

GAZETTE CLEANINGS.

The street car track is nearly fixed up. Remember the free lunch at Billy's to-night. All are invited.

We caught a good square look at the new moon for the first time last night. M. Friedman & Bro. bought the large and fine lot of wool of Francisco Baen y Sandoval.

A full meal free lunch at the Exchange Saloon to-night. Wolf & Putman will be on hand as usual.

No rain yesterday except a clearing up shower in the afternoon. The streets are in good condition now with only a mud hole here and there.

S. M. Dedrick, of White Oaks, has been purchasing in this city horses and carriages for his livery stable in White Oaks City. He will start for his home this morning.

The exodus of bad men who were invited to leave this city has touched Santa Fe. The citizens of the Ancient are talking of dropping a similar hint for them to move on.

Charles Wheelock, the architect, moved into Marwede's new building yesterday. C. Frank Allen, U. S. Deputy Mineral Surveyor and Civil Engineer occupies the office with him.

Marcellino & Boffa yesterday completed a fine improvement in the shape of a broad plank walk in front of their East side fruit stand. In was much needed, and is an improvement to Center Street.

Along the line of the A. & P. Railroad there has been more rain within the past two weeks than has fallen in that section for three seasons. Every acacia is swollen to the dimensions of a good sized creek, and at many points the country is inundated.

While Las Vegas citizens are sleeping Santa Fe is putting its best foot forward to secure the establishment of the White Oaks mail line from Lamy. We could have that line if we would only make the effort to secure it, and if we secure it, the work must be done at once.

Charlie Prindle, night clerk at the Depot Hotel, would be just the right man for clerk in a big hotel at a watering place—the Las Vegas Hot Springs for instance. But there is one drawback, should he be settled in the new hotel and that lighted by the electric light, his bald head would be too bright a reflector, and would dazzle the eyes.

A peek into the postal car on yesterday's Pacific express confirmed our belief that the route agents have poor facilities for working the mail. It was packed so full of mail bags and mail matter that the men could hardly move about. Chief Clerk Small of the New Mexico division put in good solid work in straightening out the mail.

Wm. Morgan, Chief of Police on the West side, announces that unless Judge Lopez speedily appoints an American to assist him, he will resign. He complains that during the six or eight weeks that he has been serving he has not received a cent for his risks and pains. His trouble in the row a week ago, in which he killed a man, cost him \$50 and he has nothing to show for that or his services.

It would be a pretty good scheme if the clerks in the Postoffice took a little more time and passed the bundles of papers for the news stand through the window at the money order department rather than to hurl them over the boxes to the imminent danger of people waiting for their mail. It is a reckless piece of business and scores of people have been struck on the head by the flying parcels that frequently strike with good force.

Frazier's furo game on the east side is stopped, all but one of the men who ran it having packed up and gone to Arizona on their way to California. The Las Vegas boys started in to break it, but it had too much cash to break it, although there were big winnings drawn from it. On Thursday night one gentleman, who had previously drawn out large sums, closed his play \$1,350 ahead. Business had been dull with Frazier for some time, and this last loss settled it. But he took away from town as much money as the circus. Sporting men are unanimous in saying that this game was always square, and that the men were fair dealing and honorable. We can testify to the fact that it has given no trouble at all, and that the men who ran it were peaceable citizens while they resided in the city.

Died, at his residence at this place, Louis Valentine, an old-timer in New Mexico. Mr. Valentine came to New Mexico in 1860 and established himself at the then flourishing town of San Jose in this county, as a retail merchant. Subsequently he established himself in Las Vegas, where for a number of years he kept a bakery. A sister of Mr. Valentine is now superioress of a convent in Rome, Italy. He left enough of his earthly worth to pay decent funeral expenses, as wished by himself before death, and the balance to the benefit of the Catholic Church.

The Gas Works.

The Las Vegas Gas and Coke company is meeting with good success with the gas works. Gas is being lighted up in one or more business houses for the first time nearly every night. About fifty-five business places are now illuminated by the superior gas manufactured by the company, which is even better than D. H. Irland, the contractor, guaranteed. Thus far no private residences have had service put in, but the company has assurance that as soon as they can make arrangements, they will have at least twenty-five new subscribers from the owners of such houses. New mains are expected to arrive in about two weeks, and they will be laid as soon as possible. The company proposes to lay at least a mile of mains, for the present, and this will be increased in length as the demand necessitates. The main on the plaza on the West side will be extended from the northeast corner to the court house, and from the southwest corner some distance. On the East side, the mains on Douglas avenue will be extended past the St. Nicholas hotel, and up the hill, where several of the private residences will be lighted. The main on Center street will be lengthened out to a junction with the Douglas avenue main, passing on the west side of the diamond and in front of the San Miguel National Bank. In a few days both the St. Nicholas hotel and Summer House will be lighted up, and it is expected that Browne & Manzanares' commission house will be piped for gas before long. The mains will be laid and all these improvements made in thirty days at the outside, it is expected.

