

GAZETTE GLEANINGS.

Ninety-four in the shade yesterday. The hotel at the Hot Springs is nearly completed. Charles Hfeld advertises the National Hotel on the plaza for rent. The furnaces in the gas works will be fired up next Saturday. At La Junta on Tuesday it was 120 in the shade, and at Deming 114. The Batopilas mine near the city of Chihuahua runs nearly ninety per cent. silver. Mendenhall, Hunter & Co. yesterday sold a number of Burros to Mineral Hill miners. Quite an amount of new hay is now coming into town. It is of excellent quality. The city of Chihuahua has 16,000 inhabitants and is about 300 miles from El Paso. Roberts & Wheelock yesterday turned out a large order of tin ware for Lockhart & Co. Col. Prichard says the feeling in mining circles in the east is very favorable towards the mines of New Mexico. Tireless wagons accumulate around the blacksmith shops, this dry time, like flies around a molasses barrel in fly time. The upper rooms in Houghton's new building are being plastered. As soon as finished F. D. Locke will take possession. The Episcopal church will soon be enlarged by the addition of a vestibule and chancel, in order that more room may be secured for sittings. One of the finest lots of wool in the territory sold yesterday at twenty cents per pound, Robert Mingus of Puerto de Luna was the lucky seller. F. W. Fleck has one of the nicest swings in the country. It is of his own invention, and one can take absolute comfort when swinging therein. Billy Burton has just received 50,000 choice cigars manufactured expressly for him. They are labeled "Billy's Choice" and "Billy's Ponies" and are first-rate. Dr. Cumming has one of the finest restaurants in El Paso. He has such a large run of custom that waiters enough cannot be secured. He offers the best of wages. Barometers are no good in this country. Yesterday morning the barometers were boiling over, but the lofty mountain ranges interfered with their predictions. Dr. Webster is up from the Nogals and reports work in the camp progressing at a lively rate. The new stamp mill for the White Oaks has been put in position and is expected to commence to run by July 1st. Superintendent Connolly, of the Labor bureau at Castle Garden, New York city, has received an application for from 500 to 1,000 Norwegians and Swedes, to work on the Texas and Pacific railroad, in New Mexico, at \$2.50 per day. Architect Wheelock is rushing ahead with the plans for the new residence of Dr. Henriques, in order that the contract may be awarded next week, and work begun at once. The house will be very conveniently arranged and present an attractive exterior. A Mexican named Gutierrez, head waiter at the Grand Central Hotel in Santa Fe, died of over exhaustion in the street on Monday. He had been in the church procession on Sunday and may have become over-heated. His wife died in a similar way ten years ago. I. B. Keepers, Superintendent of the Central Bridge Company, went up yesterday to take down a gang of men that have been putting the finishing touches on the bridges in Mora canyon. The work on three bridges is all completed in the canyon. One gang of workmen is now engaged in putting in the iron bridge over the river, and will be joined by the other to-day. The bridge will be completed in ten days. Conductor W. C. Bradley, who is recovering from his accident down the road, finds it hard work to kill time. He has been practicing up on jokes and yesterday shot off one that electrified the crowd at the Depot Hotel. After glancing over the hotel register and noting the names of the three Austrian noblemen, who are guests at the hotel, he said: Well, I should say that three counts in the first innings was pretty good. If the hotel keeps on like this it'll win the game. The taxes on liquors in Texas amount almost to prohibition. They foot up as follows: State and county taxes amount to \$600, wholesale in quantities above five gallons. The license to sell in quantities from one quart up to five gallons amounts to \$400. Saloons have to pay a license of \$600 to sell from a glass up to one quart. The Government tax amounts to \$130. The license of a wholesale dealer foot up the enormous sum of \$1,130. If a saloon is kept in connection with the wholesale establishment, the tax account foots up a grand total of \$1,630.

The Academy Fair at Baca Hall.

The fairest, finest, and most enjoyable affair of the season. A large number of people were in attendance, but considering the object the number should have been larger. The hall was handsomely decorated, and the several stands were furnished with a skill and touch of art that plainly showed the taste and the handwork of the ladies of Las Vegas. The fish stand, conducted by Mrs. J. Rosenwald, occupied the northeast corner, and was the source of much merriment. The orange stand, conducted by Misses Sallie Perez and Sena, came next. A fancy stand, conducted by Mesdames Reynolds and Stapp did good service in a financial way. The next to engage the attention of the looker-on was the ring cake stand, conducted by Mesdames Cooley and Dinkel. A large number of shares were taken, but no dividend was declared to the share holders. This will be done to-night. The last stand on the east side of the building was the Chinese stand, presided over by Misses Bettie Garrard and Annie Fleeman. These young ladies were dressed in Chinese costume, and kept a large number of fans for sale. They rendered a good account. The Gypsy's stand, conducted by Miss Ida Wiley and Mrs. J. E. Layton, where lemonade and fortunes were dished out permissuously, was the source of much merriment, and it was perplexing to know how such astonishingly true revelation could be told by any one human. Especially was this the case when an assistant would tell your fortune instead of the Gypsy. Another fancy stand, presided over by Mesdames Savage and Studebaker came next. This stand kept on sale the finest of goods. A cake stand, conducted by Mrs. S. Mendenhall, occupied the northwest corner of the room. In the center of the hall was a rocking chair stand, conducted by Mrs. Leon, and the flower stand, conducted by Misses Lulu Sewald, Millie Shafer and Carrie Stoops. This was the favorite stand, and was admired by all. Refreshments of ice cream and cake were served during the entire evening. Col. G. W. Prichard made a few very forcible remarks on the importance of raising funds for the erection of an academy building and through the fair a very pleasant way of aiding in such a worthy enterprise. The receipts of the evening amounted to \$181.50. This is a good beginning and should be doubled this evening and to-night. Music, vocal and instrumental, and four select recitations will be added to the other exercises to-night. All should attend. You miss a treat when you miss this fair. Then, too, remember the object for which it is held.

