NOMINATIONS.

Washington, Oct. 24.—Henry H. Garret of New York, Minister to Siberia; J. L. Gilley of New York, Consul at Hahnburg.

MORGAN.

The Senate confirmed Morgan as Secretary of the Treasury. It is still believed that Morgan will only remain in the Cabinet until winter and that this was the programme, as he doubtless nominally declined at first, and was to accept perhaps on these grounds.

TYNER MUST GO.

The President fully understands the entire matter, and the request for Tyner's resignation was the result of thorough inquiry into that gentleman's official acts. Nothing that Tyner or his friends can do will save him, and Frank Hatton will be nominated to-morrow or Tuesday to be first assistant Postmaster-General. The story that Grant intended with the President for Tyner's retention is also untrue. Grant has not uttered a word in Tyner's behalf, but on the contrary joined in recommending the appointment of Hatton as his successor. In an interview with the President yesterday Tyner discovering that he could not continue to hold his present place, asked to be appointed commissioner of railways, which office is now vacant, but the request was peremptorily refused.

A DEMOCRATIC READJUSTER POSTMASTER.

The nomination to-day of Stratham, a Democratic readjuster, for postmaster at the important postoffice of Lynchburg, to succeed Wilson, Republican, is regarded by Mahone's friends as evidence that the President will sustain Mahone in the Virginia contests. Wilson has worked early and late against the readjusters. It is rumored, however, that Wilson was supplanted because of irregular accounts.

UNDECIDED.

It is stated that the President is undecided whether to appoint Ward or Boutwell, as Attorney-General, but the latter is expected to be the nominee.

WALKER WALKS.

General Francis A. Walker, Superintendent of the Census, has resigned.

ENTERTAINMENT OF FRENCH AND GERMAN GUESTS.

The French and German guests were entertained to-day at the Naval Academy at Annapolis.

THE MELINE REPORT.

May 5th last J. F. Meline, John Waller and W. H. Hills, were appointed a committee to examine the District contingent expenses account of the Treasury Department. June 14th the Secretary called for the report covering the investigation up to and including that date. This report was called for by a resolution offered in the Senate by Senator Sherman, which was adopted on the 21st inst. The report was today submitted to the Senate. The committee say that owing to statements made to us by the chief clerk we have not made examinations of the accounts for stationary but have confined our inquiries to the accounts and expenditures under the appropriations for other contingent expenses the attention of the Secretary is called to various sections of the revised statutes prescribing the powers and duties of certain officers of the department in relation to the accounts under examination, all of which are quoted in detail. The organization of the department officers and salaries are noted and the report then takes up the case of Custodian Pitney, and expresses the belief that the office of custodian is not warranted by law. The various crooked transactions of Pitney are then detailed. He is found to have twice paid for certain bills of carpeting out of different funds and to have mixed up the accounts paying for certain work out of the wrong funds. Thus 502 Woodruff file holders were paid for out of the appropriation for ice and the file holders have never been delivered.

Curran refuses to explain this matter. Drivers of the department carriages were supplied with overcoats paid for as billiard cloth to cover desks, and paid for out of the furniture appropriation. Fifty-three gallons of bay rum was purchased as deodorized alcohol. It was used for toilet purposes. For three years, ending May 1881, the waste paper of the department was sold for \$5,092 and no deposit made in the Treasury on that account except after the committee suggested that it should be done and then only \$2,176 was deposited. While not willing to make any recommendation the committee say, we think the system vague, very loose and liable to great abuse and in our opinion it should be materially changed.

To Meline's report was appended an exhibit showing the prices paid for articles in excess of their value in open market. Lamphere's "U. S. Government" was bought for \$3 a volume, the regular price \$2.50 each, with 20 per cent. discount.

UPTON HAS HIS SAY.

Assistant Secretary Upton and the chief clerk submit communications referring to various statements, maintaining that their administration were not involved. They declare the department economically, on the whole. Upton holds the office is legal and authorized.

WHAT WINDOW SAYS ABOUT IT.

Secretary Window's letter transmitting the report, says as he assumed the secretaryship and learned of the irregularities, he discharged the custodian. He continues: It was my intention, as soon as my more pressing public duties would permit, to have pursued this general policy in other branches of the Treasury by the appointment of competent committees to collect the necessary data on which to base proper action to secure economy and promote the best interests of the public service, but the assassination of the President suspended further action in that direction.

Trans-Atlantic Transpirings.

BARTHOLOMEW STATE OF LIBERTY.

Paris, October 24.—The ceremony of riveting Bartholdi's Statue of Liberty took place to-day in the presence of a large company of Frenchmen and Americans. Minister Morton drove the first rivet and addressed the company as follows:

I accepted with great pleasure the invitation to be present on this occasion to commemorate the sympathy and friendship so long existing between two leading Republics. After explaining the measures for the reception, erection and maintenance of the statue and other steps which Congress have authority to testify to its gratitude for so felicitous an expression of sympathy from our sister Republic. Morton added that the illustrious names of Lafayette, Rochambeau, Noailles and others asserted in new evidence of the friendship of France has been household words in the Republic of the new world since their ancestors gave their blood and treasure so freely to secure its independence. To this illustrious roll should be added the names of Labonlay and Bartholdi. France and America during the last few days have joined in the celebration of the crown victory of their allied armies. To-day we raise a monument to the liberty they secured—may it stand at the entrance of the great harbor of the new world as an illuminated emblem of the friendship between the two Republics which shall last for all time.

