

# Only Three and One-Half Weeks Until Christmas. Have You Thought of it yet?

Below We Give You Some Suggestions. Read Them.

When you start out to buy silverware for Xmas.

You should remember that it is a journey that you take but once in a year. That indicates how important the occasion is, and for that reason you should be slow in making your decisions.

We should like to place our silverware experience at your disposal and to point out the merits of our stock. We have here a carefully chosen array of the product of the most noted makes.

We took care to have the designs, new, and we can assure you before you call that there is no chance of your going astray by letting us supply your Silverware needs. **STERLING OR PLATED.** At least make us a visit.

It's a Peach. That is, our Xmas stock and if our store now twice as large, and our stock correspondingly increased we would not be more helpful to you than we now are.

We carry all the lines that rightly belong to a Jewelry store. Our selections are complete, and the large city stores cannot beat our prices.

So we ask for your business with perfect confidence. We request you to be critical, and to judge us by the best you know of anywhere. We expect your trade only when you decide that we deserve it.

But do us the honor of giving us a chance to please you, no matter what you require anything in jewelry.

Reading our ad. which are our solicitos. What shall it be for Xmas. That's the question that is asked over and over again.

Most people agree that it should come from a jewelry store—because somehow jewelry and presents are always associated. If those interested only know it, we could relieve them of their uncertainty in a minute.

Our stock furnishes the hints. It reveals in a minute more appropriate presents than anyone could sit at home and recall in a whole day.

So we invite buyers of presents and we promise to make their choosing easy and their choice satisfactory.

Patronizing catalogues is a bad habit.

We wouldn't think for a moment of buying our stock by mail. We want to see what we are buying.

Want to examine it critically. Want to judge of its worth actually, not from a picture or a book.

We somehow think it would be more satisfactory for the public to follow that plan. Here in a jewelry stock all ready for your examination.

Styles are identical what the large city stores are showing and prices are lower.

### IF ALL Druggists

were as particular as we are about the quality of their drugs it would not have been necessary for Congress to pass a pure food and drug law. You can rest assured that anything purchased at our store is of the highest standard. Remember, that many household articles had best be purchased from us because we are in a position to detect adulterations.

We would be glad to have you trade on household articles as well as drugs.
