Mysterious Irish Conclave.

Chicago, Aug. 6.—It has just been discovered that ever since Monday a mysterious conclave of prominent Irishmen numbering something like a hundred has been in session at one of the hotels of this city. Their deliberations have been under lock and key and in a room padded from the ceiling to the floor with sawdust and otherwise secluded. There are at present John Warren, of Lowell, a strong friend of Ben Butler; Thos. C. Givins, of Boston, a laborer of Crowe; Geo. J. West, of Providence, lawyer and secretary of one branch of the Land League; Rev. Father Geo. C. Bates, of St. Louis; Geo. C. Cunningham, well known agitator. Nobody has been let in their secret meetings, and their meetings have excluded all reporters. It has, however, leaked out that these men are the "dynamite crowd," and their deliberations are not as to whether dynamite shall be used against England, but as to the most feasible way of using it. The discussion seemed to take it for granted that there were Irish patriots as much devoted to their country as are the Nihilists band, and that there would be no difficulty in finding Irishmen who would accept the possibility, or even a certainty of death, if by it they might do great and serious damage to England.

The plans were elaborate, it is said, by which dynamite was to be used on vessels and in cities. They considered the question how to get better manufacturers of infernal machines in the United States, and in France their financial condition was reported as being sound, and the treasury contains nearly one hundred thousand dollars for a skimming fund, and committees have been appointed to provide for the future and levy a tax to raise more. A delegation of city priests waited on the members of this conclave to-day and begged them, with solemn adjurations and impressive arguments, to desist from their plots and adjourn at once. They refused to listen to such arguments and advice, saying they came here for business and were determined to accomplish their purpose. The meeting will probably terminate tomorrow.

The President.

Executive Mansion, Washington, Aug. 6, 8:30 a. m.—The President has passed an excellent night, sleeping sweetly a greater part of the time without the aid of morphine or any other anodynes. This morning he is cheerful, and all indications promise another favorable day. Pulse 92, temperature 98.4, respirations 18.

Executive Mansion, 1 p. m.—The President continues to do well. He said to the surgeons this morning that he felt better than any time since his injury. His breakfast consisted of beefsteak and potatoes, toast, tea and a few strawberries. The latter were much relished. The patient has had thus far a comfortable day, and at this hour his pulse is 101, temperature and respiration normal.

Executive Mansion, 7 p. m.—The President passed a comfortable morning. His symptoms and general condition being quite satisfactory. At 12:30 p. m. his pulse was 100, temperature 98.5, respiration 19. During the afternoon he complained somewhat of the weather, the external heat being such that it was found impracticable to keep the temperature of his room much below 90 without closing the windows and doors, which was not thought prudent. The afternoon rise of temperature began as late as yesterday, but has been higher though unaccompanied by dryness of skin. At 7 p. m. his pulse was 102, temperature 101.8, respiration 19. The appearance of the wound at the evening dressing was, however, good, and there has been no interruption to the flow of pus.

THE POPE'S ALLOCATION.

BRITISH BRIEFS.

London, Aug. 6.—The Vanity Fair denies the report that the infant son of the Duke of Norfolk is blind.

The Viceroy of India telegraphs that a native messenger just returned from Candahar reports that Ayoob Kahan is making preparations for an advance on Cabul.

TAKING IT BACK.

Madrid, Aug. 6.—The Spanish Consul at Tunis, having investigated the circumstances of the capture of Stax, admits that the Vice-Consul acting on the spur of the moment, unintentionally exaggerated the misconduct of French troops.

SPAIN AND FRANCO-AFRICAN MATTERS.

Madrid, Aug. 6.—Minister Sagosta said the people attached great importance to the friendship of France on North Africa, where he thinks Musselmen fanatics are preparing a sort of semi-religious war of races that must eventually involve Morocco, and may then call for active Spanish intervention. A close alliance with France might check the resistance of England at Tangiers and Gibraltar. He thought too that King Alfonso would do well to visit Carthage, San Fernando and all his arsenals this autumn to stimulate military and naval organization to which certain impetus will also be given by his majesty's work on the future military resources of Spain. With the 3,000,000 of troops that Spain hopes to mobilize some day, she might return to her old place as a great power and give full scope to her ambitious plans in Morocco.

Building Boom.

New York, Aug. 6.—The rage for building that set in with the opening of this year and it still continued without abatement is without precedent in the history of New York. The amount of capital being converted into brick, mortar and stone is \$27,469,220, as against \$16,900,045 at the same date last year. In considering these figures it should be remembered that 1880, when the boom in rents began, was also a great building year. The last and most magnificent of private residences erected this year have never been excelled in this city, except perhaps by the A. T. Steward mansion and residence built by the Vanderbilts last year. Madison, Fifth and Lexington avenues seems to be the favorite locations for these expensive houses.

American Doctors on Top.

Chicago, Aug. 6.—The Times London special says the American delegates have held their own in the medical congress. Papers by Dr. Billings, of California, have attracted vast attention. The delegates generally acknowledge their indebtedness to American representatives for information of the most valuable kind, especially on nervous diseases.

Francis Murphy.

