The World Moves

The world moves, and it moves forward. Progress is the watchword. Do you realize it? Are you keeping up with the procession?

Your grandfather went courting on horse-back. Your father thought a top buggy was the height of style in his courting days. You are no doubt out joy-riding in a six-cylinder car with your sweetheart. And your children? Well, they will probably do their courting up behind a bank of clouds in a modern monoplane. Banking has progressed as well as courting. Are you handling your finances through a modern bank like ours, or are you following the antiquated ways of your grandfather?
