

THE BROWN COUNTY FAIR

The Program Surpasses Anything Heretofore given. Exciting Races. Auction Sale of Pure Bred Cattle. Fine Industrial Exhibits. Refined Entertainments.

Arrangements Completed.

Those who attended the Concert and Dedication of the new Exhibition Building at the fair grounds on Saturday, were very greatly surprised at the altered appearance of the grounds. Not alone did the beautifully illuminated and decorated new hall meet their gazes, but also the new section of wire and cement enclosure on the south side of the grounds, and the new barns for the pure bred cattle, being large enough to accommodate from 50 to 75 head.

However, this will not be the only surprise to the visitors at the Brown County Fair, Sept. 13-15, as the management of the fair has several more in store. The program that will be offered this year will surpass anything heretofore given at the county fair. The free acts will all be of "state fair" caliber, comprising such acts, as, the "Brazely Sisters", European acrobats, this being their first appearance in the United States; also, "Douglas and Douglas" with their trick dog in refined comedy; and the great "Samoya", doing an aerial casting and Roman King performance.

The premium list for the fair has been very thoroughly revised this year. In some classes, notably for horses, cattle, swine and sheep, the premiums have been nearly doubled. This increase in the amount of money offered has proven to be quite an inducement to the raisers of stock, etc., as the exhibits that have been promised for these departments will eclipse any exhibit that has been shown at the local fairs. An equal interest has been noticed in all the other departments, and the mercantile displays will be in keeping with the spaciousness and general appearance of the new hall. Judging from the present demand for space, these merchant's exhibits will be a striking feature.

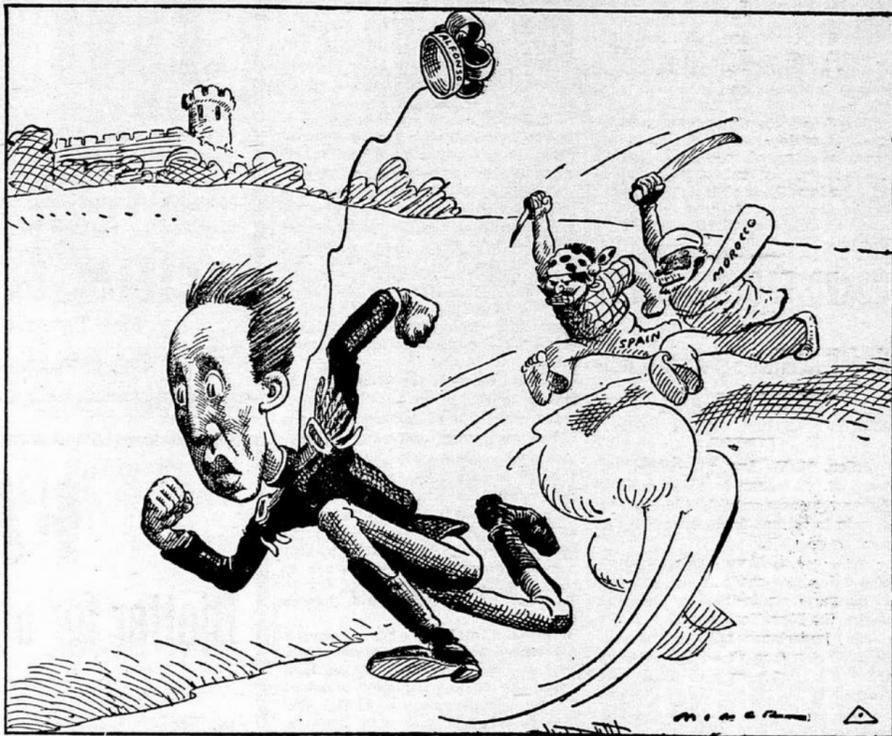

One need only look over the list of fast horses entered, to be sure of seeing the best races that have ever been pulled off on the New Ulm track. Never before have horsemen sent in entries from so many parts of the surrounding states. This in itself will guarantee that there will be no jockeying during the races, as they will all be out for the money, and each one will be there to win. Friends of our local "horseman", Cap Neno, are taking great interest in the races, for the reason that "Cap" has entered his mare "Axtella Wilkes" in the 2.30 trot. From the form this horse is showing at present, she is certain to win part of the purses, which would surely meet with local approval. There will also be a running race each day of the fair, as the runners are always certain to produce enough excitement.

