### Beware of Ointments for Catarrh that Con- tain Mercury.

as mercury will surely destroy the sense  
of smell and completely derange the  
whole system when entering it through  
the mucous surfaces. Such articles should  
never be used except on prescriptions  
from reputable physicians, as the damage  
they will do is ten fold to the good you can  
possibly derive from them. Hall's Catarrh  
Cure, manufactured by F. J. Cheney &  
Co., Toledo, O., contains no mercury, and  
is taken internally, acting directly upon  
the blood and mucous surfaces of the sys-  
tem. In buying Hall's Catarrh Cure be  
sure you get the genuine. It is taken in-  
ternally and made in T.ledo, Ohio, by F.

### Literature for Criminals.

Scientific burglary is perhaps prac-  
tical to a greater extent in America  
than in England. They have even a  
literature on the subject which the  
police find difficult to suppress. And  
some time ago a huge volume was  
openly published which elucidated all  
the latest methods of crime, from rob-  
bing a till to blowing up a bank safe.  
Most of the copies were seized, and  
those that remain are nearly as valu-  
able as first folio Shakespeares. On  
this side of the Atlantic, however,  
scientific instruction in the criminal  
art has hitherto been confined to  
magazine articles, although the pres-  
ent writer knows at least three books  
that the up-to-date criminals would  
find exceedingly useful.  
One by a celebrated chemist in-  
cidentally divulges secrets that would  
make the fortune of a forger. An-  
other by a well-known lawyer de-  
scribes an infallible means of prov-  
ing an alibi; while the third shows  
the man who is "wanted" how to leave  
the country by ways never watched  
by the police.—London Chronicle.

Attack of Acute Indigestion.

### FUNERAL OF "FIGHTING BOB"

Most Impressive Ceremonial of Recent  
Years at Washington.

Washington, Jan. 6.—The govern-  
ment paid last honors to "Fighting  
Bob" Evans with all the impressive  
ceremonial of the largest military fu-  
neral held here in recent years. More  
than 1,000 men, representing both  
branches of the military service,  
formed the funeral escort and were  
lined up at "present arms" when the  
melancholy notes of "taps" were  
sounded at the grave edge in Arling-  
ton cemetery. Immediately thereafter  
a salute of thirteen guns sounded a  
last farewell.

All Souls' Unitarian church was not  
large enough to accommodate those  
who assembled for the last religious  
rites over the dead admiral's body.  
In the congregation were President  
Taft, Admiral George Dewey, General  
Nelson A. Miles, practically all the  
cabinet members, and representatives  
from all foreign nations accredited to  
the United States.

### CUMMINS MAY ENTER PRESIDENTIAL RACE

Iowan Will Be Guided by Ad-  
vice of Colleagues.

Washington, Jan. 7.—A dispatch to  
the Chicago Record-Herald says:

Another Republican presidential  
candidate is hanging in the balance.  
It is that of Senator Albert B. Cum-  
mins and the Iowa situation may  
cause it to become a reality within  
a short time. With the situation in  
his state before them for considera-  
tion, Senator Cummins, it is under-  
stood, will ask some of his colleagues  
in Washington to advise him what to  
do and his course of action is likely  
to be guided largely by their conclu-  
sions.

When congress adjourned for the  
holidays Senator Cummins went to  
his home in Des Moines with the in-  
tention of calling in his lieutenants  
from around the state and having  
them report exactly what the condi-  
tions are regarding the fight, which  
up to this time, has been drawn on  
Taft versus La Follette lines.  
If necessary to deliver Iowa to La  
Follette he will become a candidate.

### SHOT BY BERLIN MILLINER

Prominent American Is Probably Fa-  
tally Wounded.

Berlin, Jan. 7.—Norbert M. Rodkin-  
son, a prominent member of the Amer-  
ican colony here, was shot, probably  
with fatal effect, by a milliner named  
Alwyne Siede. The woman was inter-  
cepted as she was escaping from Mr.  
Rodkinson's office and immediately  
fired a bullet into her own body which  
is not likely to prove fatal.  
The affair, according to the allega-  
tions of Miss Siede's friends, was  
brought about by the interruption of  
long standing relations with Mr. Rod-  
kinson and his refusal to support her  
two children.

### PLUNGER WALKER VERY ILL

Wall Street Speculator Is Victim of  
Tuberculosis.

Saranac Lake, N. Y., Jan. 7.—Too ill  
to be seen or allowed to read his busi-  
ness correspondence, J. Brandt Wal-  
ker, the Wall street plunger who in  
1907 cleaned up \$3,000,000 in Wall  
street in six months in Union and  
Southern Pacific, is very low from  
tuberculosis in his splendid place at  
Lake Placid.  
He has one of the most expensive  
cottages in the Signal Hill district.

### Charles Taylor Catlin Dead.

New York, Jan. 7.—Charles Taylor  
Catlin, prominent for the last thirty  
years as a dramatic reader and rec-  
iter, is dead of pneumonia at his  
home in Brooklyn. He was seventy-  
seven years old. Mr. Catlin was gradu-  
ated from Yale in the class of 1856.