Our Star Routes.

A reporter of the Kansas City Evening Star has just interviewed Col. Carpenter, the Oklahoma boomer, who relates the following concerning some of our star routes that is likely to prove of interest to many of our readers: "I know a great deal about the star routes in Arizona and New Mexico. There is one route from Socorro to Tularosa, about 80 miles, which is the boss route. The contractors get \$20,000 a year for running a buckboard or a horse once a week. All the mail they ever carried there were letters to the station agent at Tularosa, which letters contained vouchers for him to sign. O, it was a fat thing. When the mail carrier got tired of carrying the empty bags he would hang them up on a tree until he returned. There are hundreds of such routes just like this that I might name, but it would take me a week to tell about them." "How are the fraudulent routes worked up?" "The contractors send out a gang of men to sign a petition for a mail route. This petition is sent on to Washington and a route is established between some known point to an unknown point in the sage brush, where no one lives. Now, there used to be a route between Silver City and Santa Fe, for which the contractors got \$80,000 from the government. They sublet to Bennett Bros., of Las Cruces, for \$20,000; don't do a thing and make \$60,000 a year." "Who is the head of the ring?" "Congressman Barlow, of Vermont." "Why, his name has never appeared in the exposure?" "No, but it will. He is not only a congressman from Vermont, but formerly the head of the Barlow, Sanderson & Co. stage company. It is now Sanderson & Co., but Barlow still holds his stock. Through him, as congressman, all the star routes in New Mexico and Arizona were worked. His name will soon appear. He is the back ground of the whole thing yet. Under Barlow, Sanderson & Co., are many small fry, who are deeply interested."

A Chance for Kansas Sheep Buyers.

T. Romero & Son yesterday fitted out a number of men to go to their sheep ranch on Red River for the purpose of driving twenty thousand head of sheep from the Rancho to Dodge City, where they will be held for sale. These sheep are improved, and are sound and healthy. They will sell provided the price is sufficient to justify, but if they do not get what the sheep are worth they will drive them back, being only a two hundred mile drive, with good pasture all the way. Should these twenty thousand sell well, Messrs. T. Romero & Son will send twenty thousand more sheep this fall to Dodge City to be sold. Yesterday afternoon some men at work straightening the rails on the road just below the depot left the switch open, and the switch engine backing down ran entirely off the track. The yard hands succeeded in pulling it on the metal again in about fifteen minutes time.

PERSONAL.

James O. Hill of Michigan is in town. A. C. Sloan went up to Watrous yesterday. Colonel Lockhart is doing the lower country. T. H. Thomas is down from Argo Colorado. August Schone of La Junta Colorado is in town. Jefferson Reynolds Esq. has returned from El Paso. C. D. Helwig of Pittsburg is registered at the Depot Hotel. Dr. Cunningham went up to Springer last night on the Irish mail. J. H. Applegate and wife of Raton are registered at the St. Nicholas. D. E. Scott, of Burlington, Kansas, is registered at the St. Nicholas Hotel. C. D. Hoffman of Kentucky is in town. He is agent for a very nice desk. A. O. Robbins, the furniture king of New Mexico, went to Santa Fe yesterday. H. Latimer, foreman of painters for the railroad came down from Raton yesterday. Clarence Wells went down to Albuquerque to attend the opening ball at the Hotel Maden. T. E. Gore, a former telegraph operator on the A. T. & S. F. road went to Deming yesterday. C. M. Williams took his first trip down the road yesterday. The Hotel Maden ball "caught" him. Mrs. John H. Robertson, daughter-in-law of the Professor, left for her home in Socorro yesterday. Rev. G. H. Noel and Henry Cowherd are in the city. They hail from the Smi Hills of Missouri. Judge George P. Dusenbury of Geneva, N. Y., land agent of the A. T. & S. F. went south yesterday. S. H. Newman, editor of Newman's Thirty-Four took a flying trip to Watrous yesterday to visit old friends. Fred. Wheelock came up from San Marcial yesterday where he has been engaged on some work for the railroad. A. A. Kendrick and Chas. Fairman of Alton, Illinois, are in the city and will investigate the mines of the Territory. S. Baxter of the Boston Herald and Mr. Metcalf the artist came down from Cimarron yesterday and left for Deming and El Paso. John A. Davis, Register of the Land Office, went to Santa Fe on yesterday's train. He has been in town several days on business connected with his office. Mr. C. H. Curtis, chief clerk in the southern division headquarters of the A. T. & S. F. returned yesterday from a two weeks cooling at the Minnesota lakes, much rested by his vacation. O. H. P. Stem, special agent of the Imperial Fire Insurance Company and of the Northern Assurance Company of London has been in the city several days. He is looking over the Territory with the view of establishing agencies. Hugh Pritchard, of Las Vegas, the lawyer and brickmaker, arrived in town Sunday night, and has been busy looking for laborers and examining Trinidad brick. He need not look for many laborers here, as they are a scarce article. He goes to Pueblo this morning. Count Andrassy, Count Szechenyi and Count Hoyos arrived yesterday from Cimarron. The rest of the Austrian party remained in Colfax county and will arrive in a few days. The three mentioned will stay here several days. Colonel Ed. Haren, general western agent of the A. T. & S. F. railroad, who by the way is a remarkably fine German scholar for a native born American, is showing the party the sights.

