Attacked by Indians.

Special to the GAZETTE.

Rincon, N. M., Aug. 10.—A party of a dozen Indians surrounded and fired into a gang of section men working six miles south of here on the El Paso branch about 2 p. m. to-day. There were a dozen shots fired, but fortunately none of the men were injured. After jumping into a deep gully which sheltered them from the fire of the Indians they hurried here to report. A company of soldiers under Lieutenant McGonigle, Fifteenth Infantry, encamped near here have started in pursuit of the Indians. One of the section gang had gone further down the track before the Indians were seen and it is not yet known whether he has escaped.

On the night of the 8th a party of Indians ran off with eight head of horses from Lynch's ranche, twelve miles from this place. Mr. Lynch, seven soldiers and ten Mexicans are still in pursuit.

More Indians.

Special to the GAZETTE.

Albuquerque, Aug. 10.—The Apaches crossed the A. P. road near Bacon Springs this evening. The Journal special says there were fifty warriors. The A. P. road sent a special train to the front with forty men to-night.

The President.

OFFICIAL BULLETIN.

Washington, August 10, Executive Mansion, 12:30 p. m.—The President is getting through the day in a very satisfactory manner. He has asked for and taken a small quantity of food in addition to the liquid nourishment allowed. At the morning dressing the discharge of pus through the new opening was more free than at any previous time. His character was good and the wound looks well. His temperature and respiration continue within normal range, though immediately after the operation it was still shown by frequency of the pulse. At present his pulse is 110, temperature 98.6, respiration 19.

Signed
D. W. BLISS,
J. K. BARNES,
J. J. WOODWARD,
ROBT. REYBURN,

DR. BLISS'S REPORT.

Executive Mansion, 4:30 p. m.—Dr. Bliss reports at 4:30 p. m. that notwithstanding the high pulse shown by the noon bulletin the condition of the President has been very favorable to-day, and the rapidity of pulse was the indication of weakness, resulting from the operation and from the diminished quantity of food given him Monday and yesterday, but this is conditional and will not, it is thought, last longer than to-morrow. Already his pulse has fallen six beats since noon. His temperature is only a little above normal. The President has taken more nourishment to-day than at any time heretofore since Sunday, and his condition, as is the opinion of all the surgeons, is much better than 24 hours ago, and the President performed this afternoon his first official act since the second of July by the signing of a formal requisition for the extradition of criminals who some time since took refuge in Canada and are now in the custody of Canadian authorities pending action of this Government.

HE SIGNS A DOCUMENT.

Washington, Aug. 10.—Blaine dispatched to Lowell at 1 o'clock p. m. The President's condition has not essentially changed since the morning's report. At noon he signed an important public document, to which his signature was indispensable, with a firm, clear hand.

Washington, 10 p. m.—The surgeons say they think the President will pass a quiet night and show a greatly improved condition to-morrow.

Banquet at Crystal Palace.

New York, Aug. 10.—The Herald's London special says: The seventieth International Medical Congress closed to-day. The members dispersed after the banquet, held at Crystal Palace to-night. Much disappointment was entertained by members of the congress,

especially to American and Canadian delegates, who had been invited to attend Baroness Burdett Coutts's garden party, at Holly Lodge, Highgate, one of the most beautiful residences on the Northern Heights, above London. In spite of the rain over one thousand delegates and their wives made their pilgrimage. They were debarred by the weather from enjoying the beautiful park, and were received by the Baroness in one of the long conservatories. Her American husband paid special attention to the delegates from the United States and Canada. Possibly some of those who enjoyed the Baroness's charming hospitality may have the pleasure of reciprocating when she and her husband pay their proposed visit to America.

Extortion of Hartmann.

Washington, Aug. 10.—Wehle, Hartmann's attorney, New York, having written to Sec. Blaine, and advised that Mr. Hitt, both about extraditing Hartmann to Russia, and having asked that Secretary Blaine secure to him the protection of the government. Blaine replies that this unparalleled request is especially improper. He cannot, without full examination of the many bearings of the case, pass judgment; nor could he, as proposed, solicit or interrogate the Supreme Court, and he sees no reason why Mr. Hartmann should be singled out from the half million who landed here this year, for the protection of the government. Mr. Hitt's views are those of a private individual, and do not figure in the case as an official decision.

