The finding of the body of a man named Miller on the railway track Monday morning created a sensation at Sanborn. The body was lying outside the track, the head was between the rails. While apparently it seemed that the man's head had been cut off by the train, indication aroused suspicions that the man had been killed and placed on the track. The affair was investigated by the county coroner; but the nature of the report of the coroner was not learned.

One of the greatest Sunday school conventions ever held will come off when the Minnesota Sunday school association meets in Minneapolis April 12-14. It is stated that about 300,000 scholars, 40,000 officers and teachers and 2,000 preachers of all denominations are interested in the great convention. It will be the greatest gathering of the Sunday school hosts of Minnesota ever assembled anywhere in the Northwest. More than 2,000 delegates will be there. The greatest World Spectaculars in Sunday school work will be there. All the great leaders in Sunday school work of all denominations in our own state are coming.

### Holy Week.

Last Sunday was Palm Sunday and the day was duly observed in the churches by special services. Marking the beginning of Holy week it ushered in a number of days of special church services, preparatory to the observation of Easter Sunday.

Members of the Catholic church were given a branch which had been blessed by the priest. It was taken home and will be kept for one year in commemoration of the triumphal entry of the Lord into Jerusalem.

The Protestant churches had no special ceremonies, but the day is usually known as "Confirmation Day."

All the churches very generally observe Holy Thursday, which day is commemorative of the Last Supper, and Good Friday will be recognized with services in concordance with the significance of the day.

Mrs. Otto Pollei, who has been seriously ill for some time is rapidly recovering.

Wm. Wotschke of Sleepy Eye called on friends and relatives Sunday and Monday.

Residents along State str. and Broadway do not seem to be favorably inclined toward the scheme of sprinkling those streets this summer. The question was to have been settled at the special meeting of the city council last Tuesday evening, but owing to the fact that no estimate of the exact cost against the property on those streets could be given and considerable opposition was manifested the council decided to postpone the final action to the next regular April session, when city engineer Blomquist will submit an estimate of the cost and the pros and cons will be heard.