Labonlay spoke as follows: "The friendship contracted one hundred years ago between France and America has undergone no change. In all America's trials the wishes of France have been for the maintenance of the union and the prosperity of the great Republic. This status has been designed as a visible emblem of this sacred friendship. May the next century awaken the same belief in the breasts of our descendants so that they may celebrate as we do to-day the fraternal union which time will have only strengthened.

DISEASE THE CHIEF DISASTER.

Since the commencement of the expedition the French troops, varying in number from 25,000 to 35,000, have had from 12,000 to 15,000 on the sick list. The deaths from disease were many, typhoid fever being the cause, with eighty-five per cent. of mortality.

SATISFACTION AND RELIEF.

Dublin, Oct. 24.—Since the proclamation against the League accounts from various parts of the country have been satisfactory. There has been no disturbance of business and the people are much relieved.

MORE ARRESTS.

London, Oct. 24.—There were several more arrests under the coercion act.

PROBABLE REMOVAL OF SUSPECTS.

It is said it is probable that Parnell will be removed from Kilmalham to Belfast or Rifford jail, and Kettle, Monaghan, Dillon, O'Kelly, Brennan, and if his eyesight permits, Boynton will be removed to other prisons, but it is impossible to remove Sexton and others because of their health.

THE LEAGUE SIDE OF THE STORY.

New York, Oct. 24.—A correspondent telegraphs from Paris that he saw Healy, Egan, Biggar and Sheehy yesterday. Biggar and Healy have just arrived, with other Leaguers. The correspondent asked Egan what the League meant by advising the farmers to follow the policy of passive resistance.

Egan.—We mean by it that farmers should refuse to pay rent and submit to eviction if needful, and wait for the inevitable defeat of the landlords.

Correspondent.—Suppose they should starve?

Egan.—Why should they? They will have unpaid rents in their pockets. We shall help them as far as we can from the fund of the League. A large proportion of farmers who adhere to the League are well-to-do.

Correspondent.—But you have only £50,000 at command?

Egan.—Money will flow in fast enough. I should not be surprised if

we have a million sterling before long.

Correspondent.—I see the clergy of Kildare are giving examples of submission to the government.

Father Sheehy.—Kildare is an exceptional county, and two Bishops are notorious whigs and have no influence; besides, in Kildare rents happen to be particularly fair, relatively speaking.

Egan courted in the opinion of Correspondent.—Is there any likelihood of the home-rule movement being rewarded?

Egan.—It is well nigh impossible. We could not make common cause with Shaw, for instance, who is a home-ruer. The whole movement has never been very widespread in Ireland.

FENIAN SENSATION.

London, Oct. 24.—A story published by the Press Association showing the activity of the Fenians in Great Britain, Paris and America, says: The names and residences of several conspirators are known and warrants are already in the hands of London police for their arrest. For several months past and until a few months ago, what is known as Fenian mail, has been conveyed to London by a storekeeper on the national line of steamers who forwarded the mail to Liverpool and Dublin. Important mail was received in this way just before the recent attempt to destroy the Liverpool town hall. The storekeeper finding himself watched, joined another steamer which arrives in Liverpool. It is also stated that Parnell and several other leaders of the Land League, including members of parliament, visited Jas. Stephenson in Paris. The story concludes with the rumor that the Fenians have plotted the assassination of Foster, Harcourt, Gladstone and some members of the royal family.

EDITOR ARRESTED.

Dublin, Oct. 24.—Wall, editor of the Roscommon Herald and member of the Land League, has been arrested and lodged in Galway jail.

FRANCO-ITALIAN TREATY.

Rome, Oct. 24.—The delegates appointed to conclude a treaty of commerce with France, return to Paris with full powers.

Surprising Verdict.

Cleveland, October 24.—Edwin Combs of the Leader, having sued E. W. Scripps, publisher of the News, for libel on the jury having given a verdict for defendant to the surprise of everybody who heard the evidence, Judge Tilden, before whom the case was tried, sent Mr. Combs the following: "I feel it is due you for me to say that the verdict rendered by the jury in the libel case between you and Mr. Scripps, tried before me, was contrary to law as laid down and evidence given in the case. The testimony was overwhelmingly in your favor and the defense offered no evidence whatever to justify the publication of the article in question. The testimony showed conclusively that there was not the least foundation in any respect whatever for making the charge reflecting on you.

Yours Very Truly,  
DAN L. R. TILDEN.

Old Fashioned Mining Excitement Anticipated.

New York, October 24.—A Wall street reporter says that California speculators in the morning boards attached special importance to the fact that John W. Mackey is a passenger on board the Algeria which left Liverpool Saturday. They are creating the impression that as soon as he arrives home the long promised bonanza on Comstock will be uncovered and that with fair to manage the business at Virginia City, another old-fashioned mining excitement will be witnessed in California and Nevada.