Secretary Blaine lately had the malaria fever and a tendency to chills. He is advised to go to the sea shore, and may go to Fortress Monroe, he being in Washington since November.

Spanish and Mexican Tourists.

Chicago, Aug. 10.—There regularly at the Grand Pacific last night a party of very prominent and wealthy citizens from San Salvador, accompanied by tourists from Mexico and Spain. They arrived by way of San Francisco and are on their way to the East, the journey being taken partly for pleasure and partly on business. The same party includes J. Maurice, Duke Cabo Meran Rodolfo, Duke Augustin Alfaro Maraca Grunn, Delfina Luna, Mrs. Cordelia Guio and children, Juan Germon and family, San Salvador; Isador del Campo, Alberto E. Somellera, Barcelona, Spain; Luis Sosa, Guadalajara, Mexico. Mrs. J. Maurice is one of the largest plantation owners in Central America.

CANADIAN VISITORS.

Also a very distinguished party of Canadian Government officials arrived in Chicago yesterday and registered at the Grand Pacific. The party was composed of Charles Tupper, Canadian minister of railways and mails, and Lady Tupper, Ottawa; Collingwood Schreiber, chief engineer of the Canadian Pacific Railway, Ottawa; L. Jones, secretary of Ottawa; Sir Alex. F. Galt, commissioner of Canadian affairs at London, and Mr. George Galt, secretary to the commissioner. The commissioner is on his way to Winnipeg on official business, having lately arrived from London, but Sir Charles and other officials are journeying to British Columbia by way of San Francisco to inspect the construction of the Canada Pacific Railway, intending to be absent about two months. They are accompanied by Mr. James A. Dickey and wife, Nova Scotia; R. Hurd and wife, Hamilton, Ontario; Hon. Dr. Parker, Halifax, and Mrs. Clark, Halifax. These ladies and gentlemen make the trip for pleasure. The party will start for San Francisco to-night.

Killing of Spotted Tail.

Yankton, Aug. 10.—An official account of the murder of Spotted Tail was received last night by Gen. Cook, and says: About noon of the 5th inst. Spotted Tail reported at the agent's office to receive instructions in regard to the contemplated visit to Washington. He was urged to start at once, as a letter from the Indian office directed him to report to the agent, Andrews, at Yankton agency, no later than the 8th inst., as a delegation from the Pine Ridge agency was expected to reach Yankton on the evening of the 5th. Spotted Tail concluded to wait till next morning and go with the Red Cloud delegates to the Yankton agency. This arrangement had been concluded, and Spotted Tail decided to talk with his people that afternoon and receive the expression of their views upon the subject to come before the conference. Bidding Lelar good bye, saying he would call at the office in the evening to receive any further instructions which might in the meantime occur to that gentleman, Spotted Tail left for the Indian village to confer with his people. An interview was held with the Indians. They had a big talk and feast and when the council broke up Spotted Tail mounted his horse and started homeward. The Indians were scattering in all directions with the noted chief somewhat in advance of the others, he being first out of the lodge. After leaving the council lodge Crow Dog was seen approaching. Spotted Tail had his wife with him. Crow Dog got out of the wagon and was spotted down when Spotted Tail rode up to him. He suddenly rose up and shot Spotted Tail through the left breast. The chief fell from his horse, but rose to his feet and made three or four steps toward Crow Dog endeavoring to draw his pistol. He then reeled and fell backward dead. Crow Dog jumped into the wagon and drove off at full speed toward his camp, some nine miles distant. The acting agent at once issued orders for the arrest of Crow Dog, under a paragraph in the treaty of '68, which renders him amenable to white man's laws. The arrest accomplished, he was sent to Ft. Niobrara to await trial for murder.

Terrific Explosion.

St. Louis, Aug. 10.—A terrific explosion of a boiler, being used to run a threshing machine occurred near this city and the machine was utterly demolished, being torn into little bits and scattered over the ground for a

quarter of a mile. The wheat and straw around the machine ignited and all was consumed. The following are the names of those killed: Joshua Morgan, Fred Barthelds, Nathan Brown, Alfred Arnold (colored) and a man known only by the name of Charles. In addition to these, Conrad Lindermann, the engineer, George Storm and Henry Keihl were mortally wounded, and two others slightly injured. The boiler carried about 130 pounds of steam and was nine years old.

Regulators Brought to Terms.

