendance.

There is really a great deal of humor in the far-fetched attempts of the Dunn papers to say something better of their candidate for governor than may be said of Judge Collins. The truth is the choice does not lie so much in what either man has or has not done but in the personal character of the candidates and their executive ability and in this respect Mr. Collins has left Mr. Dunn several laps in the rear.

Ambitious men are now offering stock in air ships at \$3 a share, claiming that Greth, the California doctor, has at last conquered the air. This stock will be offered to World's Fair visitors at St. Louis. Stock that has its substance in air and gas is more unstable than the oil fields of Texas. We would like to see the air ships succeed but would prefer the inventors should use their own money in making the experiments.

Thursday's Minneapolis Journal contained some communications on the question of the (?) saving of money to the state by reason of the pine lumber operations that has given rise to the name of "Honest Bob" which Mr. Dunn has used to foster his ambition to be governor. If the truth were known it would probably be that Mr. Dunn was no better than any of his predecessors in the state auditor's office. There is no taint of this kind to the public record of Mr. Collins.

Thos. Crawford of Lakefield, editor of the Standard at that place, has announced himself a candidate for railroad and warehouse commissioner on the republican ticket. He makes the announcement that there is no other in the second district seeking a place on the state ticket. For his information we will state that L. G. Vogel of this city, will have his name pretty well up toward the top of the ticket to be voted at the coming election. That, however,

should not deter a good man, like Mr. Crawford, from entering the race.

The Review has been criticised because it has seen fit to make public the actions of the city government as it has transpired in the meetings of that body. It has been particularly charged that this paper has set out to persecute Mr. Schilling. To those who make these charges we will say that this paper is not run to shield any man in public service, neither is it run to show personal favoritism or for malice against any. It has happened that the former city clerk, in discharging his duty as an officer employed to care for the interests of the public, in the city toward which we all pay tribute, has been called in question. This paper has tried to give an unprejudiced report of the proceedings to date and has constantly maintained that the confidence the people have had in Mr. Schilling cannot be shaken by the errors that are alleged to have been found in his books. Every man is liable to make mistakes and the fact that Mr. Schilling had a system of keeping books of his own construction makes it more than probable that he will be able to explain away the seeming errors that have called for the present criticism. Nevertheless he owes it to the people of this city to explain these things and his greatest mistake lies in his refusal to assist his successor toward an intelligent understanding of the accounts. Until something more definite and conclusive, than the alleged errors contained in Mr. Bobleter's report, is produced the Review will refuse to believe that Mr. Schilling will not be able to explain all the seeming inconsistencies to the entire satisfaction of the council and the public at large.

### HOMESEEEKERS RATES.

On the first and third Tuesdays of each month the Minneapolis & St. Louis R. R. sells special homeseekers round trip excursion tickets to points in the Northwest, West, Southwest, South and Southeast, at one fare plus two dollars. Return limit twenty-one days from date of sale and stopovers permitted. Call on agents for full particulars or address, A. B. Cutts, G. P. & T. A., Minneapolis, Minn. 42

There is no Rochelle Salts, Alum, Lime or Ammonia in food made with

Baking  
Powder**

—NOT IN THE BAKING POWDER TRUST—  
It makes pure food.

## TO ENLARGE EAGLE OFFICE

Plans Now Being Drawn For an Addition.

Present Quarters Are Becoming Too Cramped.

Foundation For New Engine is Being Put Down.

Improvements at the Eagle mill this summer will include the erection of a large addition to the office, which is becoming overcrowded and which cannot long meet the needs of the mill. Architect Wm. Heers is now drawing plans for the building and work upon it will be begun within a short time. When the contractor has finished with it the company will have model quarters for its officers and accountants.

It is planned to extend the building toward the west and the addition will be one story in height, to conform to the present structure. A room 18x36 feet will be provided for the main office and opening off of it will be two smaller apartments, each 15x18, to be used by Charles Silverson and William Silverson as private offices. The present main office will fall to Charles Vogel, to be used as a private office by him. Bids upon the building are to be asked for soon and when it is ready for occupancy the office force will be increased.

