### ST. GEORGE & WEST NEWTON

The Wm. Brown family moved to New Ulm Friday and is occupying the residence adjoining the Schwendinger & Schuster paint shop on North Minnesota street. Mr. Brown's son, Benedict, who was married two weeks ago to Miss Ludmilla Forst, has taken over the farm. The young married couple has already moved onto the place.

Mr. and Mrs. Matt. Walsler spent Thanksgiving Day at the home of their son-in-law and daughter, Dr. and Mrs. Wm. Dummer, at Farmington.

Over \$300 has already been subscribed by the people of the St. George parish for the relief of the sufferers in Germany and Austria. The heavy snowfall and extreme cold weather has greatly retarded the work of the committees soliciting subscriptions, but it is confidently expected that between \$500 and \$600 will be the total donations from this vicinity.

The newly elected officers of St. Joseph Society will be installed immediately after the second mass in the Catholic church at St. George next Sunday. At the same time it is expected to initiate about 20 new members. Mr. Aretz of Chaska, traveling representative of the German Roman Catholic Aid Association of Minnesota, will be present and deliver addresses, both in the afternoon and evening.

A number of teams are busy hauling sand and gravel for the large new basement to be constructed next spring for the St. George hall. The property of the late John Gerber, just opposite the school house, has been purchased by the parish and the hall is to be located thereon. The basement will extend under the entire building and the present hall will be greatly enlarged. Building operations will commence early next spring.

"The GREATEST of them all"

## Head and shoulders above the crowd stands Thomas A. Edison!

"Head and shoulders" above the crowd of ordinary phonographs and "talking machines" stands Edison's great contribution to the world's enjoyment—

# THE NEW DIAMOND AMBEROLA

No product can be bigger than the brain that evolves it. No other brain in the world today has the inventive ability of Edison's. That fact alone is sufficient proof of the absolute superiority of the Amberola.

But the Amberola can quickly and easily prove its own superiority. Its tone—oh, what a revelation, compared to metallic "talking machines" and shrill-sounding phonographs! None but Edison could work that miracle of tone. Then the Amberol Records, made for the Amberola alone! They are practically unbreakable and everlasting—what a contrast to the costly fragileness of other phonograph records. And for range of music—the widest in the world—all the best, all the greatest, all the latest. An endless feast of fascinating melody.

Yet the biggest surprise of all is the price! This wonder phonograph costs less than inferior competitors! There is not a single draw-back to your owning an Amberola right now! Don't listen to the claims of other manufacturers—listen to their machines. Then come in and compare the matchless tone of the Amberola. Edison's wizardry will win you every time. We'll expect you in today—now don't forget.
