THE CITY.

Visit Evans' art and curiosity store.

George Ward is renovating the exterior of his block on Railroad avenue.

The train from the east last night was in two sections, and did not reach this place till 11 o'clock.

A man was run over at Deming on Monday night and his foot was cut off from the leg just above the ankle.

After the 1st of the month Jimmy Holmes will be messenger boy at the depot, in the place of Charley Butler, resigned.

Another crew was yesterday put on the road by the Santa Fe. The increase of business demands an increase of hands to manage it.

WANTED—Girl to do general house work. Apply at the residence of Jefferson Reynolds or at the First National bank.

Goodall & Ozane, the Railroad avenue druggists, yesterday received a large invoice of goods. Some of them had been quite a while on the road.

Fish brand slickers, both double and pummel, just received at the Golden Rule. Cow boys and cattlemen can find all they want at this establishment.

Grayson & Co. have just received an invoice of Double stout and Bass' pale ale, some of the finest imported cigars, and 1,000 cigarettes, Old Judge and Sweet Caporal.

The Jefferys Lewis combination will arrive this morning from Trinidad. They come in on the freight, not trusting to the uncertainty of the passenger in the evening.

A man at Albuquerque was run over by the switch engine on Monday night, and his head severed from his body. A Kansas City ticket was found on his body, but no means of determining his identity.

Mr. J. W. Lynch, of this city, has sold his ranch east of town to Mr. Edmondson, of Nebraska, for \$7,000. It is understood that Mr. Edmondson and his son, who are practical and well-to-do farmers, will occupy the premises.

The ladies of the Presbyterian Aid have changed their programme to something new and better, and invite all their friends to join them Thursday afternoon at the residence of Mrs. B. B. Borden.

Amos Lewis, the renowned dog trainer, has resigned his position as first clerk at the Golden Rule, and for the future will devote his energies to the telephone business. One day Mr. Lewis expects to have a telephone line of his own.

On Monday night an entertainment will be given at the Female Seminary for the purpose of raising funds to meet the demands made by the general church, of the Southern Methodist denomination, upon the local society of this place.

Freight in car load lots yesterday was one car of sugar, two of flour, and one of lard and hams, Grose, Blackwell & Co.; one of potatoes, Browne & Manzanares; and one of flour and one of sugar for Myer, Friedman & Brother. Grose, Blackwell & Co. sent one car of groceries south.

The well in connection with the Milligan building, to which reference has previously been made in THE GAZETTE, yesterday reached a depth of eighteen feet. Water was struck at that depth, and the indications were that it would be sufficient in quantity.

Let us have an Arbor day. If 300 or 400 trees could be set out in our city through the instrumentality of such a movement, it would be a permanent benefit that could hardly be calculated in dollars and cents. Let our leading citizens move in the matter.

It is said that one of our hose companies will turn out one of the fastest couplers in the territory. Las Vegas boasts of harboring the champion at the present writing—Albuquerque Democrat. This sounds very much like a challenge, and our boys had better be looking to their laurels.

Wallis has recovered his mule. In the early part of the winter he let a former citizen of Las Vegas have the animal to make a trip through the Anton Chico country, and since then owner and animal have been parted,

Wallis yesterday found the mule in the possession of a Mexican and relieved it.

Fred Harvey, the proprietor of the eating house system of the Santa Fe road, sailed for Europe last Saturday. He was detained in New York city for a month by illness.

An effort is making in the city to organize a tribe of the order of Improved Redmen. The order is one of the best secret benevolent organizations in the country, and those having the movement in hand here are among our best citizens.

J. C. Dougherty left last evening for Santa Fe to work on the capital building. He leaves his family here, thus retaining his citizenship at this place. Mr. Dougherty is one of our contractors and builders, having had the contract on Dr. Dudley's new and elegant residence on Seventh street.

A number of citizens of Anton Chico have petitioned the board of county commissioners to change the location of the proposed bridge across the Pecos river at that point. They don't say where they want it, but they are sure they are not satisfied with the present site which is about a mile and a half from the village.

While Blanchard street is receiving such improvement by the removal of obstructing buildings, the residents upon Main street are equally determined upon improving by the removal of the obstructing demi-monde. The fact is that the presence of this element upon such a thoroughfare as Main street should not be tolerated for a single day.

