There is some complaint as to the manner in which the county republican convention of this county was manipulated. As far as we are able to judge from the reports that have come in from other places, the management of the convention was not greatly different from the way in which the delegates were elected in other counties where there were candidates for state offices. The only difference here was that the delegates took it upon themselves to name the delegation and in other places it was left to the delegates by resolution of the convention.

A watchman noticed the break and flagged the night train before it reached the place. A strange feature of the occurrence is that only a short time before the track dropped two heavy freight trains passed over. It is believed that the quicksand that the track was built on slipped into the Minnesota river, which is close by. Phil. Liesch, as publisher of the Brown County Journal has been cited to appear before the federal court as a witness in the case of the Cummings Commission Co. against Edwards Wood & Co. His is one of the fifty or more of the papers of this state which accepted matter that is claimed by the Cummings people to have been libelous. The same article was sent to the Review last fall and was to have been paid for at a good rate, wherein certain specific charges were made against the Cummings people that if true were very serious. It appears now that the publishers who used these articles will have to appear in court and prove that they were paid for by the Edwards Wood people, and when there is an exodus of people from the various towns of the state making their way toward the cities with large books under their arms it will be known that the trial is on and the editors are on their way to earn a dollar a day as witnesses in this suit.

### ADDRESS OF REV. THOMAS TONIGHT

#### Congregational Conference is Now Well Under Way.

Yesterday afternoon the annual conference of the Congregational churches of this part of the state was organized and opened for work in the Congregational church of this city. Rev. M. S. Hartwell of Sleepy Eye presided. There was not a large attendance and the services of the afternoon were not attended by many others than the regular delegates. In the evening, however, there were a number of the members of the church out to listen to the Conference sermon preached by J. H. Hjetland of Winthrop.

The sermon was an earnest appeal to Christians to apply the power of the right to their living. The words of his text were "If the Son shall make you free ye shall be free indeed." Mr. Hjetland is a man who seems to have the force of conviction and speaks in a manner that indicates that he means all he says. His application of the text to the superabundance of freedom that appears to be rampant in the world was good and there was a wholesome lesson in all that he said. At the conclusion of the sermon the sacrament of the Lord's Supper was observed.

The business of today will begin at 9:30 with the reports of the churches, followed by an address. The afternoon will be taken up with the problems with which the churches have to deal, with frequent papers and addresses.

In the evening there will be two short sermons one by Dr. Merrill and one by Dr. Herrick, both of Minneapolis and the address of the evening will be by Rev. Percy E. Thomas of Winona. This is likely to be the feature of the convention and the pastor of the local church recommends that all who would like an intellectual treat come out this evening and hear Mr. Thomas.

The convention will be in session until noon tomorrow, most of the time in the morning being taken up with open discussions. The public generally is invited to any and all of the services.
