

## HOSPITAL MEETING A SUCCESS

### Steps Taken at Meeting to Perfect an Organization. Committee to Draft Constitution and Press Agent Elected.

The meeting held Thursday evening at the Lutheran parochial school for the purpose of discussing matters pertaining to the new hospital to be erected in our city next year was well attended as far as the medical fraternity and citizens from here was concerned. Owing to the inclement weather, some of the ministers from neighboring points, who had promised to attend, were kept away.

After the meeting was called to order, an organization was perfected by electing Prof. John Meyer of the college as chairman and Rev. J. Duesterhoft of Sanborn, as secretary. When called upon, Rev. C. J. Albrecht stated that the meeting had been called for the purpose of organizing a hospital association upon which would devolve the erection of a modern, up-to-date hospital, of which the Lutherans would take the active management if asked to do so. He made it plain that the local Lutheran church and the Lutheran Synod did not stand sponsor for this project, that the contemplated hospital would not be a Lutheran nor a Protestant hospital, but a public institution to which any patient could gain admission and receive care and treatment.

The physicians who were present gave it as their opinion that a modern hospital for New Ulm is a public necessity and the support given it would be ample not only to justify its erection, but to make it self-sustaining in a very short time. It was thought that a hospital costing between \$20,000 and \$25,000 would be large enough for present needs and

that additions could be built as soon as the increasing business warranted it. Every one present seemed confident that this amount of money could be easily raised among our own citizens and communities tributary to New Ulm. The necessity of securing some one to solicit subscriptions for the new hospital seemed apparent and Rev. C. J. Albrecht stated that possibly the services of E. J. Buehrer, formerly with the New Ulm Publishing Co., could be secured. At this writing no definite agreement, however, has been entered into. Prof. A. F. Reim was elected as press agent and it will devolve upon him to give this project due publicity. It was decided not to call upon Catholic church members for aid as they have their own hospital to support, but any voluntary contributions will be gladly accepted.

A committee was elected to draft a constitution which is to be presented at an adjourned meeting to be held at the Lutheran school house Tuesday evening, Nov. 28th. This committee consisting of Rev. F. Westerkamp, of Springfield, as chairman and Dr. L. A. Fritsche, Rev. C. J. Albrecht, Prof. J. Meyer and Conrad Dirks, all of New Ulm, will meet at the office of Dr. L. A. Fritsche Friday evening for the purpose of preparing suitable articles of incorporation.

The adjourned meeting to be held Nov. 28th. will be an important one, because at that time the articles of incorporation will be adopted, carrying with them the name of the new association, the purpose for which it is organized and the general plan of transacting its business. All those interested should be sure to attend and assist in adopting a constitution which will be satisfactory to all. Exchanges in the vicinity of New Ulm are requested to call attention to the date of the next meeting in the columns of their newspapers.

Jul. Lorenz returned to New Ulm from Norwood recently and will again work for the Brewing Co.

## INTEREST IN TURKEY SHOOT UNABATED

### August Schell Brewing Company Donates Full-Sized Deer.

The interest in the "Turkey Shoot" which is scheduled for next Sunday at the Fair Grounds is manifestly on the increase. The committee which has charge of the event has not allowed their enthusiasm to cool in the least and that augurs well for the success of the enterprise. Not only have the farmers in the vicinity responded nobly to the appeal for turkeys, geese and ducks, but the Aug. Schell Brewing Co. has come forward with a donation which ought to net the fair management a neat sum of money. A full-sized live deer has been presented to the fair management by the Schells and the committee has decided to inaugurate a raffle and the deer will go to the one who holds the lucky number at the drawing which takes place at the Fair Grounds Sunday afternoon. Cards have been printed and are now in the hands of willing workers who expect to sell all the chances by the end of the week. By means of the raffle, an opportunity to help along this movement financially, is given to all those who lack the time to be present at the Fair Grounds Sunday.

The Brown County Agricultural Society is one of the benevolent institutions of which the citizens of New Ulm can well be proud and is for that reason entitled to the support of every one. Our fairs have been growing steadily better and more comprehensive from year to year until now there are very few County Fairs that have a better equipment than ours or that are more successfully conducted. In a large measure this success is due to the untiring efforts of a few members of the fair association and we can only show our appreciation of their work and urge them on to renewed efforts if we prove to them by our attendance at next Sunday's Shoot that they do not stand alone, but have the united backing and support of our own citizens and of the farming community tributary to New Ulm as well. Show your interest in the matter in one of the many ways provided at this time and you will feel better for it.

