

TWO SHOWS IN ONE

7-1000 ft. Reels

ABSOLUTELY FREE

DON'T MISS IT

DON'T FAIL TO ATTEND THE RUBY MOVING
PICTURE THEATRE at NEW ULM, MINN., ON
SATURDAY NIGHT, JUNE 22, 1918

See the 2000 feet of Moving Picture production of the greatest and largest Chiropractic Convention ever held in the world. Every State in the Union and many foreign countries are represented in this immense throng in attendance at this Fourth Annual Chiropractic Lyceum and Home Coming of Chiropractors of the World which was held in Davenport, Iowa at the Palmer School of Chiropractic Fountain Head August 26 to September 1, 1917.

This two thousand feet of film shows all the most important events during the convention week including the grand parade of Wednesday which was a revelation to the people of Davenport.

This parade was over two miles long. Made up of over three thousand Chiropractors and nearly two hundred decorated automobiles and floats.

This was claimed by the leading papers of Davenport to be the largest and best parade ever seen in the city.—The Barnum and Bailey circus not excepted. It gave the people an idea of the Magnitude and influence of Chiropractic which is making Davenport known throughout the world as the "Chiropractic City". One of the principal features of the parade was the Monster, Wiggling Human Spine, sixty five feet long and requiring twenty four persons to carry it. You should see this. Another patriotic and very original feature in the form of a float was Uncle Sam giving the Kaiser a Chiropractic adjustment.

Every minute during the entire convention was full and bubbling over with something doing—Lectures, Clinics, Pit Work, Musicales and Banquets. While of course we could not crowd it all on this film, there is enough of it so that you will say it is worth the price of admission to the two shows, yet it is **ABSOLUTELY FREE**, except to Children under 15 years of age.

COMPLIMENTS OF

GEO. SAXMANN, D. C.

GRADUATE OF THE PALMER SCHOOL OF CHIROPRACTIC. CHIROPRACTIC FOUNTAIN HEAD
