"Some Saving!" says the
Good Judge

You men are saving every cent you can. You ought to know that this quality tobacco costs less to chew—not more!

You take a smaller chew. It gives you the good tobacco taste. It lasts and lasts. You don't need a fresh chew so often.

THE REAL TOBACCO CHEW
put up in two styles

RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco

GET READY FOR THE BOYS

When they come home every mother will want to have the place the boy calls his own room look just the best ever. Then there are other rooms to brighten up in honor of his home coming. Let us help you choose the furniture and rugs.

E. F. BUENGER

ROUNDOABOUT ITEMS.

Walter J. Gebhard and L. H. Grimm, both of Lambertson, have returned home from service in the army.

Caroline Miller, a native of Germany who has been living at Lambertson for many years, died May 5, at the age of nearly 80 years.

A sensational affair occurred at Mankato Wednesday evening, May 7, when Edgar Swan, 23, became jealous at the sight of "his girl" going home with another young man. He attempted suicide by shooting himself with a 32-caliber revolver. The bullet entered his body just below the heart, inflicting a dangerous wound.

According to the Morgan Messenger, all of the townships surrounding Morgan have failed to reach their quota in the Victory Liberty Loan.

The fire department members of Madelia have just closed a deal through which they secure the old city hall there as a dance pavilion in which they will give a number of popular dances during the coming summer. Their original plans were to secure the site next to the Madelia hotel and erect a pavilion there, but it is said that this site will be used for the erection of a post office building.

Miss Lillian Albrecht, of Morgan, has returned home after serving in France. She was with the Red Cross nurses on the

Verdun sector and experienced many hardships.

Stanley Lamm, a patient at the insane asylum of St. Peter, escaped from the institution recently. He pried open the bars in the window where he was confined. He has been recaptured.

Prof. J. A. Hoff of the University of Washington has been called to head the department of French, German and Spanish at the St. Peter Gustavus Adolphus college. Prof. Hoff is at the head of the modern language department of the university.

Mrs. Katherine Behn-Wolfe of Traverse, who was one of the last survivors of the days of horror in 1862 when the Red Man started his terrible massacre, passed away Sunday, May 4 at the home of her son Frank on the old homestead of the family in Traverse township. She was born in Alsace-Lorraine in 1831.

WOMAN ATTACKED BY BRUTE.

Mrs. Ludwig Bolstad of Lambertson, who is about to enter motherhood and consequently is in a very delicate condition, was brutally attacked by a man giving his name as Tom Hayes. The assault was made in the home of Mrs. Bolstad, Friday, May 2, in the afternoon between 2 and 3 o'clock. Hayes, who is said to be from Springfield and who was employed as a ditcher in ex-

cavating work, came to the house to ask for a pail. He opened up a conversation with the woman and then locked the door. After having dragged her to the bed chamber he left her in a state of agony. Hayes was arrested later in the day, lodged in jail and given a hearing before Judge Gooler the following morning. His case will come up at the October term of the Redwood County District Court. At present he is in the county jail at Redwood Falls.

FARMER KILLED BY LIGHTNING.

Paul Zeitlaff, a farmer living fifteen miles northwest of Lambertson in Johnsonville township, was struck by lightning and instantly killed Saturday, May 3rd. He was engaged at seeding in one of his fields when he was struck early in the afternoon. The same bolt knocked down two of his horses, killing one of them instantly.

Mrs. Bertha Collier, aged about 60 years, committed suicide in her rooms at Fairmont with a Colt's automatic 32-calibre pistol. She formerly lived at Lake City, Minn., and it seems that she became despondent because of poor health and having no friends in her new surroundings.

OBITUARY.

MRS. JOHN GOLLNAST.

Mrs. John Gollnast, nee Lena Timm, who was in the prime of her life being only 36 years of age, died quite unexpectedly last Thursday morning at 7 o'clock. She had been brought to the Union hospital about a week previous to that day suffering from a hemorrhage. Another hemorrhage at the hospital broke her power of resistance and she succumbed to the weakening effects of this double attack.

The deceased was born April 25, 1883, at Sanborn. About ten years ago she came to New Ulm to take a position with the New Ulm Rural Telephone Company, which she held for a period of eight years. In September, 1917, she was married to John Gollnast.

Besides her husband, Mrs. Gollnast is survived by her parents, Mr. and Mrs. Paul Timm from near Wanda and the following brothers and sisters: Joe and Morris Timm, near Sanborn, Redwood County; Leo Timm, Jensen, N. D.; Hugo, in the army in France; Emil, Anton and Albert, at home; Mrs. John Fritsche, New Ulm; Anna, Butte, Mont.; Hulda and Minnie at home. Another brother died Oct. 30 last in France.

Funeral services were held last Sunday at the Lutheran church and interment was made at the Lutheran cemetery.

CARD OF THANKS.

I desire to express my sincere thanks to all the kind friends who assisted during the time of our bereavement in the death of my beloved wife.

MRS. JOHN GOLLNAST.

I especially wish to thank the donors of the floral offerings, the pallbearers and Rev. Albrecht for his kind ministrations.

JOHN GOLLNAST.

TURNER HALL

PROGRAM OF CLASSES IN GYM-NASTICS

Boys' class ages 6 to 11: Wednesday afternoon, 4:30 to 5:30; Saturday forenoon, 9:00 to 10:15.

Boys' class ages 11 to 14; Monday and Thursday afternoons, 4:30 to 5:30.

Youths' class, ages 14 to 17: Monday evening, 7:30 to 8:45 and Friday evening, 7 to 8:30.

Girls' class, ages 6 to 11: Tuesday afternoon, 4:30 to 5:30; and Saturday forenoon, 10:15 to 11:30.

