Mr. and Mrs. Nic Andring went to St. Peter on Monday of last week to attend the wedding of the former's niece, Miss Margaret Andring, to Mr. Arthur Veith, a prominent young business man of North Mankato. After the ceremony the bridal couple accompanied Mr. and Mrs. Andring to their home in this city and, after a brief visit, started west on a honeymoon trip.

Petitions are being circulated appealing to the board of commissioners of Nicollet county to do something towards raising the roads leading up to the Wiesenthal bridge. Copies of the petition are to be found at the business places of Crone Bros., Bastian & Marti, Ernst Laue, F. H. Retzlaff and Robert Fesenmaier, and it behooves every Nicollet county farmer who does his trading in this city to make it a point to sign one of them.

B. Stockman and J. A. Ochs, representing the Commercial Club, had a conference with Gen. Passenger Agent Cutts of the Minneapolis & St. Louis road last week regarding the need of improved passenger train service between this city and Minneapolis. Mr. Cutts gave them considerable encouragement and stated that if anything could be done it would be done by June 1st. The schedule suggested by the New Ulm men included a train leaving here between five and six o'clock in morning and returning at night.

An audience that practically filled the big theatre witnessed the forty-third anniversary celebration of the Turner Zooglings-Verein Saturday evening. Following an able address by Capt. Steinhäuser, in which he briefly outlined the principles of the Turnverein, an excellent program of gymnastic and calisthenic exercises was carried out under the direction of Prof. Hein. Nearly a hundred pupils participated and there was hardly a number that did not merit, and was not greeted with enthusiastic applause. After the exercises, the children were permitted to indulge in the freedom of the hall.

Pride. 'Arry and his best girl were discussing recent events in the High street, Bethnal Green. 'Arry—Did you read the list of presents Ann Smith had for her wedding? 'Arry—Yes, I did. The idea for such as them 'avin' the wedding put in the paper! They might be bloomin' harlots. 'Arry—Fancy her mother givin' her such a 'andsome present as a 'orse and trap! 'Arry—Garn! It was a clothes'orse and a mouse trap. I've seed 'em. That's their bloomin' pride!—London Scraps.

Cobless Corn Experiment.

E. P. House of Greeley, Colo., the dry farm plant experimenter, has received from H. J. Sconce of Siddell, Ill., one seed of cobless corn grown by the Illinois man. House asked for three seeds to plant in a hill, but only one could be spared, and it will be carefully tended. The cobless corn grown by the Illinois man resembles very closely the "primitive husk" corn. Each kernel grows on a parent stem, and each kernel is inclosed in its own husk, all being enveloped in one large husk. The Illinois man has succeeded in eliminating the stem and by taking the very tip of the kernel of the present variety expects ultimately to evolve a perfect cobless corn. The Illinois Agricultural college is fostering the experiment and believes in its success.

New Way to Forecast Weather.

To test the water of Lake Michigan and thereby get the information necessary to forecast the weather is the plan of Major H. B. Hersey, the weather bureau inspector at Milwaukee. He says that to obtain the necessary data will be a work which will require at least three years' experiment, and then there will be every reason to expect successful long distance forecasts can be made. He says there is no doubt that the water of the lake controls the temperature of Milwaukee, and the proposition is to ascertain the temperature of the water at the surface and at twenty-five and fifty feet below it under varying conditions for three successive seasons.