## REV. RICHESON GUILTY OF CRIME

Minister Confesses to Murder  
of Miss Linnell.

### IS STRICKEN WITH REMORSE

Declares He Has Suffered the Tor-  
tures of the Damned Since  
Committing Act.

Boston, Jan. 7.—Rev. Clarence Vir-  
gil Thompson Richeson, former pas-  
tor of the fashionable Immanuel Bap-  
tist church of Cambridge, has made  
a written confession to the effect that  
he poisoned his former sweetheart,  
Avis Linnell. The statement was  
given into the hands of his counsel,  
who made the confession public. The  
full text of the confession follows:

"Gentlemen: Deeply penitent for  
my sin, and earnestly desiring as far  
as in my power lies to make atone-  
ment, I hereby confess that I am  
guilty of the offense of which I stand  
indicted.

"I am moved to this course by no  
inducement of self-interest or leniency  
Heinous as is my crime, God has not  
wholly abandoned me, and my con-  
science and manhood, however de-  
prived and blighted, will not admit of  
my still further wronging by a public  
trial her whose pure young life I have  
destroyed. Under the lashings of re-  
morse I have suffered and am suffer-  
ing the tortures of the damned.

"In this I find a measure of com-  
fort. In my mental anguish I recog-  
nize that there is still, by the mercy  
of the Master, some remnant of the  
divine spark of goodness still linger-  
ing with me. I could wish to live  
only because within some prison walls  
I might, in some small measure, re-  
deem my sinful past, help some other  
despairing soul and at last find favor  
with my God.

"You are instructed to deliver this  
to the district attorney or to the  
judge of the court."

As Richeson stands today before  
the law he is indicted for the murder  
in the first degree of Miss Linnell  
by giving her cyanide of potassium.  
The penalty for such a crime in Mas-  
sachusetts is death. If Richeson  
stands in court on Jan. 16, the date  
set for his trial, and acknowledges  
his guilt in accordance with his state-  
ment, the court, under the law, would  
be obliged to impose the death sen-  
tence, in the opinion of courthouse  
officials.

### MUST REMAIN ON TICKET

Roosevelt and Bryan Cannot With-  
draw From Nebraska Contest.

Lincoln, Neb., Jan. 7.—Theodore  
Roosevelt and W. J. Bryan may be  
running for the presidency, at least in  
Nebraska, unless they get busy and  
check a movement now under way.  
The Roosevelt primary petition was  
filed ten days ago by John O. Yelser,  
an Omaha attorney.

Another Omaha man, A. A. Arter,  
invaded the Nebraska statehouse and  
filed a petition, including the required  
twenty-five names, making Bryan a  
candidate before the coming April  
primary.

What Roosevelt and Bryan can do  
about it is something of a puzzle. Sec-  
retary of State Taft has handed down  
the novel ruling that neither Roose-  
velt nor Bryan can get off the primary  
ticket unless the petitions are with-  
drawn by the men who made the fil-  
ings.

### LEAVE FIFTY DEAD ON FIELD

Moroccans Attack Sefrou, but Find  
French Gallant Defenders.

Tangier, Morocco, Jan. 6.—A large  
force of revolting Moroccan tribes-  
men attacked the town of Sefrou, a  
day's journey to the south of the cap-  
ital. The garrison of the town, which  
is under the command of French offi-  
cers, offered a gallant defense, beat-  
ing off the fanatical tribesmen again  
and again, although they were far out-  
numbered.

The tribesmen continued to carry  
out wild rushes, but after eight hours  
fighting the little garrison finally suc-  
ceeded in repulsing them and making  
them retreat to the desert, leaving  
fifty of their number dead on the field.  
The garrison lost five killed and fifteen  
wounded.

### COAL MINE STRIKE LIKELY

One of Greatest Walkouts in History  
of England Is Planned.

London, Jan. 7.—Reports from the  
coal mining districts indicate that the  
United Kingdom will be tied up by  
one of the greatest strikes in history  
on March 1.

A minimum wage scale will be de-  
manded in addition to a number of  
other minor concessions.

### Car Drops From Bridge.

Cincinnati, Jan. 7.—Four persons  
were fatally injured, while another  
was seriously hurt when a street car  
jumped from the Central bridge, which  
connects this city with Newport, Ky.  
The car turned completely over in its  
drop of fifty-five feet to the pavement  
below.

## KNIFING A SHEEP.

Modern Slaughter House Method  
Painless and Rapid.

### INSTANT DEATH IS ASSURED.

One Dexterous Thrust Through the  
Animal's Head by an Expert Work-  
man Ends Consciousness—How the  
Carcase Is Skinned and Dressed.

The easiest way you could possibly  
think of is the way sheep are killed in  
the packing houses. Most persons mis-  
takenly imagine that they are treated  
horribly and see in their minds a  
bloodthirsty man, with shoulders like  
ham, standing over a poor, defense-  
less sheep with a bludgeon in his  
hands ready to send the creature  
straight to the promised land. But  
there is where the sentimental goes  
completely wrong, for if there is an  
animal that is treated right—in speak-  
ing of its death—it is the sheep. There  
is only one thing that doesn't look as  
though death was absolute pleasure for  
the sheep, and that is right at the very  
start of the killing operation.