New York, Aug. 6.—Francis Murphy, the well known temperance lecturer and founder of the Gospel Temperance movement, arrived in this city from the oil regions of Pennsylvania, where he has been laboring for total abstinence. He sails to-day for England, intending to hold gospel temperance meetings in Great Britain and Ireland.

Concluded to Let 'em Stay.

New York, Aug. 6.—The Post's Washington special says: It is reported that instructions have been received from the Chinese government modifying the original order for the return of the Chinese students in this country. It is believed, at any rate, that this order will ultimately be reconsidered. There is a suspicion that the refusal of our government to permit Chinese youths to enter our military schools in large numbers had something to do with the recent action of the home government. Then it is true that the boys showed an insubordinate disposition, which rather alarmed the commission.

A Mining Fraud.

Denver, Aug. 6.—M. D. Carrigan, a responsible party in mining news, in a card to the News to-morrow states that the Lutona mine in which stock has risen remarkably fast on account of a reported strike in the mineral vein, has been thoroughly examined by his brother, B. J. Carrigan, an old and reliable miner, who pronounces the mine and a statement in reference to the strike false. There is no vein or trace except a small quantity of slide rock exposed to the eye of everybody. Two tunnels have been driven under the slide without the slightest indications of mineral.

Chicago Cattle Market.

Chicago, Aug. 6.—There is an increase in the live stock especially in cattle, the receipts of which for five days have been 25,358. They were mostly slaughtered or sold here. Only 6,300 were shipped. Prices for both cattle and hogs are at the top notch, and there is a firm and steady tone to the market, which encourages large shipments and transactions.

American Pork in Turkey.

Washington, Aug. 6.—Heap, charge D'Affair of the United States Legation at Constantinople, writes to the Department of State that the Turkish decree against the importation of American pork into the dominion has passed into oblivion and become virtually a dead letter. Large consignments of American hams, which arrived shortly after the decree was after passing the Custom House inspection and paying the duties, entered for consumption.

Fresh 'Frisco Fragments.

San Francisco, Aug. 6.—A Tucson dispatch says the story of Ambrose Loinpro, engineer, being captured by Apaches, recently telegraphed, is false in the details as to the number and movements of the Apaches and the presence of Victorio.

HE OUGHT TO HAVE SUICIDED.

A Portland dispatch says: Geo. Algesheim, of Washington county, a few days ago, in a fit of rage, shot his daughter, inflicting a painful though not dangerous wound. He fled to the woods and committed suicide.

VILLARD'S LIBERALITY.

Henry Villard has given the Oregon State University seven thousand dollars to relieve its indebtedness.

TWO HUMAN BODIES.

A Tucson dispatch says: Two human bodies, mangled beyond recognition by coyotes were found ten miles from that city yesterday. They are supposed to be those of two Yaquis who, about a month ago, committed murder, fled, were followed, captured and lynched.

Desperate Tramps.

Prescott, Ont., Aug. 6.—Twelve tramps boarded a freight train, and despite the conductor and hands, rode from Brockville to this place. They ransacked freight in store here, resenting interference, but the arrival of more trains with assistance resulted in their being badly beaten and driven to the woods.

Chalmers' Check.

Washington, Aug. 6.—It is confirmed that Gen. Chalmers will be the Greenback candidate in Mississippi for Senator against Lamar. The Democrats say this is merely a move of Chalmers' to get Greenback votes to keep him in his seat in the House of Representatives.

Telegraphic Paragraphs.

Secretary Blaine expects to leave Washington for a short visit to New England.

There were six suits for divorce entered in the courts of Denver yesterday, mostly by Eastern people.

Secretary Lincoln will return to Rye Beach this afternoon, accompanied by his wife, who will remain some weeks. Secretary Lincoln will be away but a few days, however.

The Bank of Petersburg has been reducing its stock of gold, and it is reported to have sold forty million francs worth in a fortnight. Three-fourths of this amount reached Paris and has already been purchased for export to America in September.

Orville Grant Dead.

Morristown, N. J., Aug. 6.—Orville Grant, brother of General Grant, died at Morris Plains yesterday.

The following officers were elected for the ensuing year:
President, L. P. Browne; Vice-President, L. Sulzbacher; Secretary, G. W. Pritchard; Treasurer, Jefferson Raynolds; Executive Committee—L. P. Browne, J. A. Lockhart, G. W. Pritchard, J. Rosenwald and T. Romero.

RESCUED FROM DEATH.

The following at tement of William J. Coughlin, of Sumnerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1871 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking my case was incurable, but I got a bottle to satisfy them, when to my surprise and gratification, I commenced to feel better. My cough soon went away, and I began to revive. I feel in better spirits than I have had the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diarrhea and Lung trouble will be induced to take DR. WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough was almost entirely disappeared and I shall soon be able to go to work." Sold by druggists. 5-2111

THE CURRENCY QUESTION.

Notwithstanding the fact that thousands of our people are at present worrying themselves almost to death over this vexed question, even to the extent of neglecting their business, their duty to their families, and their duties to thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka & Santa Fe Railroad offers them their choice of 2,500,000 acres of the finest farming lands in the world at almost their own prices. If you do not believe, write to the undersigned, who will tell you more than you can get a cheap land exploring ticket, and how, at a moderate expense, you can see for yourself and be convinced.