### PAYS FINE OF \$100.

### Frank Lang Settles Automobile Accident Case Out of Court.

On Monday afternoon Frank Lang effected a settlement with County Attorney Aug. G. Erickson in the case which grew out of the automobile accident on the evening of May 6th, when his automobile collided with the Orpheus band. The case was to have been tried at the December term of district court at New Ulm, but he was permitted to enter a plea of guilty to the charge of assault in the third degree and a fine of \$100 was imposed.

Advance readers will remember that the Orpheus band was marching out to the Riverside Dairy farm on the night of the accident, where they intended giving a benefit dance. When but a short distance from the farm they were overtaken by the automobile and aside from damages to instruments a number of the members were injured. After the accident Mr. Lang resorted to every effort to make amends satisfactory to the band boys by not only replacing a number of the instruments, but he also effected settlements for personal injuries. The settlement effected on Monday covers a criminal action instituted a couple of days after the accident.

Ever since the accident Mr. Lang has demonstrated his keen regret over the unfortunate affair in the way of making reparation to those who received injuries, and the instruments that were smashed were replaced with new ones. In his efforts to right matters in such a manly way Frank has gained the sympathy and goodwill of many of our citizens.—Springfield Advance.

A meeting of the New Ulm Poultry Association will be held Friday evening at the office of Wm. Pfander Jr. The object of the meeting is the discussion of the advisability of holding a poultry show some time this winter and all who are interested in fine poultry are cordially invited to be present at the meeting and help along with suggestions.

## MINN. RIVER IMPROVEMENT LEAGUE ENCOURAGED

### Final Meeting Marked by Enthusiasm and Decisive Steps Taken.

### Dr. L. A. Fritsche One of the Speakers. Many Commercial Clubs Heard From.

To all intents and purposes, last Tuesday's meeting of the Minnesota River Improvement League at the clubrooms of the Mankato Commercial Club, was the final and we sincerely hope a decisive one in securing federal aid for the contemplated improvement of the Minnesota River. The meeting was an enthusiastic one, and the best of arguments in favor of the project were presented by the various speakers.

President August H. Poehler of Henderson presided and stated in his opening remarks that the government was willing to turn water on arid lands but was not willing to take any step to remedy an overflow. The reports of the officers recited in detail the benefits that would accrue to the Minnesota Valley if the improvement should be carried out as planned. It appeared also from the reports that the loss to farmers during the three years of high water alone approximated \$2,163,000.—In addition to the reports of the various officers, communications from the commercial clubs of New Ulm, St. Peter, Mankato, Henderson, Belle Plaine, Ortonville and St. Paul, all favoring the project were read. Louis Betz, President of the Commercial Club at St. Paul, informed the meeting that St. Paul's Commercial Club and the Association of Commerce take a lively interest in the movement and are ready and willing to render all the assistance that is in their power.

The committee on resolutions consisting of Senators C. A. Johnson and Henry N. Benson of St. Peter, A. B. Kaercher, of Ortonville, Louis Betz of St. Paul, Dr. L. A. Fritsche of New Ulm, J. H. Diers of Blakely and Senator S. D. Works of Mankato, at the afternoon session presented the following resolutions which were adopted without a dissenting vote:—

"The Honorable Board of Engineers, U. S. A., Washington, D. C., Gentlemen:—At a meeting of the Minnesota River Improvement League duly assembled the following resolution was unanimously adopted.

"Whereas, the Honorable Board of Engineers, U. S. A., at the hearing held by said board at St. Paul Minn., on October 19, 1911, requested those interested in the proposed improvement of the Minnesota river to submit within thirty days additional facts, and a proposition of co-operation with the government therein; and

"Whereas, said league was organized for the purpose of devising and urging ways and means of improving the Minnesota river and is composed of delegates of the Minnesota River valley from the city of St. Paul to Bigstone Lake. Now therefore it is hereby.

"Resolved, That the proposed improvement of the Minnesota river will be of incalculable value to the people of the Minnesota River Valley and the country tributary thereto, in that it will provide cheap transportation for the unlimited quantities of stone, firebrick, tile and building brick, marble and granite found along the Minnesota river, as well as hay, grain and other farm products and the products of numerous flouring mills at Morton, New Ulm, Mankato, St. Peter, LeSueur, Belle Plaine and Carver, aggregating a capacity of about 10,000 barrels of flour daily, and the delivery of beets to and the shipment of sugar from the large beet sugar factory at Chaska, and the possible and probable development of the large peat beds which are in and contiguous to the Minnesota Valley.

