

New Ulm Review

Wednesday, Sept. 20, 1905.

The city council is justified in getting everything at the lowest figure possible and saving wherever it can, but in the letting of the contract for the new sewer where the amount of the two lowest bids were so near equal an arrangement might have been entered into whereby the home company could have secured the contract. The man who was awarded the work was surprised, having told Mr. Cavanaugh when the latter told him his figures that the council would not consider his bid and that the home company would get it. Even if the city did have to pay a few dollars more on a \$20,000 contract it would be worth while to have the money all remaining at home and among those who have to support the government of the city. The extreme bids for the work were \$26,700 and \$19,209 and the bid of the local firm was \$20,082. Four bids were higher than this, so that the local firm was offering to do the work at a price within reason.

Samuel G. Iverson, state auditor, has issued a 24 page magazine devoted entirely to advertising the lands of the state. It is an excellent idea and, well circulated, should be of immense value to the state immigration bureau. It is particularly noticeable the prominence given to the sale of state lands which take place at various dates from October, 1905 to April 1906. There are tracts of this land in some good counties and all of it is worth having. If readers of the Review are interested in the land they should write to Mr. Iverson for particulars.

The Waseca County Herald has just entered upon its twenty-ninth year and the twenty-first year of the continuous management of the present proprietors. The Herald is one of the most fearless and independent papers in the state and the Murphy family has demonstrated that it is equal to holding its own in the newspaper field and making money where others have failed.

The Owatonna Journal, which is one of the best weeklies coming to this office was sold at sheriff sale last week to one of the professional men of that city. The sale was forced by order of the court to settle a dispute among the partners of the concern. The Journal publishes a daily and weekly and has had a man back of it who is a hustler.

Mankato has a wide awake board of trade, which has a committee on the outlook for conventions and such public gatherings. This committee has recently secured the State Dairymen's convention, and the next meeting of the Cheesemakers' Association. Such things help a city and are worth looking after.

St. Paul's Evangelical Lutheran church of this city celebrated its annual mission festival on the college grounds Sunday. Two services were held; in the morning the sermon was delivered by Rev. H. Strasser of Courtland, in the afternoon by Rev. F. Koehler of Nicollet. The congregations of both Courtland and Nicollet were well represented.

Abscess.

W. H. Harrison, Cleveland Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Lintment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver Colo.). He recommended a bottle of Snow Lintment; I got a 50c size, and it cured my leg. It is the best liniment in the world.

ABSCESSES, with few exceptions are indicative of constipation or drowsiness. They may, however, result from blows or from foreign bodies, introduced into the skin or flesh, such as splinters' thorns etc. Sold by Eugene A. Pfefferle.

SEE THE GREAT WATER SHOW!

Enoch, the Fish Man and Miss Marie, the Beautiful Lady Swimmer, Are a Great Attraction at the Carnival.

Enoch, the man fish, whose place is located at the carnival on the Fair grounds, is one of the greatest wonders of the day. He stays under water longer than any other performer living, holding the world's record of four minutes and forty-six seconds. He smokes, sings, plays a slide trombone, and performs many acrobatic feats, all under water, and in plain view of his audience. At each performance he remains under water two and one half minutes by the watch. He is having good crowds at his show and they all say he is the greatest wonder of the age.

Miss Marie, the wonderful lady swimmer, gives a very pleasing performance under water. The editor witnessed his performance and can truthfully recommend it to any of the ladies who may wish to attend. Nothing immoral, and it is worth five times the price of admission, which is ten cents. See Enoch by all means.

SUPERB ATTRACTION FOR SUNDAY

Turner Theatre Introduces New Feature in Amusement.

"Her First False Step," admittedly one of the best dramas of its class now before the public will be the offering at Turner Theatre Sunday, and the announcement of its appearance will no doubt be cordially received by a numerous and loyal body of patrons. The play is in five acts, each one affording splendid material for the unfolding of a very interesting story full of humor, pathos, and heart interest. There are a number of good comedy scenes in "Her First False Step" and several very pleasing specialties are interspersed during the action of the play. A very thrilling climax to the fourth act is the daring rescue of a child from a den of African lions. These animals are fine specimens of the King of Beasts and are introduced in the circus scene of the play, making one of the most novel incidents ever introduced in melodrama.

For the past year he has been teaching in the school just north of the city and will teach there again this year, his school having begun Monday.

Her parents were with those who came here to spy out the land on which this city is located, and Mr. Palmer is one of the three remaining original founders of the city. WHEAT

The undertone of strength which has been noted in the Wheat market has led many otherwise well informed persons to reach apparently false conclusions with regard to the course of the market. The fact that bull operators have emphasized the importance of disappointing yields in certain small localities, is given a fictitious value by many country traders.

On the basis of the latest Government crop estimate, our former figures of an exportable surplus from the United States of at least 200 million bushels is supported and verified. When this one fact is taken into consideration in connection with the big Canadian yield and fair crops abroad, it will be seen that a tremendous supply of American Wheat must be marketed at the world's level.

The best informed section of the trade believes that it will be difficult to maintain prices even at their present level when the new crop really begins to move to market. The foreigners which our news very closely and naturally enough are disposed to reduce bids when big supplies are available.
