## LIKENS GOOD ROADS' CAUSE TO COLOSSUS

James P. Taylor Quotes Interesting Data for Readers

James P. Taylor, secretary of the Vermont State Merchants Association likens the good roads movement in the United States to the growth of a Colossus. Mr. Taylor's interesting article is as follows:

A colossus moving speedily and mightily—A Colossus. Thus only can be described the good roads cause in the United States. Experts who know the history of road-making say, "Road building in the United States is progressing and projected for the immediate future at a rate never approached before in any period of the world's history."

The good roads cause is a Colossus, moving speedily and mightily. Iowa speeds up by multiples of 8, 40, 120, in two years—Iowa's records for work on her primary roads for three years show tremendous increases as follows:

PAVING	GRAVELING	GRADING	TILE DRAINS
1919 4.3 miles	1919 33.9 miles	1919 110.0 miles	1919 126,991 lin. ft.
1920 46.4 miles	1920 102.5 miles	1920 49.8 miles	1920 1,168,700 lin. ft.
1921 165.4 miles	1921 367.7 miles	1921 1,959.9 miles	1921 5,416,528 lin. ft.

The night of hundreds of millions—State after state is crusading for roads that will match their traffic and solve their transportation problems. The following five states voted bond issues at the general election on November 2, 1920: Minnesota, 75,000,000; Missouri, 60,000,000; West Virginia, 50,000,000; Colorado, 5,000,000; Idaho, 2,000,000, for a total of 192,000,000.

Before that ten other states had bonded for roads between November 1918 and December 31, 1919: Illinois, 60,000,000; Michigan, 50,000,000; Pennsylvania, 50,000,000; California, 40,000,000; Oregon, 12,500,000; Maine, 10,000,000; South Dakota, 1,500,000; Utah, 1,000,000, for a total of 234,000,000.

Pennsylvania fights a liability—Governor Sprout of Pennsylvania wrote in March 1919 as follows: "During the next four years, the Commonwealth of Pennsylvania will spend approximately \$100,000,000 for better roads, and we are going to have \$100,000,000 worth of roads for years after we have paid the bills, which after

all, the most important thing to remember.

"Pennsylvania must not stop with that initial expenditure. It must continue to construct permanent highways until every hamlet and every farm is either on an improved highway or within a very short distance of one. There are 10,254 miles of road in the State's highway system—the system of roads controlled by the Commonwealth. There are approximately 50,000 miles of roads of all sorts in Pennsylvania. The State is bearing the entire cost of constructing the primary system. It asks that each county expend on secondary routes the money that it would have spent on primary routes had not the State shouldered the burden."

## St. Johnsbury Nobles Go to Sherbrooke

Over 50 Nobles of the Mystic Shrine from St. Johnsbury attended the coronation of the Karnak Temple of the Ancient and Arabic Order of the Nobles of the Mystic Shrine, held in Sherbrooke Saturday afternoon and evening.

A number of special pullmans came into the city from Montreal carrying Nobles of the Karnak Temple, and a special train of the Nobles of the Mount Sinai Temple of Montpelier, Vt., the Bethsh Temple of Concord, N. H., and the Aleppo Temple, of Boston, Mass.

Strings of lights were placed along the streets leading to the William Street Armory, where the coronation was held. The Armory itself was abundantly decorated with flags and bunting, and presented quite a gala appearance.

The chief event of the coronation, as far as the general public was concerned was the parade of the Divan Nobles and candidates, who were escorted by band and patrol to the William Street Armory. Sessions were held in the Armory during the afternoon and at six o'clock a buffet supper was served to the shriners.

At nine o'clock the drill and coronation was held, to which Masons in general invited to be present. The session concluded at midnight Saturday.

Mrs. Baker, so much benefited by Lydia E. Pinkham's Vegetable Compound, Anxious to Help Others

Lebanon, Indiana.—"I was completely run down from women's troubles and stomach

trouble and for a long time was hardly able to do my work. I had some friends who had taken Lydia E. Pinkham's Vegetable Compound, and they told me about it. I know what it has done for me and I recommend it to others, as I am sure it will be a great help to all sick women. ## DODGE BROTHERS BUSINESS COUPE

With this coupe Dodge Brothers have proved once for all that a closed car can be as sturdy and practically as inexpensive as an open roadster.

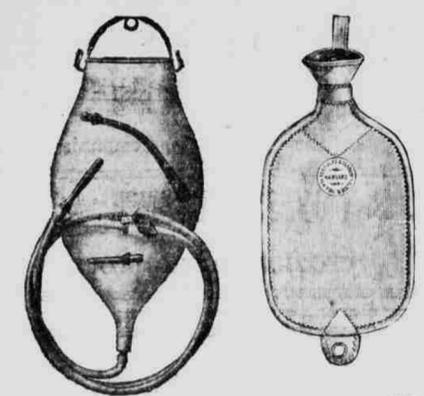

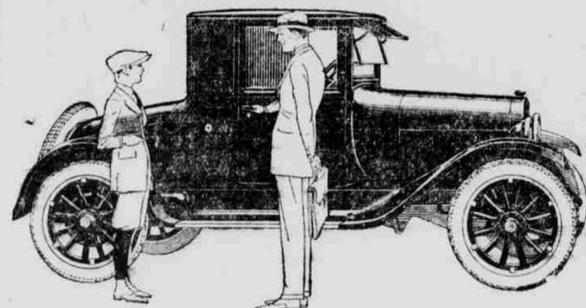

This is largely due to the all-steel body—the first ever marketed—which admits of lower cost of manufacture through standardized machine production. Unlike wood, the steel surface will take a finish of enamel, baked on at high temperature. This process results in a permanent lustre, and eliminates the trouble and expense of repainting.

The wide straight seat is upholstered in genuine Spanish blue leather, durable and readily cleaned.
