Sheep---Starting ... the Flock ...

In making a beginning with sheep in Northeast Minnesota much will depend upon the amount of previous experience possessed by the farmer. If he is used to caring for sheep and understands their general requirements he can with more safety import grades or even full bloods of the improved mutton breeds. If he has never handled sheep it would be very unwise for him to start with valuable animals, as with no other class of stock will correct management give better results and mistakes be sooner followed by loss than with sheep. Common sheep are nearly all grade merinos, small of body and with rather light fleeces of fine wool. Breeding ewes may be obtained from such stock at stockyards, suitable for use as a foundation for a flock at much lower figures than grades of the mutton or larger bodied and longer wooled sheep. By selecting them according to the size and condition of the teeth none but young animals need be secured. Where it is necessary to confine them entirely to brush, such sheep will usually thrive somewhat better than would better bred sheep, and they will clear the brush out a little more thoroughly. These facts and their lesser value make them somewhat more suitable for beginners on new farms than the better grades, until the farmer has gained the necessary experience and the farm is more developed.

But it should be the aim of every farmer to improve the flock to grading them up to the mutton type. Merino grades usually produce and raise but one lamb, while the mutton breeds commonly have twins. As the profit of the flock lies in its increase, the mutton sheep by this one item are more profitable. Larger carcasses and heavier fleeces increase this margin of profit. This result can be brought about by the use of a pure bred ram of a mutton breed, upon the grade merino ewes, saving the ewe lambs and continuing to breed to a pure bred ram. Two crosses will usually produce a type of lamb closely resembling the full blood. A full grown ram will serve 100 ewes, and it will pay neighbors to combine in the purchase of such an animal, for if a grade ram is used the results will be very much delayed.

"I had a serious attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days without relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, and he said 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." To Lower Doctor Bills

NEW MOVEMENT CAUSES EXCITEMENT.

There is a new movement on foot in western cities to lower doctor bills. Associations are being formed similar to insurance companies which guarantee to give each individual medical counsel, advice and medicines for one month for the price of 50 cents. The system of medicine is a special practice, treating diseases of the liver, kidneys, stomach and bowels. There is in each individual case a guaranteed cure or no pay. You can become an associate member by buying a 50 cent bottle of Cascarine from your druggist. He is supplied, and if not he will get it for you. Cascarine treatment is the celebrated vegetable medicine compound made from Cascara Sagrada, the great natural remedy, as combined with the most active medicinal agents specific to disease. It is a liquid laxative, and cures all diseases of the liver, kidneys, stomach and bowels. If you can't sleep, if you have hot and cold flushes, if there is a cold perspiration breaks out all over you. If your breath is bad or you have wind on the stomach, foul mouth, headache, indigestion, pimples, pain after eating or sallow complexion, take Cascarine. It will cure you. Thousands of families have been kept in good health by frequent use of Cascarine. For sale at all drug stores. Rea Bros. & Co., Minneapolis, Louisville or New York, will send, free, a valuable booklet on diseases of the liver, kidneys, stomach and bowels, and one week's sample treatment for 10 cents in stamps to cover postage.—George H. Jenkins, in Louisville (Ky.) Post.

A GOOD THING.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures coughs, colds and all lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong a healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75 cents. Get Green's prize almanac, at Mayo's drug store.

Bees and Alfalfa.

The introduction of alfalfa into Kansas has made the state richer by one million dollars, and the honey bees that feed on alfalfa have added another million. A peculiar thing about this grain is that some insect must distribute the pollen in order to produce the seed. The bee is the best insect to do this, and therefore it is as valuable to the alfalfa as the alfalfa is to the bee. More valuable to men than alfalfa and bees is "Golden Grain Belt" beer, for it brings them health and happiness. Brewed from the purest barley malt and hops, it is nourishing and palatable, the safest for summer use. Order of your dealer or be supplied by Fred. S. Hazen, Bemidji.