Cincinnati, Aug. 10.—One hundred regulators rode into Grayson, Ky., last Saturday and attempted to assume control. The marshal raised a posse and killed three regulators and wounded four.

HIGHWAY ROBBER CAPTURED.

A colored man, giving the name of Ed. Anderson has been captured and identified as one of the two who have in the past few days been committing highway robberies in the vicinity of Oakley and Madisonville, north of the city. His companion escaped.

Arrest of Cattle Thieves.

Denver, Aug. 10.—A letter has been received by the chief of Police from William McClaren, dated Eureka Gulch, from which it is ascertained that the three cattle thieves arrested recently in the suburbs of the city with forty head of stolen horses in their possession, are Elijah McCall, Wm. Whitmore and Joel Duckworth. The men, when arrested gave their names as B. B. Rush, Charles Porter and Charles W. Ray. Besides their stealing in New Mexico they stole some stock in the vicinity of Eureka Gulch.

Murder.

St. Louis, Aug. 10.—Nothing more to identify the murderer of young Lauderman last night has been developed this forenoon and the police are still as much in the dark about the murderer as last night. Charles Wolf, who was with Lauderman most of the evening, and who left the latter on the corner of Sixth and Market streets, not over five minutes before he was shot, was arrested early this morning, but nothing has transpired to in any way implicate him with the murder. Still the police think he knew more about the affair than he will tell, and they hope to hold him. He was intimate with Lauderman.

Report of Agricultural Commissioners.

New York, Aug. 10.—The Times says: The Connecticut Board of Agricultural Commissioners, after extensive investigations, as to the products of the State last year, report that the revelations of the census of 1880 are calculated to darken the solicitude for the agricultural interests of Connecticut. Where there is a gain of population in the whole State of 8,853, there is a loss of 12,861, divided among the seventy-five more exclusively agricultural towns. The statistics show that there is no exception to this decrease of population in any agricultural State. The increase is confined to cities and large manufacturing villages.

A Japanese Girl Detained.

New York, Aug. 10.—Shiomi Louisa Wakayama, the daughter of Norikar Zee Wakayama, of Tokio, Japan, formerly Japanese Financial Commissioner to the United States, is said by her father and the Japanese Consul of this city to be unlawfully detained in Brooklyn by her guardian, Mrs. Knowlton, and yesterday the American laws were invoked in favor of the young woman. Mrs. Knowlton kept a boarding house, where Wakayama went to live when he was in New York. Soon after her return to Japan Mrs. Knowlton visited that country, and returning about five years ago, brought with her the young girl, now in question, then seven years old, with authority from her father to act as her guardian and see that she received an education. It is alleged that Mrs. Knowlton diverted the money sent her to her own use, spending it in traveling and visiting watering places, and neglecting the child's education. Mrs. Knowlton, it is said, refused to surrender the girl until she received about \$2,000, which she says she spent from her own means in the child's support and education in default of remittances from the father.

Mint Investigation.

San Francisco, Aug. 10.—In the mint investigation to-day Director Burchard was put on the stand. He had been generally satisfied with the management of the large wastage of 1879 was due to the use of copper canisters in annealing instead of open furnace, a practice which had been abandoned. A further loss was caused by the working of low grade bullion. Silver bullion with copper base has been received at all the United States branch mints. A statement from the records of the mint showed that of condemned ingots for the fiscal year, 1879, and 1880, twenty-four per cent. were Northern Belle bullion. The witnesses' instructions to the branch mints, were concurred in by Secretary Sherman, were that no changes be imposed on bullion that does not require refining, even when such bullion is below standard. Charges should be imposed when metal contains other properties that would make it brittle.

Exhibition of Agricultural and Mineral Products.

New York, Aug. 10.—The Tribune says: The Southwestern Immigration Company for ten days has had an exhibition on Broadway an interesting collection of agricultural and mineral products of Texas, Arkansas, Western Louisiana and Southern Missouri. The purpose of the exhibition is in keeping with that for which the company was organized—to promote immigration to the Southwest.

Saratoga Races.

Saratoga, Aug. 10.—Mile dash, Maggie Ayer, first; Constantine, second; Valentine, third; time, 1:43. The judges incorrectly decided against Rob Roy, who led home and made a foul.

Foreign.

ASSISTANCE FOR THE UNITED STATES.