"That if the proposed improvement is made substantial docks and storage houses will be provided at all towns, and we believe that the river will be extensively used for transportation of the products named and that it will stimulate and augment to an enormous extent the output of the quarries, clay beds and other natural resources along the Minnesota river.

"That in the way of co-operation we propose the construction by the power company of additional reservoirs, at Redwood Falls and Bigstone Lake, thus insuring absolute control of the

flood waters of the Minnesota River and enabling the use of slack water navigation below Morton and the consequent conservation of water for power purposes at all points where sufficient fall can be had, just and adequate to be paid for the use of all water impounded and conserved for power purposes by the government, all under the control and supervision of the federal government; to assist in securing flowage rights for the Lac qui Parle dam; that to enable us to effectively and substantially co-operate with the federal government in this improvement there has been incorporated a company under the laws of the state of Minnesota known as the Minnesota River Improvement and Power Company, composed entirely of the people of the Minnesota River Valley, the articles of incorporation copies of which have heretofore been submitted to your honorable board, and we have requested said corporation to submit to you a definite and specific proposition of co-operation and hereby pledge to it and to the federal government our earnest hearty and loyal support, it being the only means of combining and unifying the individual support of the people of the Minnesota River Valley in concrete and effective form; the Minnesota River Improvement and Power Company being primarily and purely a co-operative movement and organization of the people of the Minnesota River Valley; that its purpose and interest and ability to perform its undertakings and obligations may not be questioned we respectfully represent and show that there are approximately 80,000 acres of valuable farm land that will be either wholly reclaimed or materially benefited; that from ten to fifteen thousand horse power will be developed; that the Minnesota River spans the state, traveling a territory about 250 miles in length well-settled and with 29 cities and villages on the river and double that number tributary thereto, insuring a good market for all power that can be produced; that with fair and reasonable co-operation of the federal government commensurate with the importance of navigation furnished, we believe that we can secure the necessary financial aid to carry out our part of the undertaking. We therefore earnestly petition your

honorable board to recommend the proposed improvement. And be it further

"Resolved, That the Minnesota River Improvement League give its unqualified endorsement and support to the Minnesota River Improvement and Power Company, for the reason that we are convinced that this corporation is not formed for the selfish interests of certain individuals, but that the consummation of their purposes will result in great benefits to the people of the entire Minnesota Valley."

The best proof that this project is not a money making scheme for the promoters is furnished by J. H. Diers from whose final report it appears that up-to-date only \$1070.00 had been received to pay the legitimate expenses incurred. Of this amount \$240.00 had been paid by farmers in the Valley, \$100 by Frank Ervin, \$400 by President Poehler and \$330 by Mr. Diers himself.

The officers of the Minnesota River Improvement and Power Company went to St. Paul the same evening to confer with the Commercial Club of St. Paul. While in St. Paul they had a conference with Congressman Stevens and enlisted his unqualified support in the project. Whatever the outcome may be, the ones who have fathered the movement are entitled to unstinted praise for their efforts in behalf of a project, which if carried out, will prove of incalculable benefit to the communities along the Minnesota River.

A very pretty home wedding was solemnized at the home of Mr. and Mrs. Christ Ahle yesterday evening at 8 o'clock, when their daughter Miss Hilda Ahle was united in marriage to Charles J. Glenn, formerly of Omaha, Neb. and for the past 4 years in the employ of Stuebe Bros. Prof. John Meyer of the Dr. Martin Luther College tied the nuptial knot. Miss Bertha Ahle, sister of the bride, attended her and Charles Stuebe acted as best man. Only the immediate relatives and intimate friends of the contracting parties were present. An elaborate wedding dinner was served immediately after the ceremony. The young couple have their home already fitted up and will go to housekeeping at once. The Review extends congratulations.

## THANKSGIVING LINEN SALE

— AT —

## OTTOMEYER'S

## LINEN SALE

Thanksgiving will be on the 30th of this month, which is only a few days hence, we are now having a Thanksgiving

At our store and have made some reductions on TABLE DAMASK and NAPKINS to match the linen. We would like to have you take advantage of this linen sale and are showing probably one of the largest lines of table linen; napkins, towels and lunch cloths and all other linens usually sold at a linen sale. We offer all damask and napkins at a small reduction. Kindly notice the following prices:—

Unbleached Table Damask at.....	25c
Bleached Linen Table Damask, 40c quality at.....	34c
Bleached Mercerized Table Damask 45c quality at.....	38c
Unbleached Linen Table Damask 50c quality at.....	44c
Bleached Mercerized Table Damask 65c quality at.....	59c
