Might Prejudice Her Case.
"Just a word," said the lawyer to his fair client.

"Yes?"
"If your husband asks for the custody of the poodle don't try to win the sympathy of the court by weeping and calling the—er—little animal your 'precious darling.'"

"Why not?"
"The judge is the father of ten children, and he's proud of it."

There never has been enough satire to season the vast ocean of sentimentality.

If half the average man's prayers were answered it would add to his troubles.

There is this about physiognomy: If a man looks intellectual, he generally is.

In a country town everybody knows a joke on everybody else, and never forgets it.

The Red Cross is spending Ten Million Dollars a Year to help the ex-service man and his family —

Annual Roll Call Nov. 11-24, 1921

To bring before the country in visual form the vast problem it is helping to solve, the American Red Cross has prepared for its Annual Roll Call, Nov. 11 to 24, a poster showing how rather than diminishing the total of World War veterans entitled to Federal aid continues to grow. Red Cross Service to these men is costing \$10,000,000 a year.

ALARM THAT DOES THE WORK

Young Man's Scheme Guaranteed to End Sleep, and He Has No Patent on It.

They were discussing that ever-vexing question—the question of getting up in the morning.

"I don't think," said Frederick, "that an alarm clock is any good at all. I hear the bell of my alarm clock go every morning. I simply lay my hand on the nearest thing I can pick up and hurl something or other at the clock. I am constantly paying for new alarm clocks, but they only rouse me for a minute, and I go to sleep again."

"I've got a new kind of alarm clock," reported Charlie. "I don't know how long it will last, but it is simply doing fine work at present."

"How does it differ from others?"
"It toots just like a motor horn. As soon as I hear it, I jump out of bed to avoid being run over by a three-ton truck."

RED CROSS WORKING FOR HEALTHIER U. S.

Thousands Aided by Instruction in Care of the Sick, Food Selection and First Aid.

How the American Red Cross guides thousands of persons to health is shown in a summary of the society's activities in the health field based upon the annual report for the last fiscal year. Through its Nursing Service, its Home Hygiene and Care of the Sick courses, nutrition classes, First Aid classes, Life-Saving classes and Health Centers and in numerous other ways designed to acquaint masses of citizens with proper methods of living, the Red Cross carried its message of health into all parts of the country.

The work of the Red Cross during the war in its traditional field of nursing, furnishing the military and naval establishments of the nation with 19,877 nurses, is well known. And there are today 37,787 nurses registered with the American Red Cross and subject to call in emergency. During the fiscal year, 1,551 Red Cross nurses were accepted for assignment to Government service, 388 by the Army and Navy and 1,163 by the United States Public Health Service.

In addition to the nurses enrolled by the Red Cross for Government service, the Red Cross itself employed a total of 1,348 public health nurses in the United States and Europe. By far the greatest number was employed in the United States, 1,257, while 81 were in foreign service.

Home Hygiene and Care of the Sick classes, giving thorough instruction in the proper care of the sick in instances where the illness is not so serious as to require professional nursing care, during the fiscal year numbered 5,179. A statistical picture of the Red Cross operations in this field follows:

New classes formed during year	5,179
Classes completed during year	6,299
New students enrolled	101,063
Students completing course	73,432

What the Red Cross accomplished in giving proper instruction through its Nutrition Service is indicated by the following table:

New classes formed during year	142
Classes completed during year	186
New students enrolled	2,341
Students completing course	2,013

In addition to the above, a total of 22,006 children were given instruction in the proper selection and preparation of foods. Through its 260 Health Centers, the Red Cross reached 90,252 persons. In these Health Centers, 4,015 health lectures were given and 780 health exhibits held.

In the United States last year, 75,432 persons were killed and 3,500,000 injured in industrial accidents. To prevent this enormous waste the Red Cross held 5,100 first aid classes with a total of 104,000 students enrolled.
