We Used To Consider

DOMINO SYRUP

simply as about the best substitute for granulated sugar to be used only when granulated sugar was scarce, but we have learned many uses for it where nothing else will do. We have many suggestions for the use of DOMINO SYRUP by the house keeper, confectioner and ice cream maker which make results more satisfactory than would otherwise be possible. Let us send a man to tell you all about it or come in and let us show you letters from users telling exactly how they have found its use invaluable to them.
