That sounds like a strong statement but judging from the experience of careful investors with Farm Mortgages it is a perfectly safe claim to make for First Farm Mortgage Securities as an investment.

Mint Your Own Money

George and Bill were in a distant city. "By hokie," says Bill, "I left all of my money at home in my other clothes. Have you any?"

"No, I haven't," says George, "But, I'll 'mint' some. I didn't leave my money at home in my pockets but I left it in the bank. Whereupon he walked into a nearby bank and 'cashed' a check. This illustrates another of the conveniences of a bank account. It is not necessary to carry a large amount of money—carry a check book and 'mint' it as you need it.

STYLE QUALITY DISTINCTION

CLOTHES FOR MEN AND YOUNGER MEN

Our greatest asset—our reputation,—is dependent on the style and quality of the merchandise we handle.

We merely sell a garment—the manufacturer behind the garment is responsible for its fashion and durability.

Logically then, it is to our best interests to select the merchandise manufactured by the most reputable house.

We have done this in Our Clothes.

Our Clothes are everywhere conceded the style forerunners in younger men's attire.

Exclusive in design—

—Of the finest material obtainable—

—Clothes that are distinctively different with no suggestion of the "freakish".

The present clothes situation is unusual—without precedent in the lifetime of most of us. Face it with the intelligent belief that clothes that have stood the test of years will not fail you now.

Our Clothes stand pre-eminent as faultless quality clothes for well dressed younger men—the real economy clothes under present conditions.

We invite your inspection of our wide selection of latest models.
