* Oil and Gasoline Users. Water in oil and gasoline is caused by condensation. The oil and gasoline sustaining a different temperature than the surrounding atmosphere causes sweating, illustrated by a glass of ice water on a hot day. We eliminate this water by a new process of filtration. Wm. A. Pfeferle, The Pure Food Grocer. Phone 77. 2t

District Court.

The May term of the Brown Co. District Court which was convened last Tuesday by Judge Olsen is still hard at work cleaning up the cases on this term's calendar. The Grand jury was in session up to Thursday noon, returning one indictment against John Gewert, charging him with assault in the second degree. No bill was found against Emil Hoffmann of the Town of Home. As is customary for the Grand Jury to inspect public buildings this august body went to the county Poor farm and thoroughly investigated this institution. Everything was found to be in tip top order. They made their report accordingly, stating that everyone officially connected with the institution has performed his duty to the satisfaction of the law.

The petit jury met Wednesday noon and the following who had been drawn to serve on the jury were excused: Joseph Seifert and H. S. Romberg on account of sickness in their families; L. P. Isaackson of North Star, on account of old age; George C. Eckstein, of Sigel on account of sickness and Prof. Blauert principal of the Lutheran school was also excused.

In the case of Wolfgang Hacker vs. Rupert Altmann et al., an action to recover \$115 for damages in the construction of a ditch the jury rendered a verdict for \$116.37 in favor of the plaintiff.

In the case of Herman Tessmann vs. Otto Wellner the jury decided in favor of Otto Wellner designating him as the owner of two pigs giving him a verdict of \$15 for feeding and keeping the animals.

The damage suit of mail clerk J. J. Moriarty vs. Northwestern Railroad was settled out of court, the plaintiff receiving the sum of \$750. It will be remembered that Mr. Moriarty was seriously injured in a collision last March at Kasota.

In the case of S. A. Skoglund vs. August L. Matter which was continued from the last term, Judge Olsen will issue an order at some future date.

The case of the City of New Ulm vs. Mrs. Frances Boesch was ended by Judge Olsen directing the jury to bring in a verdict in favor of the City of New Ulm for the sum of \$1200.80. A history of the case will be found elsewhere in this issue.

At the time of this writing the \$10,000 slander suit of H. L. Chaffee vs. E. F. Berkner is well under way. A number of witnesses have been examined amongst whom were two linguistic experts—F. W. Johnson and Jos. A. Eckstein—to give a full and comprehensive definition of the term "Tin Horn Sport". The case was given to the jury at four o'clock Tuesday afternoon. We are unable to publish the result of their verdict.

FAMOUS COLUMBIA RIVER ON TERRIFIC RAMPAGE

No Danger to Near-by Residents, However, as Titanic Banks of World-Famed "Stream" Afford Splendid Protection.

Omaha, Nebr. — Displaying itself with all its scenic glories multiplied a hundred-fold, the world-famous Columbia River, which winds down, through, in and out and around the Rocky, Selkirk and Bitter Root Mountain chains and empties into the Pacific, is today on a howling, yet harmless rampage.

The rushing, whirling, terrific, seemingly ferocious waters of the Columbia are described by travelers, just returning to this city from the far northwest, as today the finest scenic feature of the entire "gallery of America's prize scenery," as the wonderlands of that part of the northwest are known. Yet the rampage of the Columbia only enhances the beauties of the scenic attractions, for the river's ravings are harmless, the Titanic rock banks all along its course giving absolute protection to residents, settlers, farmers and fishermen. Thus the Columbia River's course is made the greatest of western attractions for travelers this summer, as, according to predictions, the rampages of the Columbia invariably continue for great lengths of time.

With the receipt of the news from the northwest, the issuance of the book "The Columbia River," by E. L. Lomax, G. P. A., Union Pacific R. R., is especially timely, as it gives the entire history of the notable river from the day of its discovery to the present year, along with fascinating photographs. Copies of the handsome little book will be sent free upon application to E. L. Lomax, G. P. A., Union Pacific Railroad, Omaha, Neb.
