The one thing especially useful in Beltrami county is more and better roads. The more money spent on roads the greater measure of prosperity our county.

There is still a great demand for houses to rent in Bemidji. If a hundred new houses were built here today every one could be rented within a very short time.

And over in Sawmillville the dust flies, so to speak, for a large force of men are at work on the new Shevlin-Carpenter mills, and new buildings are looming up almost daily.

Where is that fellow who said that the only resources Bemidji has is jackpine and sand banks? The fool! Eastern Beltrami and Northern Itasca counties have billions of feet of timber—more than croaking tenderfeet ever dreamed of—and agricultural land that has no superior in the state. Resources? What does the average croaker know about the resources of this country? In order to know something about the resources of Beltrami county one must don his high boots and pack-sack and wade swamp for days. In the swamps are high lands of real worth and well timbered, and even the swamps in a short time will make the finest farms. All this is tributary to Bemidji, and Bemidji has resources and possibilities unequalled by any other city in the northwest. Those who know this portion of the country agree with us.

The front of the Moore building looms up in a beautiful fall suit of paint.

The children of Dist. No. 6 will give an entertainment Saturday evening, Dec. 6, 1902. Ladies will please bring their suppers in baskets, and after the program the baskets will be sold to highest bidder, the proceeds of which will be used to get a bell and curtains for the new school house. Everybody is invited and a pleasant time is expected.

Auditor Sylvester issued 344 hunting license to residents and two to non-residents during the present hunting season. This represents the killing of at least 600 deer and many moose, while the number of unlicensed hunters is not small by any means. In many instances homesteaders in Beltrami and Itasca counties are not without fresh meat the year round, and that means considerable big game.

Mayor John Steidl arrived in the city last Sunday from The Dalles, Oregon, where he moved with his family last summer and makes his home. He tells us that Ex-Auditor Hauer and family and also Ed. Boyd and family are living there. Hauer has become a timber cruiser and is making money hand-over-fist. Mr. Steidl will return to the Pacific coast in about two weeks and there is no knowing when he will visit Bemidji again.

Messrs. A. R. Greeley and D. K. McPherson came down from the Big Fork yesterday, and after dinner started on their weary way for Blackduck. As soon as it freezes up Mr. Greeley will take a printing outfit into that country and commence the publication of the moulder of public opinion for the middle northern part of Itasca county. These two gentlemen are a part of the salt of the earth; may their shadows never grow less.—Bridgic News.

Freddie Brown and wife, of Blackduck, were in the city last Wednesday on their way to some point in Montana, where Mr. Brown's brother is on a large ranch. Their object in going is to recuperate in health, as Mr. Brown has not yet fully recovered from the effect of the bullet wound on his leg caused by accidentally shooting himself, while both Mr. and Mrs. Brown are run down by sorrow in the loss of their little girl. It is hoped that their visit in the wilds of Montana will do them much good. They expect to be absent at least three months. The rumor afloat to the effect that Mr. Brown lost his position as U. S. commissioner is illfounded. He secured a leave of absence, but in nowise has he been asked to resign by Judge Lochern.

Notice to Loggers.

For sale, at a bargain, part of logging outfit, consisting of 10 cross-cut saws, 25 peavies, one large tent, 300 to 500 feet 2-in. rope, several cooking utensils, axes, lanterns and numerous other articles. GROWTH OF SPIRITUALISM

The first meeting for the winter of the First Spiritualist Church was held at the opera house Sunday evening. The Bemidji orchestra furnished a few choice selections, and vocal music was well rendered by a specially selected choir. A large congregation was present to listen to the sermon, which was brilliant and full of golden worth. Mrs. Ted Smith, the chaplain, has achieved much notoriety throughout the state since the annual convention in Minneapolis, where she lectured before the delegates under the spell of inspiration. She is a gifted speaker, and under her guidance the Spiritualist church is becoming firmly entrenched in Bemidji.

Mrs. Ted Smith, formerly Miss Cora KinCannon, who came to Bemidji in the spring of '94, was the first minister of any denomination to push through the wilderness of Beltrami county and locate at Bemidji. In the winter of '94-5 Mrs. Guy H. Remore, of the Remore hotel, opened her parlors to the first Spiritualistic meeting held in the village.

During the winter private meetings were held every Sunday evening at the hotel, at that time there being only Miss KinCannon and her family believers in that doctrine. Mrs. Remore was greatly interested in the work and was the means of showing many favors

to the few settlers that would meet at her home to investigate the teachings. The first public meetings were held in the fall of '99 at the hall over the Gillmore drug store. At that time there were only about ten active members. The society increased and the audiences grew so large that it was necessary to procure a larger hall, where the meetings opened in the fall of 1900. The meetings were exceedingly successful during the winter, as seating capacity was out of the question and very often standing room was not to be had. It was thought best, if possible, to hold the first meetings in the city hall this winter so all who wished to learn more about the beautiful teaching would not have to stand during the services.

In the spring of '99 Rev. Mr. and Mrs. Geo. Kates, of Philadelphia, came to the rescue of the little society and made them a chartered society of the State of Minnesota with a membership of twenty-three active members. At the present time there are about forty-five members and upwards of 150 or 200 actual believers in the religion in and around the city.

Last fall Mrs. Ted Smith received her ordination papers and is licensed to preach the gospel of Spiritualism, officiate at funerals and perform marriage ceremonies.

Fatalism.

The disregard great men have for danger has frequently given the impression that they were fatalists. This has been said of President Roosevelt and many other brave men, because their bravery is hard to explain. They are not reckless, however, of either life or health, but simply do the best they can to protect both and then leave worry to others. In this connection it should be said that doing the best you can to protect your health means using Golden Grain Belt beer regularly with your meals and before going to bed. Order a case of your dealer or be supplied by John Essler, Bemidji.
