The silo that he represents is made of concrete blocks that fit like keystones one in the other and are bound together by iron rods. It is claimed for this silo that it is more substantial than the ordinary silo that is on the market. Another feature that is claimed in its favor is the patent door which is simple in design, but superior to any other door made. The bride was born in Moltke, near Gibbon, and has lived in this city for the past three or four years. The newlyweds left yesterday afternoon for Minneapolis and will immediately go to house-keeping there.

Last Thursday Manager Johnson made a contract with the European War Film Co. for a production of German War pictures. These pictures will be shown at Turner Hall next Sunday April 18th in the afternoon at 3 o'clock and evening at 8 o'clock. Manager Max Friedman of the War Film Co. knows that Unger was here some months ago and palmed off some old films on an unsuspecting public but he is so thoroughly convinced that his pictures will please and that they are what they are represented to be that he decided to take the risk and come here. There will be 5000 feet of real war pictures depicting scenes from the battles at Liege, Antwerp, Maubeuge, Soissons, Rheims and many more. These pictures were shown for sixty days in Chicago alone. They were shown last week in St. Paul and Minneapolis. Those who live in the country and as many others as can find the time are urged to attend the matinee performance which begins at three o'clock so that the hall will accommodate the crowd in the evening and it may not become necessary to turn any away as was the case when Unger showed his pictures some months ago. The admission will be 25 cents and at that price there should be no trouble to fill the Turner Theatre at both performances.

Don't fail to read the special announcement of the Brown County Bank which appears on the last page of this issue.
