

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, **Swamp-Root**, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
Bottles only. Relieves indigestion, sour stomach, belching of gas, etc.

Prepared by E. C. DEWITT & CO., CHICAGO.

SEVEN MEN DROWNED

Their Boat Run Down by a Tug
in Duluth Harbor.

TWO MEN ARE MURDERED

Mysterious Crimes Baffle the Police of
Minneapolis—News of the
State in General.

Seven men in the employ of the Northern Pacific railroad at Duluth as freight handlers were drowned as the result of being run down by a tug in the local harbor while they were returning in a rowboat from work to their homes. The dead are:

Charles Hanson, John Solberg, Ole Stafness, Nels Steeper, Walter Lindgren and two unidentified men.

The seven men who lost their lives, with Hans Thorsen, Iner Skamfor, Andrew Hausen and Adolph Johnson, who had been working at Northern Pacific dock No. 2 at the foot of Twelfth avenue west, quit work and boarded a small boat to take the short cut by water to their homes on Garfield avenue, a mile distant.

They had proceeded but a boat length when a tug towing a mud scow bore down upon them and swamped the craft. The suction was so great that the men were all drawn under the scow.

Four of them, Thorsen, Skamfor, Hausen and Johnson, were good swimmers and they managed to reach the surface, but the other seven, with the exception of Solberg, were seen no more.

DOUBLE MURDER SUSPECTED

Two Men Found Dead in Different
Sections of Minneapolis.

Unknown murderers killed two men in Minneapolis early Sunday morning, evidently for their money.

The crime was not discovered until late Sunday afternoon, although the body of one victim was found on the railroad tracks in the morning, where it had been placed by the murderers.

The lifeless body of Andrew Bjerklund, 2518 Eighth street south, was first found, terribly mutilated, under the wheels of a freight car on the side track of the Minneapolis and Western railway at the foot of Twelfth avenue south. Trainmen discovered the body and as it was supposed that the man had been the victim of an accident no particular investigation was attempted.

About 5:30 in the afternoon a colored man walking through a patch of weeds at the foot of Twelfth ave, near First street, discovered the body of the second man, who has not yet been identified. An examination disclosed the fact that the man had died from a bullet wound in the head.

The discovery of the second man, who beyond doubt had been murdered, caused a further investigation into the death of the first victim. Bjerklund's head was found to be crushed as though he had been struck with some heavy and blunt instrument. The wound would in itself have caused death or unconsciousness, and it is believed his body was then placed on the tracks in an effort to hide the crime and the real cause of death.

ENDS LONG LITIGATION.

Trustees of Hastings and Dakota
Land Grant Secure Titles.

State Auditor Iverson of Minnesota has turned over to the trustees of the old Hastings and Dakota railroad deeds representing 20,904.47 acres and thus closes another chapter in the litigation which has involved this grant during the past twelve years. The lands will now get on the tax rolls and the state will be the gainer.

The deeds have been turned over to Owen Morris of St. Paul, land commissioner for the trustees, and now many titles heretofore in controversy will be cleaned up. Another deed for a small amount of land remains to be given and then the whole thing will be past history.

The deeds covering the grant, together with the number of acres involved, are located in the following counties: Swift, 11,119.38; Stevens, 5,191.18; Big Stone, 2,961.44; Chippewa, 1,998.80; Kandiyohi, 240; Yellow Medicine, 160; Lac qui Parle, 93.67; McLeod, 40.1.

LOOT POSTOFFICE SAFE.

Burglars Secure Cash and Stamps in
Minneapolis Suburb.

A bold postoffice robbery has been perpetrated at Columbia Heights, Anoka county, a few miles outside of Minneapolis.

The burglars locked all the doors through which interruptions might come and barricaded the stairway leading to Johnson's restaurant next door and to Postmaster J. B. Cornell's rooms. They then took their time in ransacking the office, getting \$50 in cash and \$250 in stamps.

The blowing of the safe with nitroglycerin aroused Cornell and Johnson, and they dug through the barricade in time to see the burglars drive off toward Minneapolis.

Nitric Acid Fumes Fatal.

John Symonds, aged thirty years, a St. Paul salvage corps fireman, is dead at the city hospital. Symonds inhaled nitric acid fumes while fighting a fire in a boxcar, and from the first his condition was considered critical. He died in great agony.

QUITS GREAT NORTHERN.

Vice President McGuigan Has Dis-
agreement With Hill.