The sheep are driven from the yards  
up a long chute, and when they enter  
the pathway a leader sheep puts him-  
self at their head to take them up into  
the killing room. These sheep are  
rained and are nearly always black  
so that there will be no mistake made  
and the leader sheep killed.

This leader takes the animals up the  
chute to a pen that will hold about  
fifty sheep. Here a man catches them,  
two at a time, and shackles them by  
their hind legs. This is the operation  
referred to as the only one painful to  
the sheep.

The animal is then swung on to what  
is called the Ferris wheel. This wheel  
is constantly revolving, and as it reach-  
es a certain spot the sheep are trans-  
ferred to a track from which they  
hang head downward. At that point  
their suffering ceases, for the next  
workman is the man who kills them.

The killing process is one that is ab-  
solutely painless to the sheep. The  
workman is adept and never misses  
the mark at which he strikes. With  
a sharp knife in his hand, he moves  
down the row of hanging animals, and  
as he comes to each one he feels of  
the head just behind the ears and finds  
the point where the bones of the head  
leave an opening. In this the knife is  
thrust and goes through the head of  
the animal, completely severing on  
both sides a large artery. The sheep is  
killed instantly. Five hundred sheep  
can be handled every hour at this  
point. They are then "pated," an op-  
eration that consists of skinning the  
fore part of the head and the neck.

The next workman cuts through the  
hide on the breast and skins just one  
spot below the neck. The fore legs are  
then broken and cut off to be sent to  
the bone room.

The fact that there is a time for ev-  
erything and one man to do just his  
part and no more is emphasized in the  
sheep room when one sees just one  
hind leg skinned by one man and the  
other skinned in an entirely different  
operation. The sheep is then put on  
what is called the endless chain. This  
chain consists of hooks at intervals  
and is constantly moving, making the  
rounds of the room in about twenty  
minutes. Along this chain are the  
workmen, and as the sheep is passed  
on to them by the chain they do their  
work and wait for the next carcass.

After the two hind legs have been  
skinned the back is partly skinned and  
the animal is passed on to the next  
man who is called a "pelter." He  
grasps the pelt just above the hind  
legs, and, with a few deft twists of it,  
it is pulled off and the sheep passed  
on to the next workman.

After being skinned the sheep are  
carefully washed and wiped, a new  
towel being used on every animal. An  
endless chain is in progress here also,  
for when a towel is used it is thrown  
into a vat of boiling water, washed  
and put into a drier to be used over  
and over again. After the animal has  
been washed the head is taken off and  
the neck washed in the same manner  
as the rest of the carcass. The govern-  
ment inspector then gets it, and it is  
subjected to a rigid examination,  
after which the stamp of approval of  
the United States is put on.

After the head is taken off it is sent  
to the floor below, where the tongue is  
taken out and the remainder of it sent  
to the bone room.

There are two ways of dressing the  
sheep. Some of the buyers insist on  
having the caul fat with the animal,  
while others do not care about it. If  
the fat is desired it is put on the hind  
part of the animal, covering about one-  
half of the body, and is then split, re-  
vealing the carcass shorn of the vis-  
cera.

The dressed animals are hung on  
overhead tracks and put on an eleva-  
tor to be sent to the cooling room.—  
St. Louis Globe-Democrat.

### Ancient Proofreading.

The editions of books printed 200 or  
300 years ago are almost entirely free  
from typographical errors, which may  
be attributed to the fact that early  
publishers were generally eminent  
scholars and themselves gave much  
attention to the revision of their proofs.  
After reading the proofs they frequent-  
ly turned them over to other scholars  
with the request to revise and correct,  
and as the printer's time was then  
deemed a matter of small consequence  
a perfection was attained which is  
seldom equaled by modern printers.—

need of pity.

### DR. SUN TAKES OATH OF OFFICE

First President of New Repub-  
lic of China.

Nanking, Jan. 3.—Dr. Sun Yat Sen  
has taken the oath of office as pro-  
visional president of the Chinese re-  
public and has been formally invested  
with the powers of chief executive.  
The ceremony was simple but digni-  
fied and was attended by all the prom-  
inent men of the revolutionary party.  
In the audience chamber, an im-  
mense apartment in government house,  
delegates representing eighteen prov-  
inces of China proper took up their  
positions around a raised platform.  
When Dr. Sun entered all bowed their  
heads. The president elect proceeded  
to the central platform and there he  
took the oath of office.

Afterwards he delivered an address  
in which he promised to disenthrope  
the Manchus, to re-establish peace, to  
promote trade and to devote his en-  
tire energy to the Chinese nation and  
aid the Chinese people to realize their  
aspirations. When the Manchus had  
finally abdicated and peace was re-  
stored to the nation he would, he said,  
resign his provisional office.

habeas corpus releasing Detective  
William J. Burns from the custody of  
the county authorities. His bondsmen  
had surrendered him to the criminal  
court, where he stands indicted on the  
charge of kidnaping J. J. McNamara.
