

GAZETTE CLEANINGS.

Train from the East on time yesterday.

Marcellino & Boffa will furnish ice cream and cake to-day at their fruit store on the plaza.

J. J. Fitzgerald, the live real estate man, sold four lots yesterday and six lots the day before.

There is reason to believe that before long the A. T. & S. F. R. R. will begin work on a branch line to the Hot Springs from this city.

J. Bernard has just returned from a cattle purchasing trip. He bought several lots of beef and stock cattle which he will drive to Trinidad.

B. Stoops drove a large herd of cattle through the streets in the direction of the Western meat market yesterday. They were fine looking fellows.

M. Heise, the energetic wholesale liquor dealer, has completed moving his goods in Ed. Marwede's new building. He now has a splendid business room in a fine location.

President Strong's special car is now on the way to Topeka. To-morrow or next day the President of the A. T. & S. F. R. will leave for Boston in it where he will in the future make his home.

The Rio Puerco, that has caused an interruption of travel on the A. T. & S. F., is crossed three times by the Atlantic & Pacific R. R. and it is reported that its waters have washed out everything at each crossing.

The Sheriff of Santa Fe ordered the kids and other bad men who emigrated from Las Vegas to leave the city. They moved, and are now hanging about Lamy. They are to be ordered to leave there and will probably strike Albuquerque and then on to Arizona.

T. F. Maulding, the large cattle raiser of the Fort Bascom country is in the city. While here he purchased for the C. C. company the herd of cattle of Frank Coyote and the herd of Henry Goeke. This company is stocking up their ranch heavily.

The orchard and small fruit garden of Wm. H. Moore, in the Mora valley, is now furnishing supplies for the fruit stands of Marcellino & Boffa. This is right. New Mexico is able to furnish all the fruits that are needed if proper attention is given to the rearing of these fruits.

J. O. Hill & Co. have started a stage line from Las Vegas to Mineral City. It will run from this point to the mines on Mondays, Wednesdays and Fridays, and return on alternate days. The trip will be made in five hours, starting from either point in the morning and arriving at either city at 1:30 p. m., giving plenty of time for prospecting or business.

We are under many obligations to Joe Watrous for a box of nice, fresh vegetables and fruits from his elegant garden. Mr. Watrous has one of the finest gardens in the Territory. All kinds of vegetables and a large variety of the smaller fruits are represented. The current and gooseberry bushes are literally loaded down with ripe fruit at the present time.

As O. L. Houghton and Gillie Otero were returning from the Springs yesterday morning the tongue of the buggy came out of the neck yoke and fell to the ground. They were coming down the hill into town at a pretty good gait, but they pulled the horses into the fence and jumped out without injury. The team, a spirited one, got away, but did very little damage.

M. Friedman Sr. is out among the wool growers and writes to the firm in this city that he has bought up to the present time one hundred thousand pounds of wool. There are several other lots which he expects to buy that will swell the amount purchased this trip to much over one hundred thousand pounds. M. Friedman & Bro. are considered the heaviest buyers in this market this season.

The two men killed at the Laguna Springs by the Indians were Mexicans. Their names were Jose M. Provenio, of Mesilla, and his step-son, Victor Albillar, of Tularosa. They were on their way to the latter place when overtaken and murdered. Their wagon was found upset, but not otherwise injured, and the reds had made way with their horses. Near them was found the body of an American woman, whose name is not known. Her corpse was so decomposed that it had to be buried where it was found. The supposition is that she was traveling south with a companion, but nothing has been heard of him. There was nothing found on her person by which to identify her. The bodies of the Mexicans were brought to Mesilla for burial.

The Santa Fe people will find that there isn't anything in a name, and that the coveted connection of that city with the vigorous Texas railroad will never come. The road will go no nearer the Ancient city than did the main line of another road in the title of which company the name of Santa Fe also appears.

The O. O. of H. will meet one week from to-day at 2 p. m. sharp. All members of the order of I. O. O. F. are invited to attend. H. HYSINGER, Grand Secretary.