To say that the display of horses, cattle, etc. will be better, is stating it very mildly. The interest that the breeders of stock are showing in the county fair, shows that they are beginning to realize the value, educationally and financially, of the fair as regards the development of the best in the line of stock raising and agriculture. To accommodate the increased number of cattle that will be at the fair a new barn has been built, which more than doubles the present capacity.

The new feature in this department is the auction sale of pure bred cattle and swine which will be held on the fair grounds on Wednesday, Sept. 15, at P. M. Mr. Cottingham of Illinois has been engaged as auctioneer, and no farmer should miss this sale. He will not only gain valuable information on the good points of the stock, but at the same time will have a chance to buy some pure bred at a reasonable price.

From the foregoing it will be seen that the fair association has spared no expense to make this a success in every way, and the best fair that was ever held in this or any neighboring county. It is hoped that these efforts will meet with the proper appreciation not alone by increased attendance, but by a spirit of co-operation

"AFTER YOU, MY DEAR ALFONSO!"

—Minor in St. Louis Post-Dispatch.

by the people in general, and a continued boosting of the fair. There is not a more public spirited enterprise in the county, and, if properly encouraged, no institution that will do more for the development of the natural resources of the county. By boosting the fair you are helping your own interest, and doing so, by attending the fair, you will also spend an enjoyable day. Let no one forget the dates, Sept. 13, 14 and 15.

From a thousand Northern newspapers, and a half dozen in the South, will come deploring sermons on the latest Louisiana mob, wherein a bad negro was shot and burned. It will be pointed out that the mob is as savage as the beast it slew, and that the laws of this country are something of a farce. And in all of this there will be truth which will do little good, and one important point will be lost sight of: as bad as a mob is, it takes something to start it. No well-behaved man, white or black, is ever lynched, and, while colored men are the most frequent victims, they are well aware of the remedy, and that it lies within themselves, rather than in sermons on mobs.—Aitchison Globe.

Baseball Notes.

New Ulm 8; Springfield 5.

The home team won an easy victory over Springfield on Sunday at the Fairgrounds by a score of 8 to 5. Klossner's great batting and baserunning was sensational and Pfeiffer also slugged hard. In the fourth inning Klossner put the boys in the lead by singling and then pilfering second, third and home. After that it was easy. Although the New Ulm team made quite a few errors, their batting and Neumann's good pitching won the game for them.

Sleepy Eye Juniors 2; D. W. 1.

Dame Fortune smiled upon Sleepy Eye and graciously allowed them to snatch a victory from the Websters. Without a doubt they had luck. Their first run came in the second inning. McMaster reached first on an error and stole second. In attempting to steal third he was caught in a hot-box but the ball hit him in the back and he scored. The New Ulm boys tied in the 5th. With one down, Berg scraped a hit to short and was sacrificed to second by Mayer. Seifert was there with the pinch single and Berg scored. In the ninth, Cutting reached second on Seifert's error and when he attempted to steal third he was also caught in a hot-box but was hit in the back and reached third safely. Then W. Berg hit a slow along the first base line which Umpire Tohl called fair, but the home boys insist that it was foul by at least a foot. Aside from this and one or two other decisions Tohl's work was first rate. The Sleepy Eye team treated the New Ulm boys in a fair and gentlemanly manner. Sensational catches by McHale, Berg, Seifert and Baer together with the wonderful pitching of Schneider featured the contest. The game was played in

record time, lasting only 1 hr. 5 min. Next Sunday the two teams will probably meet here at the Fairgrounds and a fast game is expected for the locals are determined to get revenge.

Hit by pitched ball, A. Schmidt by Schneider. Struck out, by Schneider 13; by Meidl 5. Left on bases, D. W., 2; S. E. J., 1; Time, 1:05. Umpire, Tohl.

New Ulm Fans.
It seems queer that a city of New Ulm's size cannot give as good support to their ball teams as the smaller towns give to theirs. Sleepy Eye is supporting two salaried teams, besides three others. The Autos and the Daniel Websters have good teams, but do not receive any support worth mentioning. The fans in Winthrop, Sleepy Eye, Fairfax and the other surrounding towns seem to be made of better stuff than the New Ulm variety. If it keeps up, New Ulm, as far as baseball is concerned, will be off the map. For the few remaining games of this season the local teams ought to receive better encouragement.

The village water tank at Lester Prairie burst last week and fell to the ground from a 90ft tower. The tank was filled with 200 barrels of water and came near drowning two people who were in that vicinity.

