Fritz, who lives at Yuma, Arizona, writes of the dreadful heat and says that the family is at present enjoying a short stay at Long Beach, Calif.

The barn on the farm of Henry Moll, Sr. of this city, in Milford township, was struck by lightning last Thursday evening during the heavy storm, and was completely destroyed. There was some insurance on the barn and the contents were fully covered.

Joseph Binder of Gibbon was in the city last week attending the farewell dance at Woodman Hall for his former schoolmate, Beatrice Oliver. Joseph who was a student at the local high school last year is at present in very poor health. He was a member of Hofmeister's Band and also played in a Gibbon orchestra.

Walter Hose who has been in France for some months writes very regularly and seems to like his situation tho he is unable even to tell what sort of work he is doing. He says he is not working at his trade of motor mechanic but that is all he can tell about his duties. He says the French people are very kind to him. Some of them can talk German and it is not prohibited. He tells of being invited to their homes for meals and says that they have taken him for rides, not in automobiles, but in the old-time, high-wheeled buggies. He is not yet on the firing line. His rank now is that of corporal. His brother Carl writes that he expects to leave the training college at Brookings, S. D. in about three weeks.

Gus Vogel recently wrote his brother Ed Vogel of this city that the heat down in Oklahoma is fierce, being around 130 degrees. In spite of the great heat the boys must still make some long hiking trips. The last letter received was written by Gus when it was 128 degrees and t may had just returned from a three days march over the mountains. Gus is located at Fort Sill, Oklahoma.

Dr. J. P. Vogel bet on a sure thing and got away with it Monday because he had really authentic information. The man who lost was Clarence Gieseke and he lost because he did not know that during his absence in the country during the morning the doctor had called at the Gieseke home and left with Mrs. Gieseke a baby daughter. However, the box of cigars the doctor charged up to Clarence was a small payment for the dear little girl that will be calling Clarence "Papa" in a few months.

The Union Hospital Aid society has made arrangements for a picnic at German Park this afternoon for members of the society and their families. The picnic is in form of a sewing circle as the ladies have been asked to bring rags which will be sewed together and made into rugs to be used in the hospital. In case of rain the picnic will be held in the basement of the Armory.

Harry Heymann wrote his parents early this week that he was leaving Camp Grant with the 86th Division of which he is a member. He did not know his destination. Edward Marti who was among the boys at Camp Grant wrote that he was not to go with the 86th but had been transferred to another department which has charge of the mess. He found himself in the same division with Peter Scherer, an old time schoolmate of his and the joy of the boys can well be imagined as each had been separated from his companions and was very lonely.

Rev. C. Curtis and wife of Goshen, Ind., visited last week with the former's sister, Mrs. Cleora Friedmann and nieces, Mrs. Philip Knees and Mrs. Alf. Schroeck. This was the first time that the sister and brother had seen each other for twenty years. The trip was made by auto and from here the party intends to go to the Pacific coast where they will spend the winter. They had the luck to come before the heavy rains and thus found the traveling fairly good over the Black and Yellow trail. They report that the crops along the road all seemed to be in pretty good condition.

Otto Tauer of Hanska was a New Ulm visitor yesterday. Mr. Tauer says that many of the farmers in his vicinity had just about half finished their stacking and that the other half of the grain is growing where it lies on the fields. Even those who stacked find some of the stacks showing a new growth where the sun has not been able to get at all sides of the stack. It certainly has been discouraging after all the hard work that the farmers did to produce a bumper crop to have the sun shine just about long enuf to give them time to get out and turn the grain over to dry a little and then comes another shower, making the additional work useless.

## Size Doesn't Count

Old Si Chestnut says: "If size always counted, a cow could catch a jackrabbit."

True, isn't it? The same thing is true about the size of a bank account. It isn't always the size of it that counts. We welcome all accounts, great or small and give one as careful attention as the other. It isn't so much the size of the account that is important to you as the fact that you have started. Begin today if only with a dollar to deposit. You will take pride and satisfaction in making the account grow.
