

OWNERS of EDISONS

Or Those Contemplating the Purchase of a Real Musical Instrument

need not go to Normal Schools to compare The Edison Phonograph with other talking machines—We have made it easy for the Music Loving Public of New Ulm to make comparisons right in our own

EDISON PARLORS

so why waste your time and money traveling to Normal Schools when comparisons can be made right at home—

A Lady who understands Music perfectly, if not better than any one else in this City, saw the wonderful improvement and great difference between

OUR NEW EDISON DISC

and her \$200.00 Machine of some other make, that after hearing the two machines side by side she immediately decided in favor of the EDISON, and we now have her Talking Machine in our

EDISON PARLORS]]

so as to enable those that still doubt to call and make comparisons right here at home instead of visiting Normal Schools for this information:—

As to being "THE CHOSEN ONES" we submit the following:

The Dickens Club of Marinette, Wis., recently presented an EDISON Diamond-Disc Phonograph to the Public Library. Their selection of the EDISON was made after a competitive test. The Committee voted 15 to 3 in favor of the EDISON Diamond Disc.

The Elks Lodge of Green Bay recently purchased an EDISON Diamond-Disc Phonograph. The following is quoted from the Green Bay Herald of Nov. 15th, 1913:—"Members of the Elks Lodge listened to a delightful musical program last Wednesday evening at Elks hall. Additional interest was given the occasion as the lodge had decided to buy a music machine and the program consisted of selections rendered by the Victrola and the EDISON Disc Phonograph. The selections played were of a high order, but the EDISON Disc Phonograph appeared to be the favorite as it was chosen by a vote of 53 to 14.

The Colonial Club of Westerly, R. I., purchased an EDISON Diamond Disc Phonograph. The vote after a competitive test was 90 for the EDISON and 28 divided between the other two.

The State Normal School of Spearfish, South Dakota, recently purchased an EDISON Diamond Disc Phonograph. Oh, well, what's the use of quoting more "CHOSEN ONES"—Just call at our EDISON Parlors; Investigate, Compare and hear them All—THEN DECIDE—

REMEMBER:—The New Edison Diamond Disc Phonograph is the only Machine that plays All Disc Records Made, be they EDISON, COLUMBIA or VICTOR

The sensation of the hour in amusement circles is George Kleine's production of the Cines photo drama spectacle "Antony and Cleopatra." Nothing like it has been seen in the world and the prices paid for exclusive rights by the different European impresarios have been astounding. The subjects afforded the Cines Company greater scope dramatically and pictorially than their production of "Quo Vadis" and they have taken ample advantage of it. The photo drama is arranged in eight parts and three acts, each one of which is a dramatic revelation. For spectacular magnificence this production has never been approached. The engagement in this city begins Friday at the American Theatre and continues for two days. Adv

Altho not confined to the house, Andrew will hardly be able to resume his duties at the post office until March 1st.

If there ever were any doubts existing that the Societa Italiana Cines are the masters of the world in the production of artistic motion photography, George Kleine's production of their photo drama "ANTONY AND CLEOPATRA" completely dispels them. When they produced "QUO VADIS" it was thought the last word has been written, but, according to all accounts, "ANTONY AND CLEOPATRA" not only rivals but excels it. The greatest love story of history is told upon the screen with a dramatic power that is amazing and a pictorial beauty that is simply marvelous. These wonderful pictures are announced at the American Theatre for Friday and Saturday of this week. Adv