Hastings, Minn.—While a multitude of people were watching two acrobats perform on a stage in the street Chas. J. Raetz, an electrician, descending a pole across the street, while working on carnival decorations, came in contact with high-power wires, received a shock of 2,600 volts and dropped dead on the pavement.

St. Paul.—Warrants were issued for the arrest of F. J. Huber, president of the common council, also proprietor of Huber's cafe, W. G. Carling and Anton Miesen, two other cafe proprietors, charging them with violating the law regulating the sale of liquor.

ADIEU NEW ULM.

Young Men and Women in Search for Wisdom. Will Enter Various Institutions of Learning in Different Parts of the Country. Splendid Prospects in Store for All.

A Creait to Their Home Town.

Every year a number of promising young men and women leave our beautiful city to go out into the world, some in search for employment which they can not find in their home town, others to seek more information and learning in some well known college or university. New Ulm can well be proud of her sons and daughters that are scattered all over the states. Wherever they go as laborer, student, professor, teacher or business man they are a credit to themselves as well as to the place they hail from and in most cases they ably fulfill the duties and obligations in responsible positions. Following are the names of the young people, mostly graduates from our schools, who will shortly leave for various cities to take up and complete their studies. 'The Review extends to them a hearty "Farewell" and the best wishes for the future welfare: Otto Buenger, Robert Koch, Mankato Business College; Edward Critchett, engineering dept of U. of M., Mpls.; Chr. Dahl and Wm. Dummer, Illinois Medical College, Chicago; E. C. Dirks, Ohio Wesleyan University, Delaware, Ohio; Viola Fenske, State Normal, Mankato; E. Green, Dartmouth College, Hannover, N. H.; L. Hensel, State Normal, Mankato; Frances Krook, Lutheran Seminary, Red Wing; Olga Mueller and Alma Mayer, Carlton College, Northfield; R. Neumann, Turner Teachers Seminary, Indianapolis; Gus. Zelle entered the Navy and is now in Newport; John X. Neumann, student and assistant teacher in the department of chemistry, Madison, Wis.; Francis Critchett, student and ass't teacher in the college of education U. of M., Minneapolis; H. Huevelmann, Engineering Dept' U. of M., Minneapolis; Otto and Arthur Seifert, Medical Dept' U. of M., Minneapolis; Chas. Schoregge and Frank Pfisterer, Medical Dept', Ann Arbor, Mich.; Geo. Schmidt, Chemical Engineering Dept', U. of M., Minneapolis; Albert Flor, and Edgar Zelle, Law Course, Minneapolis; Alfred Mueller, St. Paul College of Law, St. Paul; Edith Current and Vera Strickler, Academic Course, U. of M., Minneapolis; Howard Klossner, Carlton College, Northfield; Henrietta Hauenstein, High School, Ann Arbor, Mich.; Kasson Seiter, Lewis Institute, Chicago; Irma Juni and Loida Beussmann, State Normal, Mankato; Roy and Sidney Alwin, U. of M., Minneapolis.

Mineral Springs of New Ulm.

In view of the fact that some neighboring towns are making strenuous efforts to secure sanatoria and profitably exploit the mineral springs within their limits some enterprising New Ulm citizens interested themselves in this project and investigated the possibilities of erecting a sanitarium in our own midst. And, indeed, they seem to be on the way to success. There are springs near the Schell brewery, which according to the analysis given below seem to fully warrant any effort in this direction. It is now up to the medical profession to determine whether the water contains sufficient medicinal properties to warrant the erection of a sanitarium and if so the citizens of New Ulm, to a man, ought to push the scheme of utilizing this resource up to the time, when it can be announced to the world that New Ulm is as fine a health resort as can be found anywhere in the Northwest. Here is the analysis of the Schell mineral water by H. D. Valin, M. D. Pathologist, St. Peter, and that of the Jordan, Minn. Springs by Valin, Drew, Carel and Frankfort: Schell

Foreign Crop Conditions.

Now that mid-harvest has been reached in Europe, it is possible to estimate with greater accuracy than heretofore the crop outlook.

In central Europe conditions are the least promising. The weather last month permitted little improvement; in Germany and Austria-Hungary a considerable decline in this year's wheat crop and a moderate decrease in rye seem assured. From the latest returns it seems likely that the reduction in wheat will be 50,000,000 bushels below last year, when a bare average crop was reaped.

