The report being circulated from one part of the state to another about a railroad extension from Solway, is false. It probably started from the fact that A. Guthrie took a contract to rail the Walker road south of Solway.

Millbach, Fred Dudley and half a dozen other veterans here would like to see the association extended to Beltrami county.

Catarrh is a terrible scourge, a disease whose germs are spread broadcast over this fair land of ours, and in many cases is the forerunner of consumption, that terrible disease whose fangs when set upon its victim usually means death. But there is a cure for catarrh and disease of the throat and lungs. It is H. W. Barker's cough, catarrh and consumption remedy, and we always keep it. Mayo's drug store.

Some women have been visiting many towns in the northern part of the state soliciting funds in behalf of what they call the Baker Orphanage, at 4544 London Road, Duluth. A while ago the same persons who are managing it, Mr. and Mrs. J. S. Baker, undertook to establish what they called the Sacred Refuge, a place for the care of girls in trouble, and their babies. As Mrs. Baker has a very plausible way of presenting her case at first she was quite successful in collecting a large amount of money, until suspicions were aroused that all was not straight. We are requested by a charitable institution in Duluth to state that the Baker Orphanage is a fake.

It looks as though the Great Northern will extend its Red Lake Falls line to Dugdale in the early spring. This will connect the Red Lake county towns with the Duluth line, and afford an outlet for our lumber and flour to the nearest market. It is intimated that the new branch will be extended west from Dugdale to some point on the St. Paul & Minneapolis line, thus affording easier access to the Twin Cities, but as yet this part of the program is rather indefinite.

The immense crowd at the First Spiritualist church Sunday night was proof enough that Mrs. Smith's inspirational lectures are appreciated by the thinking public. The hall was crowded with intelligent men and women. Death-like stillness reigned while Mrs. Smith's guides handled the leading opinions and clinched her own religion with proofs from the scientific world, and many tests given after the lecture. Mrs. Smith called for a subject from the audience, as proof that her lectures are not studied up before the meetings. The vocal and instrumental music by Mrs. Charles Jackson was very fine.

Harry Reynolds is having some land cleared up on his claim. It is a shame that a settler should clear up land and burn the valuable timber when it should be used for manufacturing purposes. What is the matter with a company or sawmill that would buy hardwood?—Tenstrike Tribune.

By the courtesy of Messrs. Kaiser and Greeley of the Bemidji PIONEER, in whose paper the cut originally appeared, the Journal is enabled to give its readers today a half tone cut of the famous waterfall on the Big Fork river at the point platted as the future city of Grand Falls. The cut is made from a photograph taken by G. Oliver Riggs of Crookston, and is an excellent picture, but owing to the distance they are apart does not cover the entire falls. Much interest attaches to this portion of the state, as it is fast settling up and in the rapid development of Northern Itasca county this will become the leading point for manufacturing and milling purposes.—Crookston Journal.
