Mr. Crone says that the snow banks we had last winter do not begin to compare with those he saw in Chicago. He says the drifts were as high as the street cars. The train they entered Chicago on was one of the last to make its arrival and they just missed the experience of being snowbound on Illinois prairies.

THIS HEIDER HAS WORKED SEVEN YEARS

Bird Island, Minn. Northern Rock Island Plow Co., Minneapolis, Minn. Gentlemen—

Referring to your letter of recent date, I wish to state I bought a HEIDER Tractor, March 16th, 1911, at Carroll, Iowa, and run same for three years, winter and summer. Closing out my farming interests, the tractor was sold at my public sale. The purchaser has run the tractor right along, winter and summer, the same as when I owned it, and the tractor is in perfect working order today, shelling corn at present. This tractor has been used on the same farm of 320 acres, in Kosuth County, Iowa, to the present day. I have had some experience with other makes of light tractors, but none can come up to the HEIDER for good, hard service all the year around.

Here are some of the different kinds of work I did with the HEIDER Tractor. I used it to haul feed to stock, haul grain to market, for hauling manure, unloading hay, hauling hay from field, pulling hay loader, also on hay stacker, pulling binders in harvest, plowing, discing, sawing wood, grinding feed, shredding corn, shelling corn, stretching woven wire fence, pulling up posts, dragging roads, grading roads, running grain elevator and other jobs around the farm, and it had the ONLY RELIABLE CONTROL, barring none.

Sincerely yours, (signed) Wm. Korreck, Box 268.