Work upon the foundation for the new engine has commenced; the east wall of the engine room having been torn out and an excavation made. This will be filled with concrete and Kasota stone and when it is completed the manufacturers will ship the engine, now nearly completed.

Advices received by the mill last week were to the effect that S. Freeman & Sons of Racine, Wis., intend shipping the big marine boiler, ordered some time ago, next Saturday. In constructing the boiler a delay was caused through the inability of the Racine firm to secure the special grates ordered. These are made by only one firm in the country, the National Iron Works of Brooklyn, N. Y., the concern which supplies much of the heavy ordnance for the United States navy, and it so happened that they were behind with their orders. They have, however, finished the grates and they are now being fitted at Racine. As soon as the boiler is received here it will be placed in position on the foundation prepared for it and the automatic stokers will be attached.

\* Save ice and keep your eatables fresh in an Alaska Refrigerator. They have no superiors. John H. Forster.

## A PROMINENT COLLEGE MAN.

One of Indiana's Useful Educators Says:  
"I Feel Like a New Man."

MR. JOHN W. MENG.

Mr. John W. Meng, 54 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes:

"I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health."—John W. Meng.

THE most common phases of summer catarrh are catarrh of the stomach and bowels. Peruna is a specific for summer catarrh.

Hon. Willis Brewer, Representative in Congress from Alabama, writes the following letter to Dr. Hartman:

House of Representatives,  
Washington, D. C.  
The Peruna Medicine Co., Columbus, O.:  
Gentlemen—"I have used one bottle of Peruna for lassitude, and I take pleasure in recommending it to those who need a good remedy. A tonic it is excellent. In the short time I have used it it has done me a great deal of good."—Willis Brewer.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

# PROF. ALB. MEYER OF NEW YORK

## EYESIGHT SPECIALIST.

### Prof. Meyer's Work Warmly Praised

By old folks, who take such comfort in reading;

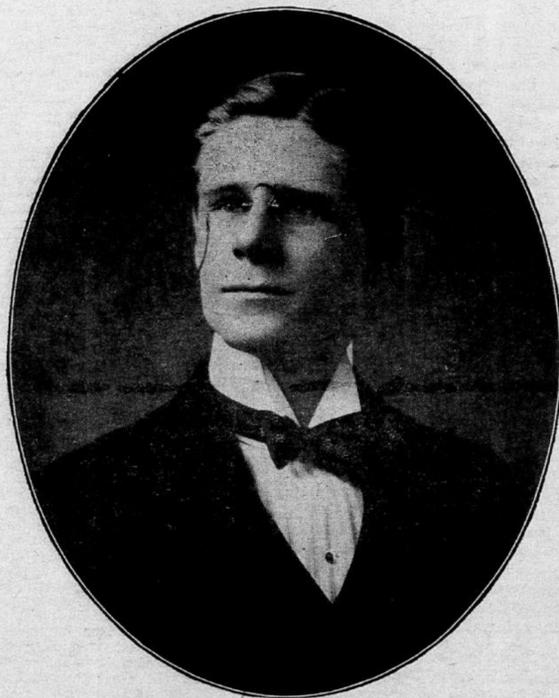

By children who have been backward at school because their vision was poor;

By people who have suffered the tortures of headaches due to eye-strain;

By men and women in every walk of life whose income depends on their eyes.

**Come Early!**

LAST VISIT UNTIL FALL.

### Prof. Meyer's Methods and Results

Are endorsed by leading physicians everywhere. Why?

Because he is master of his profession—careful, painstaking and thorough in his methods and has the best equipment for eye testing.

Because thousands of people gratefully acknowledge that he spared them untold suffering and restored their Vision.

Because he will NOT supply glasses unless they are absolutely necessary.

Because all work is Guaranteed.