THE STREET LAMPS

and posts were shipped from St. Louis a week ago and are expected to arrive any day. As soon as they are at hand, and the weather will permit, M. S. Hart, Superintendent of the company who is very active in looking after its interests, will have them placed in position at the points contracted for with the County Commissioners. The mains have not yet been laid in all quarters where posts are to be set, but nevertheless they will be in readiness for turning on gas when the mains are all completed. Those situated on the line of the present mains will be fixed up, and the lamps lighted in a week or two.

Water Works.

A meeting of the stockholders of the Agua Pura company will be held at the office of Jefferson Reynolds, President of the First National Bank, this forenoon at 9 o'clock. Action will then be taken as to whether the proposition of Mr. J. M. Sigafus of Colorado will be accepted or not. Mr. Ed S. Alexander, the water works contractor of Colorado Springs, made arrangements with Mr. Sigafus, a wealthy capitalist, for furnishing the money to build the works. These gentlemen have been in the city several days, and have been in conference with the Agua Pura directors. Mr. Sigafus' proposition on which action is to be taken this forenoon at the stockholders' meeting, is to take the bonds of the company in payment of the money advanced towards building the works, provided the stockholders take twenty-five per cent. of the stock subscribed. This he asks as a guarantee that our citizens will have an interest in the works when completed, and it is certainly a very liberal offer. It remains now to be seen whether the holders of the stock have sufficient interest in this much-needed public improvement to insure its success. We doubt if ever a better opportunity will be offered them to build the works, and we hope to see the proposition accepted. We need water works! No one can deny that the construction of water works, insuring us a sufficient supply of water for general and fire purposes, would be the best advertisement for Las Vegas that could possibly be imagined. We suffer by comparison with other Western cities, for the lack of such works, when we have all other things in our favor. The stockholders owe it to the city to accept the proposition of Mr. Sigafus.

Small's Deserts.

In March or April last James A. Small, a route agent who had been injured on the railroad while in the discharge of his duties, was assigned to duty as acting Chief Clerk of the New Mexico division of the railway mail service. On the first of May his salary was reduced from \$1,150 per annum to \$900. Since he assumed this position Mr. Small has been almost constantly on the road attending to the regulation of the service. He has done his work well and his timely attention to irregularities is the explanation for our reliable service at present. For this good work, he has received the thanks of the united press of the Territory on behalf of the people. He has richly deserved our praise, but he deserves something else—recognition of his services by the Post Office Department. His traveling expenses more than eat up his salary, and he virtually gives his services for a hand-to-mouth living. We cannot expect Mr. Small to retain his position much longer, unless he is properly recompensed, and we owe it to him for past services, and to ourselves if we hope to have good service maintained to move to have him appointed Chief Clerk with a reasonable salary. Mr. Small is the best man in the railway mail service in New Mexico and we cannot afford to lose him.

PERSONAL.

H. T. Ceperly, of Glorieta, is in the city. Col. Fletcher, U. S. timber inspector, is in the city.

W. G. Ward the contractor is up from Albuquerque on a visit. F. A. Manzanares left for Deming and El Paso last night.

Henry Beneke, with Simmons' Hardware Co., is in the city.

Lieut.-Gov. Finney of Kansas and wife are at the Hot Springs.

I. Herbert, the druggist, is home after a week's stay in Santa Fe.

Gen. Clapp of Woodson county, Kas. is in the city waiting to go to the Oscuras.

Elwell Maden, of Maden Bros., Albuquerque, went east yesterday en route to Chicago.

George N. Wilson, proprietor of the United States Hotel, Trinidad, is among the arrivals.

Pat Garrett the gritty Lincoln county sheriff bought a horse in Santa Fe and left that city for Las Vegas on Thursday.

Harry Whigham, of Cimarron, after spending several days with Chief Engineer Morley, went down to Santa Fe yesterday.

The family of Fred Harvey, the lessee of the Hot Springs company, will arrive in a few days to spend some time at the Springs.

J. J. Dolan, John B. Wooten, Don Jose Montano, Francisco Baen y Sandoval and John Harrison returned yesterday from Santa Fe.

Col. D. W. Houston, of Garnett Kas. and daughter arrived yesterday and went out to the Springs. The Colonel will form one of the Kansas party to the Oscuras.

Mr. J. D. Smyser, brother of W. G. Smyser, chief of the construction department of the A. T. & S. F., and inspector of the Pullman Car company, returned to Chicago yesterday with his wife.

