

ST. LOUIS shows a lighter mortality than any of the leading cities of the United States.

FILIPYAN, an able, foreign writer says, in the besting sign of American newspapers. This judgment is not so severe as some of them deserve.

A church organization in Chicago, has dismissed a pastor who had avowed his disbelief in God. While disposed to allow a deal of latitude in other things, this was deemed too wide a departure, even for Chicago.

THE PUBLIC, financial journal of New York, thinks the speculative fever will be kept within bounds during the present year owing to some slight precautions of the danger of crowding the boom beyond sense or reason.

A BILL re-enacting the death penalty for murder in Wisconsin has passed the senate by nearly a two-thirds vote. There is a fair prospect that the bill will become a law.

AMERICAN papers have gone into a spasm of indignation because the London Times said that "Gentien is a typical American." It was a mean thing to say, but why make a fuss over it. There is no use making ourselves unhappy about anything a scribbler three thousand miles away may choose to say.

THERE are claims now before Congress which originated more than half a century ago. The original claimants are in their graves but their descendants are still hopeful.

THE moment of the real estate speculation at Winnipeg is indicated by a statement that a party has been offered \$500,000, or \$200 per acre, for 2,500 acres of land seven miles from the town.

PROHIBITION in Kansas has received an setback by a decision of the Supreme Court deciding unconstitutional so much of the prohibition law as provides a punishment for drunkenness, on the ground that the prohibition was not expressed in the constitution.

THE governor of Michigan has called a meeting of the legislature for that state to begin at noon, February 23, to provide a law for relieving the sufferers by the fire in Huron and Sanilac counties; to act upon the tax commission bill; and to re-district the state in congressional districts.

IT appears by the last census that the total amount of bituminous coal mined in the United States during the census year of 1889 was 42,189,000 tons of which total 29,842,210 tons were produced in Pennsylvania, Pa., furnishes over one-third, and the states of Pennsylvania, Illinois and Ohio nearly three-fourths of the entire product.

PEOPLE of New Mexico and Arizona have been over-awed by a few cow-boys and want United States troops to take care of them. Gov. Gasper of Arizona says: "The people in their most earnest after money, grossly neglected local self government, until more lazy and lawless elements of society have undertaken to put out more industrious and honorable classes. The Mexicans are not all white. Some are Mexicans, but Americans direct and control the lawless element."

THERE is one good feature this winter of Washington journalism, and that is the absence of personal gossip and twaddle about the families of distinguished people, which had been carried to a ridiculous and positively nauseating excess for a decade at least.

GLADSTONE, the premier of one party in England, has lately given to the public one of his ideas of civil service by elevating an eminent lawyer of the minor to the bench, and that, too, with the knowledge that the district left vacant by the promotion would inevitably be filled by a member of the same party.

KANSAS has earned a bad name at the east in one respect, and that is the habit of constantly appealing to the eastern public for money. The best citizens of Kansas are not asked and receive all on the slightest provocation. No New England state would do it. If Kansas cannot enforce its iron-clad prohibitory law—and more useless they are—the self-respect of Gov. St. John should be the first thing to be sacrificed.

Orders have been issued by Gen. Terry to Col. John A. Hatcher, commanding the 1st Cavalry at Fort Curtis, directing him to take the Crow Indian reservation at Fort Union, and to see that the reservation is kept free from trespassers.

THE trunk lines executive committee have announced that they will not be bound by the old basis of \$100,000 per year for the 15th inst., to go into effect on the 15th inst.

WHY wear Plasters? They are not only a relief, but they are a cure. They are a relief, but they are a cure. They are a relief, but they are a cure.

Orders have been issued by Gen. Terry to Col. John A. Hatcher, commanding the 1st Cavalry at Fort Curtis, directing him to take the Crow Indian reservation at Fort Union, and to see that the reservation is kept free from trespassers.