The "Grand Prize" mine of the New Mexico Mining and Improvement company in the Nogals district is turning out to be a regular bonanza. A few months ago word was received by the officers in this city that at a depth of seventeen feet the ore pinched out. Prof. John Robertson, Superintendent of the company made an examination of the mine and came to the conclusion that the lead had not been followed. He directed that a shaft should be sunk to follow the direction of the lead and not vertically as had been done. Now at a depth of forty-two feet the lead, that was struck where the professor predicted that it would be, has widened out to a fifteen foot lead of pay ore. This shows that it is never safe to be easily discouraged.

Messrs. R. Dunn and A. Grzelachowski returned yesterday from a trip to Bacon Springs on the A. & P. railroad, where they had been looking at some investments in lands. Work is being pushed vigorously on this road. It has already reached a point seventy miles beyond Bacon Springs and 205 miles from Albuquerque. The grade is finished to the San Francisco mountains, and track will be laid hereafter at the rate of two miles per day. Track laying has been delayed for some time owing to not sufficient cross ties being on the ground, but now there is plenty of material and work will be rushed.

Old residents say that yesterday was the hottest day that they ever experienced in this part of New Mexico.

Nearer Home.

E. W. Grim, yesterday brought in some fine looking rock from a new discovery only four miles from town which he had assayed by Prof. Robertson and which gave nine ounces in silver per ton. This assay is practically from the surface and the vein is twenty-five to thirty feet wide. It is very easily worked. All the indications point to a rich silver bearing district of abundant low grade ores west of Vegas and the establishment of smelters here will undoubtedly open up a great bullion producing field. It is not always that the best things are found at the greatest distance from home. Wm. L. Pratt formerly of Pueblo went down to Socorro yesterday, where he will make his headquarters for some time. He is interested in the southern extension of the "Torrence" mine in the Socorro Mts. and recently let a contract for sinking a shaft in order to test the claim. The shaft is now down about forty-two feet and shows up well. Mr. Pratt has had considerable experience in mining, and is a civil engineer by profession, having been graduated at the Sheffield Scientific School of Yale College. He is a pushing young fellow and the people of Socorro are fortunate in having him interested in their mines. Official notice has been issued from the headquarters of the Department of Missouri at Ft. Leavenworth to the effect that for the coming year supplies for Ft. Stanton may be either shipped from Las Vegas, Socorro or San Marcial. Edward Fenton the present contractor has the contract for this year, and will probably freight most of the goods from this point, for, although the distance is much greater by our route, it is by all odds the best. The ladies desire notice to be given that the fair will be held this afternoon from two o'clock until four o'clock and at night as usual. They request a full attendance. Arrangements will be perfected so that hacks will run regularly between the hall and all parts of the city during the afternoon and night. Tickets for the ball will be sold at the postoffice and the east side news stand. S. B. St. Vrain of Watrous met with an accident on Thursday as he was driving from his house to this city. The horses attached to his carriage becoming frightened ran away and smashed up the vehicle badly. Mr. St. Vrain was thrown out and sustained a bad cut on the head. He returned home last night by the "Limerick" mail. The young daughter of Mr. Bell, of Bell and Co., has been very ill for the past few weeks, and has required constant care and attention. She was some better yesterday.

NEW DENTAL ROOMS

Of Dr. DeGraw.

Open July 5th, over Herbert's new drug store, northwest corner of plaza. 6-30-21

For fine cigars go to Marcellino & Boffa's.

IT IS TRUE

That in Supplying you with

Carpets, Window Shades

We do it with as little trouble to yourselves as possible.

WE EMPLOY

A man especially for the purpose of measuring your rooms for Carpets and your windows for the shades you desire to put up. We also make Window Shades any required width or length, and all you have to do is to select the desired pattern or style. We also sew your Carpets and lay them down, and do everything in a workmanlike manner. You also have the advantage of selecting from the most extensive Stock in Las Vegas. One trial will demonstrate what we can do.

JAFFA BROTHERS.
