GROCERIES

The first precaution to be taken in buying Groceries is to be sure they are

FRESH AND PURE.

We sell so much goods that no part of our stock has a chance to stay long on the shelves. This keeps the stock constantly changing and consequently the goods are sure to be fresh.

As to purity, we look out for that. No goods that are not pure and in every way fit to use goes into our store, and of course none goes out. When you pass our store just notice the

Fine line of fruits.

Fruits for canning purposes a specialty.
