The First Thing

We earnestly desire to call your attention to the series of talks on banks and banking that will appear in this space regularly from now on.

They are not musty statistics, learned theories nor complicated problems for "high brows," but just plain, honest, truthful, helpful talks to plain folks, talks that are worth while. They are written out of the ordinary stilted style, for a purpose, yet they are not flippant, foolish or frivolous, for each one carries a message. Watch this space regularly every week.

GOD'S MANNA TO MAN.
Florida's Favorite Food—the Paper Shell Pecan

A wonderful nut and long known as delicious, nutritious and healthful, yet almost valueless on account of the difficulty of extracting the meat from the shell. The recent invention of the "Screw Pinch" Pecan Cracker which brings the meat out whole has made it the favorite nut for flavor and food. To introduce these in the North we are going to send you, prepaid, a nice box of these Paper-shell Pecans and enclose a nickel plated "Screw Pinch" Pecan Cracker that will last you a life time, for the sum of two dollars. Please send it by P. O. money order, it will then be a matter of record with Uncle Sam and make us both safe. It will be the best two dollars you ever invested and we will keep you posted as to where and at what price you can buy these favorite nuts direct from the tree.