The street cars began running yesterday and were well patronized. To-day two cars will be run and will make trips every twelve or fifteen minutes beginning at 6 a. m. and running till 10 p. m. On Tuesday or Wednesday the other two cars will be put on and will run every seven minutes from 6 a. m. till 11 p. m. The fare is ten cents a trip, or five tickets for a quarter.

BOOMING BANANA.

The Railroad Line Being Fixed in Good Style.

The railroad company has fixed up the trouble on the Galisteo river between Cerillos station and Wallace in such a manner that it will stay fixed for some time. On three successive days the cribbing built up for the bridge work to rest on was swept away by the high water. Piles were danced about like straws, and not till forty-two piling was put in was there any show for a temporary structure. The trestle work and bridge is only about sixteen or eighteen feet high, leaving something more than twenty feet of the supports driven into the sand. Four derricks are at work dropping in huge rocks, weighing ten or fifteen tons each, around the piles making it a very substantial structure. But in the rainy season the Galisteo sweeps along in that neighborhood a perfect torrent of water sixty or seventy feet broad and eight or ten feet high. It is continually changing its channel, making it difficult to prophesy just what inroads the water will make.

Fortunately, President Strong was at the scene of the floods at the time of the greatest havoc and saw just what is likely to be repeated at any time at this season of the year. The A. T. & S. F. R. R. track crosses the Galisteo three times between Cerillos and Wallace. In company with Charlie Dyer, Master of Transportation on the Southern division, he made a personal inspection at each crossing while the flood was raging. The President decided then that iron span bridges should be put up, with solid masonry supports. This latter work will be difficult but Colonel Strong has given orders to have the masonry set on a solid foundation and substantially built. He will soon give orders for putting in the three bridges that will provide against any more trouble in that quarter.

Two miles east of La Joya, the Rio Puerco is still giving great trouble to the workmen who have been trying for several days to swing a bridge across. The headwaters of this stream are in the mountains eighty or one hundred miles away, and draining a vast area of territory the waters rise rapidly and remain at a good height for several days after heavy general rains. Piling here was swept away as fast as driven, but yesterday an extension pile driver was sent down. By using this no cribbing is necessary, the arm of the driver reaching out over the boiling water and putting down the piles without serious difficulty. If the waters subside for five or six days it is expected that a temporary bridge can be put in to-day.

Three miles and a half east of Alamillo is the Arroyo Salado, usually a dry arroyo, but in the rainy season filled with rushing waters that head in the Ladrone Mountains. There has been considerable difficulty at this point, but an extension pile driver was engaged there, and it was anticipated that the bridge would be up last night. When that is completed the pile driver will be moved up to the Rio Puerco, and work pushed from both banks. If the bridge cannot be put in a suspension bridge can be swung across, and trains able to make a crossing.

On Friday afternoon, as soon as the last bridge over the Galisteo was fixed, President Strong's special car was crossed, and then Chief Train Dispatcher Sharp ran one hundred and fifty cars from Lamy to Wallace in about two hours and a half. He had three trains in waiting, and as soon as word came that a crossing could be made he sent them spinning. In this he displayed great forethought, for there was no knowing how soon another washout would come. Not only was the blockade at Lamy cleared up, but an immense amount of material transported between the breaks, ready for use in case of emergency.

Friday's Pacific express went through to Albuquerque, and yesterday morning doubled back to Kansas City, reaching here on time. Monday night's express from Deming, that had been tied up at Socorro, yesterday moved up to the Arroyo Salado washout, but was ordered back to a place where supper could be served. There is every indication that this train will cross the breaks to-day. Passengers at Albuquerque, waiting to go south, were taken down to the Rio Puerco, but it being impossible to rig up a pontoon bridge, the train backed into Albuquerque again.

Las Vegas people are modest in claiming. Not only do they construct impossible railroads, in their minds, but they even go so far as to claim that the Gulf, Colorado and Santa Fe road is destined to that point instead of this. It will be theirs—when they get it.—New Mexican.

