TOPICS OF THE TIMES.

The Strike on the Texas & Pacific Assumes Serious Proportions.

A Battle Takes Place Between Officials and the Knights of Labor.

Four Officers Killed and Wounded and Several of the Strikers Badly Hurt.

The Planters Hotel at St. Louis Partly Burned—Four Persons Cremated.

St. Louis, April 3.—The resumption of freight traffic by the Missouri Pacific and Iron Mountain railroads has become an acknowledged fact. For the past few days officials have been sending out a regular number of trains which although smaller at first than they were accustomed to before the strike, yesterday assumed their more natural proportions and today it is expected that they will be as large as ever. No more hindrance to the running of freight trains on the road is anticipated. East St. Louis is now becoming a point of interest and it is expected that officials of roads centering there will find it difficult to effect a resumption of freight traffic. All their efforts in this direction have with few exceptions, failed, and the strikers, although they have announced moral suasion as their mode of interference, are determined, if that shall fail, to resort to more violent methods, and are determined that no freight shall be moved until the strike is ended. Railroad officials last night decided to open running freight trains, and will today make every effort to attain that end. When these attempts shall be made it is expected serious trouble will ensue.

St. Louis, April 3.—Frederick Turner, secretary of the general executive board of Knights of Labor, and Wm. H. Bailey, a member of the same committee, arrived in this city from Cincinnati this morning and proceeded to the rooms of the local executive committee, where they are now considering the strike. After this conference shall be finished and some definite line of action decided upon, Turner will attempt to see Hoxie and ascertain what line he intends to follow in re-employing striking Knights of Labor. A second conference will then be held with the local committee, and an agreement formulated, which will be presented to Hoxie for his signature.

St. Louis, April 3.—Mr. Turner in an interview this morning stated that his plan is that all positions not now filled by new men who had been employed since the inauguration of the strike, shall be open to application from Knights; that those who apply shall be selected on an arbitration committee, which will attempt to arrive at some amicable understanding. Concerning grievances of the Missouri Pacific Knights, Turner, in reply to an inquiry if he should request all striking Knights of Labor be re-employed, replied: "No; we don't expect them to discharge competent men, who have been employed during the strike, and we shall make no such demand; neither shall we demand that those who have committed depredations upon the company's property be taken back. Such demand would be inconsistent with the principles laid down in our constitution."

St. Louis, April 3.—Turner and his associates were in consultation with the joint executive board until after 1 o'clock this afternoon, when they called at Hoxie's office, but the gentleman not being in they went to their hotel for dinner. Neither the precise character nor a report of the conference of this morning has yet transpired. The freight blockade at East St. Louis is practically broken; all roads have switch engines at work. The sheriff made his first arrest today of strikers indicted by the St. Clair county grand jury. Two of them were taken to Belleville by the first train. Later in the day two engines were sent upon the line in the Vandallia yard were induced to take their engines back to the round house and an engineer on the Cairo short line was induced to abandon his engine. Another train of coal came over the bridge at noon. The sheriff has sworn in as special deputies all present employees in the various yards. The Wabash is receiving and sending out trains without interruption.

Satisfaction Guaranteed.
