

DAILY GAZETTE

THURSDAY, SEPTEMBER 1, 1881.

GAZETTE CLEANINGS.

Coal is now being shipped from Raton.

Potter & Co. are building a business house west of the St. Nicholas.

Governor Sheldon will open the Territorial Exposition at Albuquerque.

J. Kirby has opened dental rooms on Zion hill. He inserts a card in another column.

Judge McComas of St. Louis who was reported by Indians is safe and sound in St. Louis.

An important land grant case in New Mexico will come up for consideration at the next session of Congress.

Marcus & Clemm are moving a large stock of goods into the newly refitted room formerly occupied by Maitland & Co.

After having experienced a series of calamities in the shape of very serious washouts, the A. & P. R. R. is now open for travel again.

The number of cases that will be disposed of at this term of court in Colfax county will be few. Court opened Tuesday morning.

It is whispered that a gentleman well known in Las Vegas is to be elected to a professorship in one of the first educational institutions in the United States.

George H. Nettleton, whom many hoped to see appointed General Manager of the A. T. & S. F. R. R. has become Land Commissioner of the Ft. Scott & Gulf R. R.

Judging from the letter from our correspondent at Ft. Worth, published on the second page, the A. T. & S. F. boys who go to the Texas & Pacific find many old acquaintances.

The head piece from the top of a dressing bureau belonging to T. F. Chapman, was stolen from the St. Nicholas Hotel Tuesday night. Petty thieving is becoming quite frequent of late.

Messrs. Marwede, Brumley & Co. the enterprising hardware men on Bridge Street now have the agency for the A. T. Powder Co. and are prepared to supply the trade with any quantity desired of this superior powder.

Santa Fe talks of organizing an independent military company and between thirty-five and forty young men hold themselves in readiness to join the organization. A meeting to organize the company will shortly be held.

Albuquerque has organized a musical association, with Prof. Eppstein as director. A concert will be given during the Territorial Exposition, when "Pinafore" will be presented. Owing to washouts, the Albuquerque people have probably just heard of "Pinafore."

The A. T. & S. F. R. R. has resumed the sale of through tickets over the line at Kansas City and Atchison, that was discontinued on account of interruption in travel from washouts. Monday's train from Kansas City, that passed here yesterday, was the first for which through tickets had been sold.

Messrs. H. Romero & Bro. brought up from their ranch at Corazon five wagon loads of the largest and finest watermelons to be found anywhere. Some of the watermelons weigh from thirty to thirty-seven pounds. This shows that a little attention will raise anything in New Mexico.

Tom Hughes, editor of the Albuquerque Journal, is the most ingenious fellow in drumming up outstanding bills. He makes a most pathetic appeal for all to pay up alleging that he needs all the money he can raise to take him back to Kansas where he is to deliver an address before the Marshall county fair in that State.

The hope expressed by Senator Plumb in the time of the darkest gloom at the White House, as published in the GAZETTE, appears to have had the effect of allaying the fears of many. Although few remarks were made about it on the day of publication of the interview with the Senator yet men are constantly referring to it in conversation, the President's condition being now the principal topic of conversation.

Articles of incorporation of the Raton Coal and Coke Company have been filed. The incorporators are Wm. B. Strong, President of the A. T. & S. F. R. R.; C. C. Wheeler, General Manager of the road, Frank Springer, Frank R. Sherwin and E. L. Sheldon. The company includes active and energetic men, who will push matters and develop the vast coal fields of the Raton Mountains, and put an excellent quality of coal on the market at low figures.

Mr. E. L. Sheldon, proprietor of the News and Press of Cimarron, has sold the paper and office to George F. Canis of the GAZETTE. The paper will hereafter be published by Canis & Henderson. Mr. Thomas Henderson, the other member of the firm, having been foreman of the News and Press office for a number of years, and was at one time one of the publishers. It is the intention of the new proprietors to move the newspaper office to Raton as soon as a suitable building can be erected.

Steam Power.

The GAZETTE this morning is the first paper ever printed in New Mexico by steam power. She is always in the lead, first in time of the Territorial press and first in excellence as a newspaper. To establish a daily paper in New Mexico, carry a full Associate Press telegraphic report, canvass the whole Territory and work up a circulation which necessitates steam power, is a herculean undertaking which requires courage, undertaking, patience and all the cardinal virtues united to vim, vinegar, vitriol and backbone. Without each and every one of these requisites it would need to do this thing a plethoric heap unaccounted for. For this triumph we are not un mindful of the fact that the GAZETTE is published in Las Vegas, a town noted for the liberality and wonderful enterprise of her citizens. These qualities make good newspapers and build large cities, and to them we look for that nourishment which will make the paper keep pace with the greatness of the town.

