DR. AMES TELLS IT

(Continued from Page One)

services in the civil war, his four terms as mayor of Minneapolis, as well as his election to the legislature of Minnesota, and stated that never until the recent alleged scandals had a word of dishonor been breathed against him. Gardner, "a confessed blackmailer," Brown, who by offering testimony sought immunity from prosecution, and Norbeck, convicted of bribery, Mr. Erwin maintained, were the only witnesses against Dr. Ames, and their word should not be relied on in preference to one who had done honor to his city and country.

The action of the defense in making mental irresponsibility the principal plea is thought to be caused by the complete chain of evidence submitted by the prosecution. This

Chain Was Completed yesterday by the testimony of several "women of the town" to the effect that they had paid Gardner from \$15 to \$25 each for what they supposed was protection from prosecution. Louis Anderson, who ran a saloon under the rooms of Ray Harris, the woman who was fined \$50 by mistake, also testified that Norbeck had given him \$50 and pursuant to instructions he had given it to the woman.

Dr. Ames appeared a picture of health on the stand. He admitted that he had gained twenty pounds since his return from New Hampshire, and characterized his recovery as something remarkable.

The prosecution in the cross-examination recalled the doctor's flight to West Baden, Ind.; Louisville, Ky., and New Hampshire. Mr. Boardman questioned particularly the defendant's journey alone, in inclement weather and in a feeble condition, from Kentucky to the East; why he started hurriedly in the night time without baggage; why he stopped off at many

as, registering at hotels the of which he could not remember, and why Mrs. Ames took an entirely different route. Dr. Ames denied that he departed to escape the sheriff, and insisted that there was nothing unusual in the procedure.

CASHIER IS GONE.

His Books Are All Right and His Absence Is a Mystery.

Winnebago City, Minn., May 6.—The deepest mystery still surrounds the disappearance of S. S. Secor, cashier of the Fairbault County bank of this place. On Friday evening, April 24, he left home for Milwaukee on a business trip, expecting to return the following Monday. He registered at the Plankinton hotel early Saturday morning and stepped out, since when nothing has been seen or heard of him. The books and business of the bank have been thoroughly checked over and found to be in excellent shape.

ANOTHER BIN BURSTS.

Flaxseed Spoils Railroad Track and Wrecks Shed.

Duluth, May 6.—Another of the concrete bins of the Peavey elevator system at Duluth burst yesterday morning. With it went 35,000 bushels of flax, and as this rushed upon the ground it poured under the railroad trestle with such force as to raise the track three feet, crushed through the side of a train shed opposite, and poured grain forty feet into the house. This is the third accident of the kind, and the fourth bin to give way.

AFRO-AMERICAN EMPIRE.

Colored People Plan to Invade Haiti and Found a Government.

New Haven, Conn., May 6.—William Pickens of Little Rock, Ark., the colored orator of Yale, 1904, who captured the Ten Eyck prize in February, has received an invitation to become the head of an Afro-American empire to be established on the Island of Haiti. The proposition comes from N. L. Musgrove of Sturgis, Ky., who is agitating a movement tending toward the seizure of the Island of Haiti by the American negroes. The plan is for Mr. Pickens to enlist interest in the movement in the East and particularly at Yale university, and collect money for the equipment of an army, the purchase of a warship, transports and provisions. Then the negro army hope to attack Port-au-Prince, the capital of Haiti, and, if successful, eventually to place the island under the protection of the United States. The government will be republican in its political formation, according to Mr. Pickens, but it will be administered as a gigantic corporation, with all the citizens as stockholders. The movement has developed to a considerable extent in the South and to a more limited extent in the North.

MOUNTAIN THREATENS.

Town of Frank is Still Considered in Great Danger.

Blairmore N. W. T., May 6.—The loud explosions caused by the limestone crumbling and falling down the mountain which was kept up the greater part of Sunday, echoed dolefully through the empty town of Frank. There were almost no signs of life in the place, as the police maintained a rigid guard and permitted no one to enter the town except persons having property to move or look after. The Canadian Pacific takes so serious a view of the situation that Supt. Taylor has stopped the work of reconstruction and withdrawn his entire force for the time being. As soon as all personal property is removed it is proposed to experiment with powder and try to blow down all the loose rock as well as any that shows any indication of being dangerous. The attempt to put the mountain in a safe condition will be made by the government.