F. H. McGuigan, first vice president of the Great Northern Railroad company, has resigned. His resignation nominally will not take effect until Sept. 1, but Mr. McGuigan admits that his connection with the railroad in an active official capacity already has ceased. Disagreements with James J. Hill are responsible for Mr. McGuigan's sudden resignation.

Mr. McGuigan came to St. Paul in April to become vice president of the Great Northern and almost from the start an undercurrent of antagonism was manifest between him and Mr. Hill. Gradually the feeling became more and more personal until finally Mr. McGuigan decided to resign.

Mr. McGuigan was formerly fourth vice president of the Grand Trunk railroad, which position he held for eleven years, with headquarters at Montreal. He is known throughout the country as a railroad manager of exceptional ability.

IRON ORE SHIPMENTS.

Now Greater Than Before Strike on
the Ranges.

Mines tapped by the Great Northern on the Mesaba range in Minnesota are now mining more ore than they were before the strike. The Great Northern is also carrying more ore to the docks than it did before the miners went out.

In the twenty-four hours ending at midnight Wednesday night the Great Northern shipped from the Kelly Lake yards near Hibbing 32 trainloads of 70 steel cars each, whereas before the strike the average daily shipments of ore was 25 trains of 60 cars each.

The Duluth, Missabe and Northern on Wednesday shipped 30 trains of 48 cars each and all the mines in the Hibbing district tapped by this road are now working with the exception of the Winnifred, a shaft mine belonging to the United States Steel corporation. About 95 per cent of the customary amount of ore is now being sent down from both the Mesaba and Vermillion ranges.

DUE TO FAMILY TROUBLES

Prominent Resident of St. Paul Ends
His Life.

Ross Clarke, aged fifty-three, prominent in business and political circles at St. Paul, committed suicide by taking carbolic acid at his summer home at White Bear lake. Mr. Clarke apparently had been dead for a couple of days when the body was found, his wife and son having left for Fond du Lac, Wis., Friday following a family quarrel and Mr. Clarke was alone in the cottage when he swallowed the fatal dose. Mrs. Clarke was known by friends of the family to have been extremely jealous of her husband and to have accused him of misconduct. The accusations were without foundation, friends of the dead man say, but the fact that his wife distrusted him and that his son had turned against him preyed heavily on Clarke's mind and this is believed to be the sole reason for his self-destruction.

COUNT GERMS IN MILK.

Mankato Accepts Bacterial Standard
of State Board.

The state board of health has been notified that the city of Mankato has adopted a bacterial standard for its milk supply. Mankato is believed to be the first city in the state to protect its milk consumers in this way.

The standard adopted is the same as that of Boston and is very liberal. It allows not more than 500,000 bacteria to the cubic centimeter. That means about 2,000,000 to the teaspoonful. The best milk has much less, but dirty milk has many times more.

The bacterial count will be made for Mankato at the laboratory of the state board of health. The board stands ready to do this work for any city in the state that adopts a bacterial standard.

Dealer Used Adjustable Measure.

John O'Donnell, a Minneapolis potato peddler, was fined \$75 in the Minneapolis police court for using a telescopic measure in apportioning out pecks and half pecks of "spuds." He was arrested some time ago by Frank Gaylord, state sealer of weights and measures. This measure used by O'Donnell works like a folding drinking cup and when the customer is not looking the peddler pushes in the bottom to give small weights.

Increased Pay for Teachers.

Minneapolis teachers have won another victory in their campaign for higher salaries. The board of education has adopted a resolution advancing the maximum salary for grade teachers to \$1,000 and it now remains for the board of tax levy to provide for the increased payroll by adding to the levy for school purposes as authorized by the new law.

Accident Results in Death.

William L. Qualey, fifty-eight years of age, manager of the St. Paul Marble and Granite company, accidentally shot himself through the abdomen in that city while he was cleaning a .38-caliber revolver, from the effects of which he died at the city hospital in less than half an hour after he was placed on the operating table.

Runaway May Be Fatal.

Miss Emma Pearson of Grove City, this state, was dangerously if not fatally injured by being thrown from a buggy in a runaway at Battle Lake. Mrs. P. N. Lundquist of Battle Lake had both arms broken in the same accident.

POWER OF SOCIALISTS

Will Soon Rule the World, Says
Professor Bushnell.

INCREASING SOCIALISTIC VOTE

Unequal Distribution of Wealth and
Poverty the Causes, Says Lecturer.
One-twelfth of American Wealth
Represented by Steel Trust Directors.

Professor Charles J. Bushnell recently delivered a lecture at Washington in which he said that the time was not far distant when the Socialists will hold the balance of power in the various governments, if, indeed, they do not now control in several of them.