Girls' class, ages 11 to 15: Tuesday and Friday afternoons, 4:30 to 5:30.

Misses' class, age over 15: Wednesday and Saturday evenings, 7:30 to 8:30.

Ladies' Class: Thursday evening, 8:00 to 9:00.

Mens' class: Tuesday and Friday evenings, 8:30 to 9:45.

Fencing class: Sunday forenoon, 10:00 to 11:30.

Sunday School: Sunday forenoon, 10:30 to 11:45.

Aerial Spying of Great Value and Use to Troops In Country of the Enemy

In Flanders an airplane goes over the lines, and from 5,000 to 6,000 feet photographs the enemy's country, trench system, lines of communication or a battery area. These photographs tell the truth accurately, asserts a writer in Century Magazine. They are the ultimate spies and are correspondingly valuable. From such a photograph a lantern slide is made, and the image, enlarged to any desired scale, is projected upon a screen, where it is painted in colors, thus furnishing an exact picture of the area as seen from the airplane. The picture is then stretched upon a frame, underneath which tiny electric bulbs are placed. Around it, perched on a platform ten feet high, cadets are seated with maps of the district, also drawn from the actual photograph. Beside each cadet is a wireless dispatching key. By a simple system of squares and subdivisions, marked on the maps and lettered and numbered, any point on the picture may be designated exactly in a very brief message. The cadets orientate their maps and keep a sharp outlook on the picture below. Suddenly a flash appears among some buildings, in a field or behind a wood. Immediately its location is noted on the key-maps of the cadets, and the corresponding code message is buzzed down to the hypothetical British battery below. In a few seconds this battery is seen to fire in a succession of tiny flashes, and, after the time of the shell's flight has passed, another flash indicates its burst near the hostile target. This target is the center of an imaginary clock dial, twelve o'clock being considered due north, and the other figures representing corresponding directions. A series of concentric lettered circles indicate successive distances. Thus the shell's burst is instantly located and buzzed down to the battery, telling the gunners just how far wrong the shots are falling. These make the proper corrections, and shots continue to fall closer about the target until the holy task of silencing another Hun battery is finished. The actual work at the front toward which the training is directed constitutes one of the prime factors in the present warfare. One has only to recall Hindenburg's official statements as to the number of guns destroyed in a single month on the western front, to comprehend its importance.

Peanut Not a Nut; Belongs to Same Family of Plants As the Pea and the Bean

We have known so little about the humble peanut of years past that most of us did not know it was not a nut at all, states a writer in Cincinnati Times-Star. As a matter of fact it belongs to the same family of plants as the pea and the bean.

This once unappreciated article is now stated to be one of the few and very rare vegetables which contain what is known in the chemical world as "complete protein."

This discovery is of very great importance to the human race, for the peanut may be grown over a very large part of the warmer areas of the earth. There are millions of square miles in the United States admirably adapted to the raising of the valuable food product.

The peanut has come very slowly into its full estate. For generations it was looked upon merely as a pleasant tidbit for children. The peanut long has been associated with the amenities of the monkey house and the three-ringed circus, but the discovery that it is a prime and almost a perfect article of food will lift the peanut out of its former, lowly place. It is definitely stated that one pound of peanuts is equivalent in nutritive value to three pounds of meat. Let's save more meat for our allies and give the peanut a place of honor at our dinner tables. There are numerous ways in which it may be eaten. Give it its place in the sun.

LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

LOCAL NOTES

Mrs. Peter Welter spent last week visiting with relatives in Morgan.

Paul Krebs from Cobden was a business visitor in New Ulm during the week.

Clifford Helling from Hanska autoed to New Ulm the forepart of the week.

Henry J. Poehler who was on the sick list for some time has recovered and is again attending to his work.

Miss Della Hopfenspirger and Vernon Kiefer from Sleepy Eye spent Sunday and Monday visiting with friends in this city.

Alex Altenburg and Nick Manderfeld have returned to their homes in Wanda after attending to business matters in this city.

Miss Jane Owens of Hanska and Miss Lena Kersten, of Springfield submitted to operations at the Union hospital last week. Both are recovering nicely.

Walter Puhlmann of the U. S. Marines recently wrote a letter to his parents saying that he expected to return home in a short time. He is now at Quantico, Virginia.

A short course in traction engineering will be held at the University Farm from May 19 to June 21 and from June 16 to 21 a short course for threshermen will be held. A large attendance is expected.

Benj. Witscheck who visited with his parents here for several months after being discharged from the army is now working for Croft & Boerner, architects and engineers, of Minneapolis. At present he is located in their branch office at Duluth.

FOR SALE: "Point Lookout" 8 room residence with all modern conveniences, spring water, good barn and garage. 15 lots. Enquire of Albert Steinhauer or Andrew Steinmetz. Adv. 10th.

Starting and Lighting Batteries Eliminate Doubt

THEY are made by the oldest and largest battery maker in the United States.

They embody many points of superiority found in no other batteries.

They are strong in construction, dependable in performance, easy to care for, and of long life.

Remember we inspect all makes of batteries free of charge. Let us inspect your battery.

"Utility" Model

Semi-Automatic Electric Plant at \$425.00

It gives you 35 20-Watt lights, and power for Washing Machine, Sewing Machine, Vacuum Cleaner, Iron and Fan. It will handle a 35 per cent overload (1000 Watts) for ten hours. If it is large enough for your requirements, it will give perfect satisfaction, for all parts are standardized, efficient and guaranteed.

But a one-size Electric Plant cannot do the work required on different size farms, country homes or stores. That's why we have the Consolidated Line.

Various sizes from \$340.00 up. Come in and tell us your power and light requirements and we will demonstrate the plant that will serve you most efficiently and for the least money, both in first cost and yearly upkeep.

ULRICH ELECTRIC CO.