London, Aug. 10.—Thomas Gray, Assistant Secretary of the Board of Trade, states, though he will visit the United States later in the year, he has not been authorized to assist in any way or speak to any person in regard to the Consular Convention. It is significant that the withdrawal of gold from the bank for America, already begun, will continue during the next few months. The Times says we shall have to look to America for important external effects and quick, forward movement. Rates may be expected if the American drain begins before the Italian drain is over.

NOMINATION OF GOVERNORS.

Tunis, Aug. 10.—French Governors have been nominated for the districts of Tabarca and Kroumir Mountains and another for a district which includes Sfax, Gafis and Tunis.

Washouts on the Colorado Central.

Denver, August 10.—It is now estimated that \$25,000 will fully cover the damage to property by the flood at Central City. The damage at Black Hawk is somewhat less. One trestle bridge and two pile bridges on the Colorado Central, between Idaho Springs and Floyd Hill was carried away. The railroad track between Fork's creek and Idaho Springs is badly damaged, being filled in and washed out for some distance in several places. Two hundred men are at work repairing damage to the track. A train ran through to Central City to-day, but not to Georgetown. The Roadmaster says it will take three hundred men three days to repair the road between the forks of the creek and Idaho Springs. Only two slight breaks in the road between Golden and Fork's creek.

Chinese Students en Route Home.

Chicago, Aug. 10.—Twenty-five Chinese students on their way home from Hartford, arrived here to-day. They say they have completed the studies for which they were sent. One reason they give for being summoned home is that the Government military and naval academies are closed to them. As Germany allows them to enter her institutions, China will probably send her students thither hereafter, and to England. They state that none of their party have changed faith in America. They were well dressed, spoke English well, and were a creditable looking set of men.

Meeting of the American Banker's Association.

Niagara Falls, Aug. 10.—A convention of the American Banker's Association met to-day. A. Mitchell, Milwaukee, in the chair, the President and Vice-President being absent. E. G. Spaulding, of Buffalo, was chosen temporary Chairman. The Treasurer reported the finances in a good condition. Henry Martin, of Buffalo, and ex-Gov. Fen-ton, read papers.

A resolution was adopted conveying hearty sympathies with President Garfield in his severe suffering, and expressing earnest hopes of his speedy recovery. N. B. Vanslyke read an address on banking in the Northwest.

New Minister From China.

Chicago, Aug. 10.—The Inter Ocean's Washington special says: The new Chinese minister who is expected to arrive in November to succeed Chin Lan Pin is Ching Tsan Yu, about fifty-five years old, who has been in the Government service many years. He has been of late Government Inspector of arsenals and more recently Collector of Customs at Tien Tsin. It is understood that Yung Wing's place as Assistant Envoy Extraordinary and Minister Plenipotentiary will not be continued in the future. Minister Ching Tsan Yu will bring a full complement of attaches for Consul in Cuba, Peru and Spain to replace those who return.

Dakota Items.

Yankton, August 10.—The Dakota Grand Encampment of Odd Fellows was instituted here to-day.

An artesian well, which is down 300 feet, struck a blue slate formation last night, which is saturated with petroleum.

A meeting has been called here for Friday night to locate a hundred thousand dollar Congregational college on the bluff either north or west of the city.

The Railroad War.

New York, Aug. 10.—Fifty representatives of railroads were present at the meeting at Fink's office this morning trying to adjust the railroad war. No facts are known. It is reported that they tried to restore the rates of grain from Chicago to New York, to twenty cents.

Nominations.

Lynchburg, Va., Aug. 10.—The Unionists and straight out Republicans refused to meet together and are now holding separate meetings, with nearly equal members. Straightout's orderly and determined, Coalitionists are boisterous and wrangling. The ticket for State officers has been nominated by Straightouts. Others will endorse Mahone's ticket. Both conventions took a recess until 4 o'clock.

Excursion Train.

Denver, Aug. 10.—The Durango excursion train arrived in the city about 3 p. m. The excursionists passed a set of resolutions, tendering their thanks to the Rio Grande officials and citizens of Durango, and to others at whose hands they had received favors.

Hung Himself.

Madison, Ind., Aug. 10.—L. Robertson, a wealthy farmer who was always level-headed before, clothed himself in his wife's dress and sunbonnet yesterday and hung himself.

Destructive Fire.

Trafalgar, O., Aug. 10.—Every house in town but three burned from sparks of a locomotive. Loss, fifty thousand dollars. Small insurance.
