**CAMERAS FOR SOLDIERS.**

We are occasionally receiving inquiries as to what extent it is permissible for soldiers to carry cameras. The Committee on Public Information, of which Mr. George Creel is Chairman, has informed us that soldiers may take cameras with them, but are not allowed to carry them in actual service at the front. No restrictions are named on size and weight.

We assume from this ruling that soldiers will be allowed the free use of their cameras while in camp in this country and over-seas, but will not be allowed to carry them into the trenches. And, while the above letter does not actually say so, we presume also that there will be certain restrictions as to the photographing of fortifications and the like. It seems, however, to be the general and reasonable policy of the Government to let the soldiers get as much out of photography as they can without endangering any military secrets. Therefore the Eastman Kodak is the Ideal Gift for the Soldier at any time.