Mr. W. S. Pratt, a civil engineer who has been spending several months in Socorro, in the neighborhood of which he has mining interests, passed east yesterday. He will take a month's rest in and around New York. Mr. Pratt relates a queer incident of his residence in New Mexico. He is a graduate of the Sheffield Scientific School of Yale College, and was a member of the Freshman crew that rowed in the inter-collegiate regatta at Springfield, Mass., in '74. During regatta week he became acquainted with a young college man who was greatly interested in boating, and they sat side by side at a banquet given the boating men at the conclusion of the regatta. They became very good friends, but after the festivities they lost sight of one another. Both graduated in due course of time at the respective colleges at which they were entered, and this summer they met again in New Mexico for the first time since parting at Springfield, and the old acquaintance renewed.

Sufficient encouragement having been held out, it is not improbable that a home company, composed of citizens of Trinidad, Colfax county, Mora county and Las Vegas will build the railroad from Pueblo to Las Vegas over the route that has been so often designated in these columns as one of the most feasible projects yet mapped out in the west. There are many industrial schemes under consideration in Colfax county, with large capital ready to back them, that will have a large influence in inducing capitalists to subscribe to the stock of a company that will be formed to build a railroad through the county and more convenient than the A. T. & S. F.

Mineral Hill Notes. A vein of superior coal was discovered on the bank of Blue Canyon creek one mile from Mineral City on the 26th inst.

Since the rain has ceased the miners of the Blue Canyon district are displaying their confidence by earnest work on their mines.

There is plenty of the material that earnest work turns into wealth in the Blue Canyon district and earnest work is being done.

The New Mexican says that Gov. Sheldon has been working hard while East and has devoted much time to the demonstration of the fact that New Mexico is the proper location for a branch mint, which will undoubtedly be built somewhere within the Territory embraced in Arizona and New Mexico. The location here, as central to Old Mexico, Arizona, New Mexico, Utah and Southern Colorado, presents itself at a glance as peculiarly advantageous.

Governor Sheldon has directed the organization of an independent military company at Chloride in the Black Range, and arms, accoutrements and ammunition will be forwarded soon. The company will be mustered in as volunteers, should Governor Shields deem it necessary to order it on duty outside the limits of Socorro county.

The Governor desires the enlistment of only such men as will, in case of an emergency, be willing to go anywhere in the Territory; but when serving in their county they cannot receive pay and supplies the same as United States regular troops.

Last evening, during the progress of a prayer-meeting at the Baptist chapel, an explosion frightened the people badly, and broke up the meeting. An oil lamp standing on the pulpit was jarred from the stand and fell to the platform, smashing it and communicating the fire to the inflammable material that caused not a little excitement. Mrs. Ward, one of the worshippers, fainted, but was revived in a short time. With the assistance of a passer-by, those present were able to extinguish the flames. Little damage was caused.

Ex-Senator S. W. Dorsey declares his intention of becoming a citizen of New Mexico. He is devoted with public life and will hereafter devote himself to his stock interests in Colfax county. He has recently done what Henry Clay threatened to do, to "find midst my flocks and herds, and in the bosom of my family, that contentment that I have not always found in the walks of public life."

PERSONAL.

Smith Irwin is down from Raton. F. L. Strong, of Emporia, is in town.

Col. Gillette left for the Black Range yesterday.

Mrs. Chas. Jewett went over to Santa Fe yesterday.

W. H. Moore came over from Watrous yesterday.

Mrs. James Farmer was up from Sulzbacher yesterday.

Dick Coleman, the best track-layer in the West, is in the city.

Mrs. W. G. Gillett and daughter are registered at the St. Nicholas Hotel.

J. L. Leavitt went to Socorro yesterday. He has been in the city for several weeks.

Senators P. B. Plumb and family, after spending a week at the Hot Springs, have gone to Santa Fe.

Paul B. Du Chaille, the African explorer now "doing" the Territory, is at present in the Taos valley.

Greenville Cunningham, of Danville, Va., is registered at the Summer House. Mr. Cunningham is a newspaper man and will likely stop awhile in our city.

Myer Friedman left yesterday on an extended business and pleasure trip in the East. He will visit several of the Atlantic coast pleasure resorts before returning.

C. O. Smith, brother of Deputy Collector C. B. Smith, of this city, passed through yesterday en route to Santa Fe. He has been East on a several months visit.

