The Little Wise Man Says:—

Have you \$100 lying idle?

Many have learned the advantage of safe investments for the first time through the purchase of \$100 Bonds.

Why don't you take out a \$100 Bond like a good many of your neighbors have done and benefit by this profitable and safe form of investment?

EASTMAN KODAK "PREMO JR. MODEL B"

WONDERFUL OFFER!

The PREMO JR. MODEL B is a well made, substantial, reliable camera in every respect. Before leaving the factory, this camera has to stand the usual rigid tests, to perform the work for which it is intended, which are applied to all cameras made by the Eastman Kodak Co.

This camera loads and unloads in daylight with the Premo Film Pack of 12 exposures. It makes pictures 2 1-4x3 1-4 inches in size, and the negatives are of such quality that excellent enlargements can be made from them.

The instrument is fitted with an automatic shutter, which works for both time and "snap shot" exposures, and the best grade of single achromatic lens that can be obtained. It has two finders, one for vertical the other for horizontal pictures,—in fact, it is as well equipped a camera as could be wished for in the box type. It will produce, first in good light, time exposures, home

class results in all ordinary amateur photographic work, such as snap shots, portraits, landscape and street photography, and the like.

This camera is unusually simple to load and operate. A complete book of instructions is included with each one, and even a school boy who never had a camera in his hands before, can make good pictures with the Model B Premo Jr. within half an hour after getting the camera.

NOTE.—This camera not for sale in any store or by catalog.

Trade out a card to the amount of \$5.00, present it with 98c in cash and the camera is yours.
