The necessity for holding a book or paper away in order to see the print clearly indicates this condition and an optometrist should be consulted. All work Guaranteed. Prices reasonable. Adv. 9-10

JUST RECEIVED A FRESH LINE OF **DRESS SILKS**

This Opinion
of The **NEW EDISON** won a \$500 prize. It is worth reading

"REALTY is Better than a Copy—REAL Music is Finer than Reproduced Music.

This is why the New Edison entertains better than an ordinary talking machine and gives children a truer appreciation of music.

In our home naturally we would rather have a painting than a photograph of it. And we wish the music in our home to be like paintings, possessing all their original beauty.

Now our good but old-fashioned talking machine records seem to us like photographs of music—enjoyable, though lacking something.

But our trial of the New Edison convinces us that at last there is a phonograph that gives us music itself in all its strength, freshness and wonder—music as magnificent as original oil paintings, not photographs of music, but genuine music.

To make children love painting, show them the artists' own work rather than photographs—the brilliancy and colors of painting delight them.

And so in music there are charming tone colors, living, thrilling sounds that only the New Edison ever brought home for our delight.

Real, RE-CREATED music is better than reproduced.

Edison music IS REAL!

Nothing greater can be said of it. This is why we want a New Edison."