Gen. M. T. Thomas returned to Albuquerque yesterday. He visited this city on business connected with the fair, and expresses himself as well pleased with the results of his trip. He will be here again in a few weeks.

Mr. W. J. Sharp, Chief Train Dispatcher of the Southern division, left yesterday on a month's vacation. He goes first to visit his mother at Sarnia, Ontario, and will then go to Cape May and the Atlantic cities. Mr. Sharp has earned a little more than he is to have the advantage of, for during the season of washouts he remained almost constantly at his post and put in hard work most manfully. We wish him a right jolly time.

Mrs. M. Cosgrove and family will start east on to-day's train. The children will enter school at Albion, Iowa, and they will likely be gone several years. Mr. Cosgrove will remain here to attend to his mail contracts. They will be missed in the society of Las Vegas, but as they go east for the purpose of obtaining better school facilities the loss will have to be patiently born until they return.

Hon. Robt. G. Strahan, State Senator of New York, one of the most stalwart of the Stalwarts, is resting in Colfax county. He will spend a month in the northern part of the Territory making the most of the unsurpassed hunting and fishing in that region. With him are also Major Fassitt, a prominent New Yorker who always makes friends and who is an enthusiastic hunter and fisherman, and General H. Tremaine a talented lawyer of New York City.

Prof. John Robertson returned on yesterday from an extended trip through the mining districts. He was accompanied by Mr. P. Taylor, an English mining expert, who represents a big mining company of London. They went as far south as the Hatchet Mountains, where they examined some mining properties, as also in the Cerillos district, White Oaks, and the Gallinas Mountains. On account of the delay of trains they came direct from the Oaks. It is not improbable that Mr. Taylor's visit may be the means of interesting English capitalists in this Territory.

Mr. George H. Sweet of the Galveston Journal of Commerce is yet in the city. He expects to go to-day from here to Santa Fe and then to Albuquerque. He does not wish to be understood as representing the Gulf, Colorado & Santa Fe road officially, but unofficially he is here for the purpose of getting data for that road as well as others. He assures us that the road will be built and that construction will go forward steadily and constantly. We shall take occasion from time to time to more fully elaborate the advantages of this road to New Mexico, the building of which Mr. Sweet assures us is a certainty.

Captain A. G. Stark has entered into partnership with J. W. Love in hay, grain, produce and general commission business. They are both fine business men and understand fully the demands of trade here. Mr. Love will remain in Kansas principally to buy and ship and Mr. Stark will look after the business at this end of the line.

A Santa Fe man who recently spent a day in Las Vegas, says there is not by any means as much life there as here. From his account the thrift of that town is principally on paper.—New Mexican.

It is nonsense to attempt to answer other than by simply denying that the Santa Fe man's judgment is bad. The thrift of Las Vegas may be on paper, but that paper is negotiable for its face value.

The "Aztec" mine at Elizabethtown in Colfax county will be started up to-day. Superintendent Wright will work three shifts, and states that he will rush forward the work of development.

A New Departure.

Messrs. Marcello & Poffa, the enterprising fruit dealers of East and West Vegas, in addition to their present business, are about to embark in a new enterprise. They have ordered an extensive and well assorted stock of musical instruments, instruction books, sheet music, pianos and organs. As this is a much needed institution in our midst we predict for them a liberal patronage from our citizens. Their new stock will be found in the Rosenwald Block, in the room lately occupied by the San Miguel National Bank, as will be seen by their advertisement in another column.

Las Vegas should have a Board of Trade. Our citizens should move in this matter, and such an organization should be started at once. Among other things needed is an acreage building record, giving the number of buildings erected, and amounts expended in constructing them during the past year. A review of the city's business should also be prepared. All things are indispensable when efforts are being made to secure the construction of an important railroad in the Territory.

Charles H. Marsh, taxidermist of Cimarron has a number of mounted specimens of the birds of New Mexico on exhibition at E. W. Sebbens' store on the east side. The work is beautifully done and persons who desire to secure specimens should examine them. Mr. Marsh will furnish skins and mounted specimens of the birds and animals of New Mexico to order. Orders by mail will receive prompt attention.

Those desiring to make exhibits at the Fair at Albuquerque, should send in their applications for space and the entries they will make early, so as to have them properly exhibited and avoid confusion.

Bell & Co., the plaza grocers, are constantly getting new goods, and are as busy as nailers.

A New Dental. Remember that Dr. P. A. Ames, a graduate of the Maryland Dental College of Baltimore, will locate here in about six weeks for the practice of his profession. 8-25-10t
