If you will tell me why the modern safety bicycle has taken the place of the old style high bicycle which is now a great curiosity, I will tell you why the Edison Diamond Disc Phonograph is fast taking the place of the old-style steel needle machines, which will soon be another great curiosity. Come in and listen.

Edison Records are absolutely guaranteed by Mr. Edison and his Company—and for your information we might add that Mr. Edison is the only manufacturer who makes any attempt whatsoever to guarantee his records.

If you are contemplating purchasing an instrument, be sure to insist that an Edison be demonstrated in your home in comparison, side by side, with any so-called "Talking Machine" some salesmen may have been trying to sell you. Be your own judge and make your choice on the merits of the instruments, and don't be beguiled into buying an inferior "Talking Machine" by the smooth blandishments of some clever salesman.