The street cars began running yesterday and were well patronized. To-day two cars will be run and will make trips every twelve or fifteen minutes beginning at 6 a. m. and running till 10 p. m. On Tuesday or Wednesday the other two cars will be put on and will run every seven minutes from 6 a. m. till 11 p. m. The fare is ten cents a trip, or five tickets for a quarter.

The O. O. of H. will meet one week from to-day at 2 p. m. sharp. All members of the order of I. O. O. F. are invited to attend. H. HYSINGER, Grand Secretary.

PERSONAL.

A Vandervart is over from Mora.

H. H. Dwight, of Oregon, Ill., is in town.

Mrs. A. A. Robinson is rapidly improving.

John S. Chisum, the Pecos cattle man, is in town.

B. L. Overstreet, of New York, is registered at the Sumner.

Tom Roberts, of St. Louis, is registered at the St. Nicholas Hotel.

Jefferson Reynolds, the banker, left for Albuquerque and El Paso yesterday.

Hon. Tranquillo Luna, Delegate of the Territory, will leave for Washington August 25th.

Gov. Sheldon is a guest at the White House and will probably remain in Washington some time.

Messrs. F. O. Kihlberg & Thomas are back from a lengthy trip through the eastern portion of the country.

Chief Engineer Morley is improving, and as soon as he is able to travel will go to Cimarron with Mr. M. C. Chase, whose guest he will be.

Mr. D. H. Ireland and daughter will start east Tuesday. Miss Pearl threatens to take a burro along as a riding pony, as she says they are so docile.

Mr. C. R. Browning, who has been sick for a number of days, has been moved to the residence of Col. J. A. Lockhart, where he will have the best of care and attention. He is improving already.

Col. M. G. Gillette started for the Black Range yesterday. He is as enthusiastic as ever over the prospect of some of his mines, especially the "Ivanhoe." He has three car loads of stores and machinery now on the road.

Charlie Dyer, the Master of Transportation, returned in President Strong's special car, after superintending the work of fixing up the Galisteo washouts. He looks completely worn out by his six days' hard work and drenching.

Mr. Ed Clouthier, formerly with Browne & Manzaneros, on the east side, is now with his brother in the commission house of Porter & Clouthier, at Springer. Ed says he likes Springer first rate, but thinks there is a scarcity of young ladies.

Mr. E. B. Allen, Route Agent of the Adams Express Company, went up to La Junta yesterday to meet his family that has just come out from Terre Haute, Ind. They will go to Santa Fe, Albuquerque and El Paso, and return to Vegas to spend some time at the Hot Springs.

Mr. Ed. S. Alexander, the Colorado Springs civil engineer and contractor, returned home yesterday in company with Mr. Sigafus. We are indebted to him for inducing the latter gentleman to visit Las Vegas, and doing so much towards securing the construction of the waterworks, besides affording us a opportunity to form Mr. Sigafus' acquaintance. We shall see considerable of Mr. Alexander during the coming months, and will miss him when away even more than we do now.

We were glad to welcome Mr. J. M. Sigafus, of Colorado Springs, to our city on more accounts than one. Our people will not be likely to forget the good turn he has done us in so munificently assisting the members of the Agua Pura Company to build the waterworks. He is a pleasant, agreeable gentleman, whom we shall hope to see in our city frequently. Mr. Sigafus is one of the enterprising citizens of our neighboring State, who has succeeded in making himself a millionaire, but his successes and a large bank account has not spoiled him. He has a great faith in the future of Las Vegas, as attested by the fact that he is willing to advance so much money towards the carrying out of one of our public improvements. He returned home yesterday via Santa Fe and the D. & R. G.

Letter List.

The following is the list of letters remaining uncalled for in the Las Vegas, N. M., Post Office for the week ending July 30, 1881. Persons calling for these letters will please say "advertised."