George Leas, the very popular and courteous conductor on the Southern Division of the A. T. & S. F., has been quite sick for a number of days and will recuperate at his father's home in Missouri.

Judge Stevenson, formerly a judicial celebrity of Arkansas, but now residing in Michigan, went up to Springer last night. He has been spending several weeks in the Territory and will stay out the summer.

Ex-Gov. Sam Crawford of Kansas, and his son-in-law George Chase, an attorney for the A. T. & S. F. R. R., went down to Santa Fe yesterday accompanied by their families. They will all return to our Hot Springs the first of the week, the ladies remaining here while the gentlemen go to the Oscura mountains.

Bishop George K. Dunlop, of this diocese, passed through the city yesterday on his way to Raton. He was joined here by Rev. Mr. Boyle, who will accompany the Bishop on his visitation. They will spend the Sabbath in Raton, then going to Cimarron and back to Ft. Union. They will reach here next Friday, and Mr. Boyle will preach a weak from to-morrow.

Col. Gillette, the old Comstock miner who exhibited such good sense as to pin his faith to the Black Range, is at the Hot Springs with his wife and daughter. The Colonel will leave them here and go on south to-day. While in New York he purchased a large amount of machinery to be used in the development of the much-talked-about "Ivanhoe" mine in the Range, in which he is largely interested.

Trains and Track.

The A. T. & S. F. track is now in good condition between here and Kansas City. The Pacific express reached here on time yesterday and was expected to run through to Albuquerque, doubling back to-day as the Atlantic express and is thought will reach here on time. At 3 p. m. yesterday the washouts and bridges east of Wallace were declared to be in condition for crossing, and at 3:20 President Strong's special car came over the breaks. This makes the line all right between Las Vegas and Albuquerque. A special train left Santa Fe for the latter place at 11 a. m. carrying the stage outfit that has been used between Santa Fe and Wallace. The stage line will now make its headquarters at Belen, and will run around the washouts near Alamillo and the raging Rio Puerco near La Joya. The trouble three miles east of Alamillo is a serious one, a bridge and embankment being carried away that it will require four or five days to fix up. By means of stages transferring around this break and that of the Rio Puerco good time can be made between this city and Deming. The east bound train that has been tied up at Socorro since Tuesday morning will deliver its cargo of passengers and baggage to the transfer company to-day, and all will come through to-morrow. The Atlantic express started from Santa Fe yesterday and was a full train. It reached here about three hours late having been obliged to wait till the cut, one mile west of Glorieta, was cleared of the dirt and boulders that had been washed down by the rain.

Dean's Diner.

Peter Dean, section foreman on the railroad at Shoemaker, just above Watrous, was in the city yesterday hunting up Mike Haley. Dean tells a story of his robbery by a man who gave his name as Haley. According to his tale, Haley came up to Shoemaker last Sunday and was engaged with Kelly's crew in clearing up the wreck at the scene of the recent collision between the work train and the freight. Dean was tired out by his exertions of the past week, and on Thursday morning he lay down to rest. He had been well saturated by the deluge of water that fell in the canyon and acknowledged that he "took something" to dry himself. He failed to recount whether he was sufficiently hot to dry his clothes, but he was "hot" enough to be exceedingly accommodating and at the same time remarkably careless. Haley's request for the loan of his watch was complied with, and the former gained possession of a heavy silver watch of the American Watch Company's make valued at \$60. While the drying process was going on, Haley, according to Dean's statement, robbed him of \$70 in cash that he had in his pocket. Dean tracked his man to this city, and found that the man had attempted to get \$10 on the watch at different places. But man and money he could not follow up so closely and disconsolately returned to his work again. Haley represented that he had been at work in the yard here, but he is probably a bunko man who endured the hardships of a few days' hard work for the opportunity of making just such a play.

Farewell Party.

The farewell party given at the Hot Springs Hotel last night by Mr. and Mrs. T. F. Chapman was a grand success. A reporter of the GAZETTE was there but did not reach town until too late an hour to give a detailed account of the festivities. Dispatches by telephone at midnight announced a large gathering of guests, many from Las Vegas and that they were dancing and enjoying themselves in the happiest manner. The hospitality of Mr. and Mrs. Chapman will be long remembered by visitors and guests at the Hot Springs.

Alonzo Lovejoy, has been appointed exclusive agent for the celebrated French Illuminating fluid. He is provided with burners which can be screwed on ordinary lamps. It burns without chimneys and makes a beautiful clear light which does not injure the eyes to work or read by. The fluid is cheaper than coal oil and is said to be perfectly safe. Mr. Lovejoy supplies a complete outfit and directions for using at almost nominal rates.

HOTEL ARRIVALS.