Newspaper Trials.

Havana, October 24.—The tribunal acquitted the Revista Economica, a newspaper charged with publishing calumnies against the Jesuits and articles calculated to disturb the peace. The tribunal declares Revista Economica in attack against the Jesuits committed no offense against the Catholic religion or Christian morals. If the Jesuits feel offended they may commence civil suit. The tribunal condemned La Discusion to twenty days suspension for having printed ridiculous unqualifications for eligibility to the Senate at Madrid.

Rathful Rosecrans.

New York, October 24.—The Tribune prints a letter from General Rosecrans in which the latter complains bitterly of the continued injustice done him in the criticism, of the press on the battle of Chickamauga and especially of the statement that Garfield wrote the principal orders of the battle. He says the statement that Garfield wrote all the orders but one is in letter and spirit an unmitigated falsehood by whomsoever made or circulated.

The D. & N. O. Gains a Point.

Denver, Oct. 24.—Judge Elliott, sitting in the chambers to-day, dissolved the temporary injunction which has prevented the Denver & New Orleans R. R. from crossing the Rio Grande track at a point in the vicinity of this city. According to the decision the D. & N. O. must give bond agreeing to remove the crossing if a higher court decides they have no right to it.

Richmond's Centennial Celebration.

Richmond, Oct. 24.—A grand historical tableau and torchlight procession, gotten up by German citizens, was a fine affair, and saved from failure the local centennial celebration. Owing to the unfavorable weather of the morning the military parade was abandoned. The colored troops and society will be reviewed to-morrow by the State and city officers.

Raised their Rates.

Chicago, Oct. 25.—The Pennsylvania Railroad Company announces to shippers here that on and after Oct. 25th the rates by the Pittsburg, Fort Wayne & Chicago R. R. Company will, on account of their crowded condition and scarcity of cars, be advanced irrespective of rates by other lines, as follows: Chicago to New York 20 cents, to Philadelphia 18 cents, and to Baltimore 17 cents per 100.

## THE RAILROAD BALL AT RATON.

The Most Brilliant Entertainment Ever Witnessed in New Mexico.

About Eleven Hundred Guests Participate in Its Enjoyment.

Special to the Gazette.

Raton, N. M., October 24.—The ball dedicating the new Machine shops is one of the greatest events in the history of the Territory. All participating are simply astounded at the great throng, decorations, etc. Great interest was taken by the railroad boys who have been seconded by the town people, all united in insuring success. The shop is elaborately decorated with evergreens, cedars, flags and festooned mottoes in profusion. The grand hall is lighted by large chandeliers, a multiplicity of small lights and eight head-lights. The interior presents the appearance of a great Exposition hall and at least eleven hundred people are promenading and dancing. At this hour over three hundred are on the floor dancing and it is not crowded. Many prominent railroad officials are present, people from the surrounding country, townspeople and many people from abroad. The seven o'clock special from Trinidad brought two hundred and seventy accompanied by a band. The band gave an open air concert before the ball. At nine o'clock Olney Newell, of the Trinidad News, opened the exercises by delivering a short address of welcome, thanking the people on the part of the railroad boys. He spoke of the new era the completion of the shops meant for Raton.

Then followed the grand march around the hall, two hundred couples participating. An elegant supper was served at the Railroad Hotel. Many Vegas people are here. The Las Vegas Orchestra won great praise. First settlers remark the change the year has made. A year ago they tried to get up a dance and only enough for two sets could be secured. Now over forty sets are going at once. The crowd do credit to any town in any of the States. The Gate City's success is largely due to Master Mechanic D. H. Dotterer, Train Master T. Saunders, and each individual railroad employe deserves praise for his patriotism.

Burglarized.

Elmira, N. Y., Oct. 24.—The residence of J. Sloat Facett of this city, was entered by burglars this morning and \$1,500 worth of silver ware taken, being the wedding presents of Mrs. Facett, who is the daughter of Judge Crocker of California.

Unsuccessful Strike.

New York, Oct. 24.—Four hundred strippers in Lorillard's tobacco factory who went on a strike last week, resumed work to-day. The collapse of the strike has not interfered with the firm's plans in the Southwest.

Army and Navy Ball.

Fortress Monroe, Va., October 24.—The army and navy give a grand ball to-night, winding up the Yorktown Centennial celebration.

To the honor of the Catholic church, it is stated that none of its members have ever been converted to Mormonism. The converts usually are among the ignorant foreign classes, who find the comforts of life in Utah so superior to their hard lots previously that they accept them as heaven sent. American women do not take to Mormonism. The blow that strikes down the inquiry will fall upon a class as ignorant and as nearly destitute of all moral guidance as any like number of people in any civilized society upon the globe. Mr. Nye, in a recent letter, declares that "there is not a gravel train upon the Union Pacific railroad that does not contain more intellect than can be found among the elders and rulers of the Mormon church."—Inter-Ocean.