"The Improvement of Industrial Conditions" was the subject of his lecture, and he laid particular stress upon these propositions, says a Washington special to the New York World:

That since the organization of the trusts (of which, out of the 400 largest, all but ten have been started since 1890) there has been a wonderful increase of trust made products, amounting in many instances to two, three, four and even six fold.

That the wealth of the country is increasing at the rate of \$5,000,000,000 a year. That its distribution is becoming increasingly disproportionate, causing great injustice, hardship and suffering.

That the control of the nation's wealth and through it of the nation itself is fast centering in the hands of a few, one-eighth of the families now owning seven-eighths of its wealth. It is said on good authority that the control of one-twelfth of the nation's wealth is represented at the meeting of the twenty-four directors of the United States Steel corporation alone and that the all important railway systems of the country are controlled by just six men, with only one supremely dominant.

That, on the other hand, 10,000,000, or one-eighth of the people of the country, are in constant poverty, while 4,000,000 are paupers.

That through poorly co-ordinated and selfishly administered industrial enterprises nearly 1,000,000 ignorant immigrants are landed each year and congested in the most crowded industrial centers. In the city of New York an average of one immigrant arrives every forty-two seconds, and an arrest occurs every four minutes.

That under the pressure of these abnormal conditions drinking, smoking, murder, suicide, insanity, robbery, graft and social vice are increasing faster than the population, causing financial loss that more than counterbalances our annual national gain of wealth.

"There are many people in this country," said Professor Bushnell, "who still do not think that any important changes have lately occurred or are about to occur in our industrial and political life. To convince such that they should be more wide awake to the signs of their times let me present, as an inflexible adherent of no one political party or creed or tenet, a few evidences that 'the old order changeth, yielding place to new'."

"The modern trust is the response under individualistic conditions to the inevitable demand for a more unified and economical business organization. And socialism itself, with all its past faults and failures, is but the further effort to carry the will of the people effectively into our industrial as well as our political life. By its demand that we should own and control collectively what we need to use collectively socialism is a protest against the theory that all a workingman needs and wants are a roof, a family and a full dinner pail. It is an aspiration for a fuller and nobler social life."

"So we might point out the same democratic tendency in every other great social reform force of our day. That many people are coming to believe in socialism Europeans are much better aware than are Americans."

"Here is a statement of the increasing Socialist vote of recent years in the different countries:

	Year.	Vote.
Germany	1867	30,000
Germany	1907	3,250,000
France	1867	47,000
France	1900	880,000
Great Britain	1895	55,000
Great Britain	1906	342,000
Italy	1882	49,000
Italy	1900	215,500
Belgium	1884	320,000
Belgium	1902	467,000
Switzerland	1854	3,591
Switzerland	1902	100,000
Denmark	1872	238
Denmark	1903	55,000
Austria	1867	750,000
Austria	1901	750,000
United States	1888	2,038
United States	1904	442,402

"Some of these votes, notably in Austria, have greatly increased since the last date here given, the total Socialist vote of the world having increased from 30,000 in 1867 to more than 7,000,000 today. In 1903 there were 687 Socialist journals and 321 Socialist legislators out of a total for the leading countries of the world of 5,192. In the principal countries of Europe the Socialists have now set the main issues for every political party, and it appears to be only a question of time and a not very distant time when they will do so in America."

"At the present rate of increase, in spite of all kinds of legal and political obstacles, how long do you think it will be before the majority of the great nation's 5,000 legislators are Socialists? And, if this majority is gained, then the question of industrial betterment is bound to take a new turn, for which every intelligent person should be prepared."

"If we can keep our American citizenship unselfish, intelligent and truly patriotic we need have no fear for the future. If not we will have trouble."

Burbank Daisy Its Official Flower.

The Alaska daisy, conceived by Luther Burbank of Santa Rosa, Cal., five years ago, will be adopted as the official flower of the Alaska-Yukon-Pacific exposition, says the Seattle Times. The Alaska daisy was grown by grafting a field daisy and a chrysanthemum. Extensive beds of Burbank's flowers will be scattered through the 1909 fair grounds.

Angelina Breakfast Food.

Fresher than package goods, costless, tastes better. Sold at all grocery stores.

New Ulm Roller Mill Co.

Just got in a large stock
of Tin and Granite Ware.

We handle the celebrated Jewel Cooks, Ranges, Heaters and Furnace.

We also carry a large line of Carpenter Tools and Heavy Shelf Hardware.

In connection with our store we run a tinshop repair and job work promptly done. Estimates given on all job work.