The rink is closed for this season, and Professor Robinson and his brother will leave the last of the week for the south. Parties having skates at the rink, and those having bills against the late management, will please attend to these matters before Friday. Robinson can be found just across the street from the rink. They thank their many friends for the numerous favors they have received.

A scheme is on foot to build a pavilion and establish a picnic ground in easy distance of the city. It is a good scheme and ought to be carried out. Americans need a rest, and picnics are good for young and old. But to enjoy them we must be prepared for them. Last spring many parties were disappointed and their fun spoiled by unexpected rains. A pavilion would prevent this. Keep the ball moving.

The poor little fellow, Arthur Wilson, commonly called "Nibs," will be thrown out of a good home by the closing of the rink and the leaving of the Robinson brothers. Nibs is an orphan and was in a deplorable condition when his present friends took him up. They can recommend him as a better boy than he used to be, and any good family wishing the services of a little fellow about the age of twelve, will do an act of kindness by taking charge of this one.

J. W. Lynch, of Las Vegas, has been indicted, arrested, tried, acquitted and discharged for having feloniously coveted, taken, brand, driven away and claimed a certain cow. Mr. Lynch is one of the most correct as well as wealthy cattlemen in the range country, who has a large ranch at Puerto de Luna—the door of the moon. He being so close to the lunar region would be more likely to be guilty of lunacy than larceny if he should make the mistake of driving away a scrub cow.—Trinidad Advertiser.

The Robinson boys have been citizens of our town for some months. They have furnished a well managed place of amusement for our young people. Under their administration everything about the rink has been conducted decently and in order. Beside, they are very superior musicians and have contributed largely to the success of many musicals and festivals which have been in the city. Our community parts with them with regret, and we shall be well pleased if they return again to make Las Vegas their home.

R. A. Kistler, while intoxicated on Sunday, grossly insulted a lady in the street car, so that she was compelled to appeal to a gentleman for protection, who stopped the car and conducted her to her home. Kistler's habits of intemperance concern himself alone, but his insulting language and conduct when under the influence of liquor have been a public nuisance, and ought to be abated. In this matter, forbearance has ceased to be a virtue, and no reason can be given why he should pursue with impunity a course that in others would result in a lock up or a knock down.

It is hardly necessary to remind any of the fact that tonight the Jefferys Lewis troupe make their first appearance in our city in Merrivale's "Forget-Me-Not." The unprecedented sale of seats shows that our people are expecting something extra. The Chicago Mail says: Miss Lewis' impersonation of the heroine, Stephanie de Mohrivar, is full of feverish passion and intense realism. She vests the part with the fervid impetuosity of a young and passionate woman, at no part in the play is there a deficiency in the qualifications which the character requires. Her work throughout is that of a most careful and deserving artist whose equals are few on the American stage.

District Court.
The case of the Territory against William Green was nolle yesterday. Assistant Attorney General Broden held that the conviction of Pridmore was virtually an acquittal of Green who had been indicted in connection with the same shooting affray.

The alleged contempt cases against J. W. Lynch and Harry Blocker were heard and argued. Nothing new was developed. Both defendants protested their entire innocence. Judge Long took the cases under advisement and will not render a decision until the next term of court.

The jury in the case of B. B. Borden against the Hot Springs company were unable to agree and were discharged.

Joseph Rosenwald & Co. sued Paulino Ulibarri for an account aggregating nearly \$400 and alleged that Ulibarri had been disposing of his property in order to defraud creditors. The jury gave Rosenwald & Co., a judgment but acquitted the defendant of any attempt to defraud.

The contempt case against H. W. Wyman was partially heard last evening and will be concluded this morning.

Charley Tamme was returned from his eastern trip. While away he purchased the finest bar fixtures ever brought to the territory. The painter to prepare the scenes for the new opera house is expected next Monday or Tuesday. He has been twenty years engaged as a scenic painter, and no doubt will make that part of the opera house to be fully on a par with all the rest. Tamme also purchased while gone 500 of the latest improved opera chairs for the parquet of his opera house. No doubt the audience room will now be pushed to completion at as early a day as possible.

Dr. Bayley will begin at once to erect a handsome brick building on his lots on Sixth street next door to the Milligan block.
