**DISCUSS RUSSIAN AFFAIR.**

**Important Conference Between Secretary Hay and the President.**

Oyster Bay, N. Y., July 9.—Secretary Hay was a guest of President Roosevelt last night at Sagamore Hill. Matters of grave importance to this country, in its international relations, were under consideration during the afternoon and evening. The conclusions reached at the conference are not disclosed, both the president and Secretary Hay regarding it as inexpedient at this time to discuss for publication the details of their work. To two subjects of serious concern most of their attention was turned. They considered in all its phases the Russian situation, particularly with respect to the B'nai Brith petition, which it has been determined will be forwarded to the Russian government, and the Alaskan boundary question, which next month is to be taken up for what is hoped may be final adjustment by the American and British commission in London. It is regarded as likely that some developments in the Russian situation may be expected in a few days.

## HEARING WILL BE IN AUGUST

**Congressman Steenerson Asks For Delay in Land Office Decision.**

**QUESTION WILL BE DECIDED LATE IN AUGUST.**

**Commissioner Richards Is Still Delayed in City of Omaha.**

There now seems no probability that the various parties interested in the retention of the land office at Cass Lake, or those who favor its removal to Bemidji, will be heard by the commissioner of the land office until after August 15. A letter has been received at the general land office from Congressman Steenerson requesting that any further steps toward a rehearing be suspended until after August 15, as he was about to start upon a hunting and fishing trip and could not be present. Commissioner Richards is still delayed at Omaha—at the bedside of his sick wife, and it is doubtful as to when he may return to Washington. The hearing which Congressman Steenerson strenuously insisted upon, therefore, will not in all probability take place much before September, and in the meantime Cass Lake will enjoy such benefits as may accrue to it through the presence of officials of the general land office.

Seen in reference to the above Congressman Steenerson said that he had made the request, and had no reason to doubt that it would be granted. He will take a vacation if he can arrange his business to do so, and wants to start July 15.

**The New Waltz.**

All dancers will be surprised to learn that there is something in store for them that will relegate the mazy waltz to the back shelf, where cobwebs of security will soon weave their silent mantle around it: for, lo! heads of New York and Washington society have declared that "sitting out" a waltz will be more fashionable than dancing. The "sitting out" embodies the same position as dancing, the only difference is that you sit instead of dance. The man's right arm is around the girl's waist, while his left hand holds her right. Her left hand is placed upon his shoulder, while her head rests lovingly upon his bosom, and all they have to do is to sit and listen to the music. We have always regarded it as a nuisance to have to gallop a mile or two to get a hug. A room full of people sitting around hugging is more to our notion. This will give the old rheumatic brother another chance to waltz. Most men dance but for the position, and while a man may lose his appetite for dancing, he has to get pretty old before he loses his appetite for hugging a pretty girl. We are endeavoring to get the boys to put on a "dance" of this kind and if they do you can bet your last dollar that the hall will be packed.—LeSeuer News.

Try a want ad in the Daily Pioneer—the result will speak for itself.

**EDITORS GATHER AT OMAHA.**

A reception was held at the club rooms during the afternoon and last night the editors gathered at the Orpheum theater to receive the city's welcome.

## ORGANIZATION TO BE NEW ONE

**Red River Valley Towns to Form a New Firemen Association.**

**IS CLAIMED THAT BEMIDJI WILL BE LEFT OUT.**

**Places for Holding Tournament Objectionable to Red River Men.**

As a result of the recent tournament of Northern Minnesota Firemen's Tournament Association, which was held at Park Rapids two weeks ago, there will without doubt be a new firemen's organization formed among the firemen of Northern Minnesota, the new organization to include only firemen in the towns of the Red River Valley.

Continuing the dispatch says: "When the present association was organized nine years ago, it was the intention then to have as members only the firemen of the Red River Valley, and the membership included the towns of Crookston, Hallock, Red Lake Falls, Thief River Falls, McIntosh, Fosston and East Grand Forks. Later the Bemidji department became members of the association and made a successful effort to obtain the tournament at that place, despite the efforts of the departments in the valley to hold the meeting among themselves.

Last year the Cass Lake department secured the tournament, taking the meeting further away from its original location, and this year the meeting was held further away—at Park Rapids. Next year the tournament will be held at Grand Rapids, some sixty miles further east, and there is a prospect that the year after the tournament would be held either at Hibbing or Eveleth, over on the Iron Range. The sum which would be necessary to expend to make a representation among any of the teams of the Red River Valley, should the tournament keep moving east, makes it almost prohibitory for any of the departments in the Valley to send a running team to participate.

Following that the firemen of the Valley should have an association of their own, the Hallock department has taken the initiative in the matter, and a meeting will be held in the near future to further the matter of organization. The territory to be included in the new district embraces all that territory in the Red River Valley north of the Northern Pacific railroad, and includes some fifteen fire departments.

**SCARE FOR LEGATION.**

**Another Outbreak Feared in Chinese Capital.**

Cologne, July 9.—A dispatch from St. Petersburg to the Cologne Gazette says that the Gouvernements Zeitung, a newspaper published at Viagovostchensk published the following dispatch from Pekin, which should be taken with all reserve:

"The legations have again taken precautions for eventualities. Quantities of provisions have been hurriedly stored in the legation buildings and the guards have been reinforced. The European governments have received disquieting information."

The same paper says it is incredibly reported that the American legation at Pekin has urgently asked assistance from Washington. Popular feeling in China is once more assuming a highly dangerous character and a fatal explosion may result at any time.
