Do You Know That Music Lightens Labor?

That is why men sing while they work.

A battleship band always plays while the jacks are coaling ship.

We know of some ladies in our own home town who lighten their labors of house work by having

The New Edison RECREATE MUSIC

while they are attending to their household duties.

Let us lighten your labors by placing

A New Edison

in your home.—Give it a trial, it will surprise you how easy work is when Real Music accompanies you.

An error in reporting the prizes awarded at the County Fair was noted by John Reinhart of Cottonwood. Mr. Reinhart should have been given credit for taking 2 first premiums in the department of horses. His prize-winners were a registered Percheron horse and mare.

The National Woolen Mills will open up a branch store in the Siebenbrunner building at 15 South Minnesota street next Saturday. The clothing store will be managed by A. H. Hermel who formerly has been employed in a similar store at Mankato. This clothing concern will make suits to order at prices ranging from \$15 up.

A son of Mr. and Mrs. Anton Simmet was knocked down by a car driven by a Mr. Barth of Fairfax Friday afternoon while he was crossing the street near Eibner's Confectionary Store. The boy was struck by the fender of the car but outside of the shock of the accident the young fellow was not hurt very badly.

While playing in the streets Monday evening with a number of playmates, little Margaret Zieske, a daughter of Mr. and Mrs. I. M. Zieske was run down by a bicycle ridden by Peter Hanson of this city. The child fainted at the moment but soon regained consciousness and it was found that she sustained no serious injuries.

The militia boys on the Llano Grande handed H. O. Schleuder, the jeweler a lemon last week. It was not to express their deprecation of his actions but rather to show the type of lemons that is making Texas famous. Unfortunately for the local consumers the Texas raisers have not been persuaded to ship such species in car load lots as the lemon on exhibition is of a large juicy growth and several times as large as the average lemon sold in the local markets. The lemon appears large enough and sufficient in it's juicy qualities to make several rounds of that thirst quenching fluid known as lemonade.

The big musical success "The Million Dollar Doll" with her retinue of ten principals and the greatest singing and dancing chorus in musical comedy arrive in this city Monday, September 18th, appearing at the Turner Theatre the same evening. Heralded by both press and public this latest and most successful company, carrying thirty people and a carload of scenery and electrical effects, promises to be the season's biggest hit for local theatre-goers. Three elaborate scenes of scenic splendor, with a stage full of dancing beauties, introducing the latest Winter Garden fad, an illuminated Runway over the heads of the audience, along with twenty-two song hits, all go to make the "Million Doll" a sensational success. This production is one of the largest and best booked this season at the Turner Theatre.

Arthur Schroer escaped again last week from the Red Wing Training School and was later found near Frontenac, Minn., which is near Lake City, Minn. The boy had been doing very well at the school according to reports received here of late. He had been examined by several state officials of the University Medical Staff and others who became convinced that the boy labors under sudden mental stress and strain at times that makes him irresponsible but no decision had yet been reached as to what should be done for him. At the time the troops went to Mexico a number of the boys at the Red Wing School made application to be allowed to enlist and Arthur was among the number who wanted to go. He wrote his foster mother in this city at the time that he thought it would be the best thing in the world that could happen to him if he could get away from the environment of his past life and Mrs. Schroer gave her consent but the War Department did not accept the training school boys, and Arthur remained at the school.

Attorney B. A. French visited with his mother in Minneapolis over Sunday.

Mrs. P. J. Mueller returned to her home Tuesday after a visit at the Jake Mueller home.

Mr. and Mrs. M. C. Lang have returned to their home in Tracy after a two weeks visit at the Mike J. Lang home in this city.

Joe Schwing, Louis Linde and Frank Altmann of this city left for Comfrey Tuesday to attend the funeral of Charles Linde. Mr. Linde was one of Comfrey's first settlers, as he has been running the Comfrey House since the village was founded.

M. W. Fleckenstein one of Mankato's most forceful pastors called on Professors G. Burk and Wm. Blauert of the Dr. Martin Luther College Tuesday. Mr. Fleckenstein although filling his charge but a short time in Mankato, is fast attaining prominence in his work that well befits his abilities.

New Ulm will be well represented at Hamline University this year since six of the last year's high school seniors will continue their education at that institution. Among those who will be there are Harry F. Rieke of West Newton, Lloyd Alwin, Hilton Durbahn, Ben Alwin, Harold Nagel and Reuben Moe.

The Concordia Bowling Club will meet in their club rooms Tuesday evening to award the prizes to the winners in the Home League and other contests. The members will also decide the date when the bowling alleys will be formally opened and contests begun. Other matters relative to the welfare of the club will be taken up.

"September Morn" displayed herself to a decided advantage in New Ulm, Saturday evening, at the armory but it seems that many of the citizens were rather shy about coming out and seeing the comic opera. The show was pleasing throughout. The singing and dancing was of the very latest and the costumes were pleasing and above all appeared to be clean. A very small house greeted the company and the reason for this must have been pure and unadulterated shyness. There is one consolation and that is those who stayed away missed a good show.

Mrs. Siegel who had planned to make a trip to the Orient with Mrs. M. A. Bingham has decided not to go. Mrs. Silverson of Minneapolis had also planned to be of the party but finally decided that on account of the many cases of illness among children she could not very well leave her little son Charles at home and it did not seem wise to take him and the ladies abandoned their plans in view of the generally unsettled conditions prevailing the world over. Mrs. Bingham expects to leave shortly but will perhaps shorten her trip, taking only such time as is necessary to transact the business she has to attend to.

Another and a rather novel form of graft was attempted at Lambertson one day last week. It seems that a stranger came into town and palmed himself off as a wealthy man with the intention of purchasing land. He issued a check for \$1,500 in part payment for a piece of land, which was later learned to be on a fictitious bank in Iowa. Before the papers could be drawn up, the grafter presented another check at the bank but when asked to use the telephone to establish his financial credit, decided that he did not need the money. The first train was his friend and he promptly made use of it.

"Uncle Tom's Cabin" in movies appeared at the armory, Sunday afternoon and evening, and the pictures were well patronized. It is perhaps a good thing that the performance was in pictures or someone might have stopped a brick. The picture themselves were passable but the films must have been used innumerable times and were in very poor condition. The many breaks were sandwiched by the "Just a Moment Please" and "Do your Feet Ache" slides and to be sure ones feet not only ached but his entire anatomy ached to get hold of the films and put them out of existence.

Mr. and Mrs. William Silverson, former residents of New Ulm who have been visiting friends in the city for the last two months left for Minneapolis Tuesday. Mrs. Silverson will visit her daughter in Minneapolis while Mr. Silverson will continue his journey directly to his home in Shelbyville, Indiana. It is the custom of Mr. and Mrs. Silverson to make a friendly visit here each year where old acquaintances are renewed and new friendships are formed. They declare that they have had a very pleasant time here and that they were both surprised at the new improvements New Ulm has undertaken. Mr. Silverson says that although Shelbyville is more of a recreation center there is not the bustle and whirl of business and industry as in New Ulm.

Because he entered into a contract to trade most of his city property in Plankinton and a farm of 160 acres for 800 acres of land west of the Missouri river, Peter McGovern, a wealthy resident of Plankinton, was made defendant in an action by which his daughter, Miss Blanche McGovern, sought to have a guardian appointed for him.