- Anderson, Wm B; Markham, Sam; Allen, James B; Mathew, Virginia; Arriola, Prudentio; Madrid, Santos; Booth, Thomas; Martinez, Jesus; Brown, Patrick 2; Bright, Phelix; Newton, Peter; Buchan, J B; Otero, Santiago; Boyless, Frank T; O'Brien, Joe; Burnett, Mrs Wm; Parcell, Mrs Kittie; Cowgill, Orrin; Potter, Mary E; Hill, A B; Cambrian, Joseph; Bonquillo, E B; Cherry, Alexander; Robinson, A D; Chiswell, Marcous; Rogers, Alex; Dean, Henry; Robertson, W L; Everan, Robert; Sharp, John H; Encinas, Placido; Schornor, Solomon; Evans, Wm M; Smith, James S; Edmondson, Gabriel; Shultz, L B; Field, Rhoda; Strism, Harvey; Fisher, John H; Scott, E J; Freshoun, Isaac; Spaulding, Sidney 12; Frey, Mrs Ida; Scott, J M; Garcia, George; Spurr, John; Green, Harry E; Stewart, Albert; Green, Tom E; Stowell, Charlie; Greenwald, W K; Stimmel, Charles; Grubbs, Miss Jessie; Hollingsworth, Wm; Hise, Albert M; Johnson, D M; Jenkins, J S; Johnson, George; Kinz, W F; Kieseling, Annie; Lonsato, Tommie; Lewis, John H; Landman, Mike; Moody, Geo. C; Moore, Morris; Murray, John; Montoya, Miguel; Williams, Wm L; Wilkinson, Owen; J. N. FURLONG, P. M.

Fruit dressed lemonade at Billy's.

OUR WATER WORKS.

Their Construction Ordered by the Agua Pura Stockholders.

The special meeting of the stockholders of the Agua Pura company to take action relative to the construction of the Las Vegas water works, was held yesterday forenoon. The proposition of J. M. Sigafus, the Colorado banker, to furnish the money requisite for building the works provided the stockholders paid an assessment of twenty-five per cent of the capital stock was accepted and the money is now at the disposal of the company. The only other stipulation of Mr. Sigafus, that the contract for building the works be awarded Russell & Alexander of Colorado Springs, was also agreed to. An executive committee was appointed by the company, consisting of Messrs. L. P. Browne, Jefferson Reynolds, Charles Blanchard and F. A. Manzaneros, who are empowered to make contract and attend to the construction of the works. Their instructions were to build the works as soon as possible, and they are just the men to attend to the matter, as they are not only public-spirited citizens but property owners, who are interested in seeing the system in successful operation.

In insisting on the contracts being awarded Messrs. Russell & Alexander, Mr. Sigafus showed the great confidence that he has in the ability of that enterprising contracting firm of Colorado Springs, that has so successfully built works in different cities of the West, to do the right thing by our people. Mr. Ed S. Alexander of that firm will return again to this city a week from next Monday, when he will submit a bid for the construction of the works that will undoubtedly be accepted. He is positive that he can have the system in good operation in ninety or one hundred days. He will push the work and leave nothing undone to make it answer all the requirements of the case.

The works will cost in the neighborhood of \$90,000. They will be built on the gravity plan, and a reservoir will be built on the Gallinas just above the Hot Springs. They will be so constructed that the mains will be kept filled and a large reserve always in the reservoir to be drawn from. The river will flow through the reservoir, making its contents living water, and providing against stale water that is not uncommon in reservoirs in sections where the sun beats down so hot as here, and where this precaution is not taken.

The mains at the head will be twelve inches in diameter and eight inches in diameter throughout the city.

We can all rejoice over the assurance that before snow flies our much needed water works will be in successful operation. Las Vegas with an abundance of water could be made the most beautiful and healthy city in America. We will soon have plenty of water for carrying out sanitary reforms, and with next season will begin an era of beautifying the city by the encouragement of the planting of shade trees and the care of lawns and gardens.

L. & H. Huning, of Los Lunas, advertise for an engineer and fireman to run a flouring mill. It is a good place.

HOTEL ARRIVALS.

ST. NICHOLAS HOTEL. Miss J. Klen, Philadelphia; G. R. Hall, Mora Canyon; A. Vandervart, Mora; Tom Roberts, St. Louis.