Western and southwestern Europe are reaping crops much more satisfactory. In Great Britain, on an increased acreage, the condition of wheat is placed 4 per cent above average. In Spain a yield is expected sufficient to supply the domestic demands. In Italy the crop yield generally seems satisfactory, but the quality is poor. An official estimate places the probable harvest 10 per cent, or about 15,000,000 bushels above last year. The latest official crop report of France is unfavorable as regards conditions, but an average wheat harvest is still possible, owing to the increased area.

Throughout eastern and southeastern Europe good crop conditions have been maintained. In Roumania, in spite of a smaller area of wheat, a crop much larger than last year is expected. In Bulgaria and Serbia the promise is favorable, while in Russia the crops are rated good. In the latter country the acreage of winter wheat is undoubtedly less than last year, but spring wheat is the crop much more largely grown.

The stocks left over from last year have run low, and the lateness of this year's harvest in importing countries will cause a further drain. While the European harvest as a whole will undoubtedly be larger than those of the last two years, when there was a serious crop shortage, it is unlikely to come up to that of 1906, or even of 1905.

It is still too early to judge of the between-season crops to be furnished by India, Australia and Argentina. The favorable monsoon in India gives promise of a favorable season, but it must be borne in mind that the next wheat crop has not yet been sown there. Seeding in Australia has been favored by plentiful rains. In Argentina serious drought prevailed for months and at the date of the latest reports had been broken only in part; a large decrease in the area under wheat seems certain.—Crop Reporter.

PARALYSIS SPREADING.

Closing of Schools Seriously Considered. Two More Deaths and 15 New Cases of Mysterious Disease Reported. General Quarantine Ordered. Pla-cards to be Posted on Houses.

Situation Is Grave.

It is now admitted by the health authorities of St. Paul, that the city is in the throes of a peculiar and serious epidemic. Infantile paralysis is spreading so rapidly and alarmingly that its possible effect on the opening of the public school was seriously considered by Chas. W. Gordon, president of the board of education.

At first it was believed that many physicians were diagnosing other diseases as infantile paralysis, but this idea has been abandoned by the health authorities, and it is now believed that there are many cases scattered throughout St. Paul that have not yet been reported.

"The entire medical profession in St. Paul," said Dr. Armstrong, "is interested in checking the epidemic, but all of the physicians admit that so little is known of the disease that little beyond experimenting can be done.

The increase in the number of cases moved Health Commissioner Dr. Renz to order a general quarantine in every house where the disease exists; placards must be posted the same as in other contagious diseases. For the past week two more deaths and fifteen new cases were reported. This makes 112 cases since the epidemic began a month ago.

NEWS ITEMS OF THE NORTHWEST

St. Paul—The Ramsey county legislative delegation is planning on a banquet or some other form of entertainment for the Hennepin and St. Louis county delegations some time during fair week.

Pierre, S. D.—Permission has been given by the Indian department for a band of Sioux Indians to put on a realistic exhibition of Custer's last fight at this city during the Grass Belt exposition, which will occur during the registration for Cheyenne River reservation lands in October. The Indians will be from the Cherry Creek section of the state, and Chief Iron Lightning, who was one of the leaders in the real fight, will be in charge of the Indians who are taking a part, among whom will be a number of the participants in that fight. This attraction will be a drawing card, and those who come to this city to attend the registration will be given an opportunity to see this historic reproduction.

White Earth, Minn.—John R. Howard, superintendent and dispensing agent, has received instructions from the Department of the Interior that all saloons doing business within the White Earth reservation be notified to close within 30 days. The agency police served notice to all persons in the liquor traffic at Callaway, Ogema, Waubun and Mahomen that they must quit business.

Aberdeen, S. D.—The police are searching for a man named Coleman, who shot Elmer Howe, a hack driver, four times in the arm after a dispute over fare. Coleman was arrested here three weeks ago by a detective on suspicion of robbing the Bank of Tulara on the night of June 19, but was discharged at Redfield on lack of evidence.

Muscataine, Ia.—The terribly mangled body of an unknown man was found on the St. Paul railroad bridge near Conesville. He is believed to have been struck by a train and ground to pieces. The badge of a game warden was found on the remains.

Farmington, Minn.—Postmaster H. H. Judson starts out on the second cycle of 25 years in the service of the government as postmaster here. He celebrated his silver anniversary.

St. Paul—Gen. C. C. Andrews, state forestry commissioner, in his annual report given to the press estimates that forest fires in 1908 in Minnesota caused a loss of \$2,000,000, of which \$1,500,000 is charged to the fire that laid waste the territory around Chisholm. The fires burned over 405,748 acres, but much of this was land already cut over.
