FROST NOT HEAVY BIG LOSS OF LIFE

REPORTS INDICATE THAT CORN
HAS ESCAPED TEMPO-
RARILY.

SNARL WAS WORSE THAN BITE

NEBRASKA THE ONLY STATE
THAT HAD REALLY HARD
FROST.

INJURY HAS BEEN EXAGGERATED

EXPERTS DISAGREE AS TO THE
AMOUNT OF DAMAGE
DONE.

Chicago, Sept. 19.—Jack Frost's
snarl has been worse than his bite in
the corn belt so far, and the reports
received indicate that the crop has
escaped temporarily the serious dam-
age expected. Nebraska is the only
corn-growing state which experienced
a really hard frost, and in some parts
of that state cloudy weather took the
sting out of the air. Cloudy weather
saved Illinois from a frost Wednesday
night, according to Forecaster Walz.

The conditions yesterday, however,
were more favorable for a sharp frost
last night, as it was clear. Frost was
predicted also for Minnesota, Iowa,
Kansas, Nebraska and North and
South Dakota. Missouri is to have a
touch of it, too, as well as Indiana,
Michigan and Wisconsin.

While there are some traders on the
board of trade who argue that the corn
crop has been seriously damaged, most
of the brokers in touch with the situ-
ation hold that the injury has been ex-
aggerated. Closing prices for corn
showed a decline of from 3-4c to 7-8c
for the day.

B. W. Snow, a crop statistician for-
merly in the service of the department
of agriculture, who has lately returned
from a visit in the corn belt and the
wheat lands as far north as the Sas-
katchewan river valley in the Cana-
dian Northwest, said:

"Forty per cent of the corn—35,000,
000 acres—is out of danger of frost.
Of the 55,000,000 acres between Ohio
and Kansas more or less was suscep-
tible. Probably 20 per cent of the corn
is late enough to be seriously affected.
The actual loss would still leave a
crop a little short of 2,000,000,000
bushels, but with a heavy percentage
of poor quality."

Frost Was General.

St. Paul, Sept. 19.—The recent frost
was general, covering Nebraska, Iowa,
Minnesota and the Dakotas. Encir-
cling both the grain and corn belts as
it did, there is no doubt but that some
damage was done.

One of the notable features of the
cold snap was the stretch of territory
included. From the southern part of
Manitoba down through Minnesota,
Nebraska, Kansas, New Mexico, Utah
and Texas the temperature hovered
around 40 degrees.

The Northern Pacific crop report, is-
sued yesterday, shows that but little
damage has resulted to wheat and
oats from the recent rains, since in the
most important districts these crops
are nearly all protected or threshed.

Threshing is at a standstill every-
where in the Northwest as the result
of a continuous downpour for more
than a week. Threshing will not be
resumed until there have been several
days of dry, warm weather to dry out
the grain.

Late potatoes in Minnesota begin to
show damage from the rains and corn
in some localities has been nipped by
frost.

LEFT TO PERISH.

Thirty Men Alleged to Have Been Ma-
rooned on a Barren Island.

Portland, Or., Sept. 19.—If reports
are true there are thirty prospectors
dying of cold and starvation at East
Cape, Bering sea. Ole Johnson, a
Danish member of the crew of the Dan-
ish ship Mananz, just arrived from
Alaska, has made formal charges
against the captain of the ship for
having abandoned a man named Nel-
son, a Dane, and twenty-nine others
on the icy shores of East Cape. He
has also written to the secretary of
state giving full details of the cap-
tain's terrible deed and asking for a re-
lief ship to be sent at once to the res-
cue of the suffering men.

SENATOR PROCTOR ARRESTED.

He is Fined for Shooting Raccoon Out
of Season.

Newport, N. H., Sept. 19.—Fish and
game commissioners yesterday caused
the arrest of Senator Redfield Proctor
of Vermont for shooting raccoon out
of season. He was arraigned before a
local justice, pleaded guilty by reason
of ignorance of the law and was fined
\$10, with costs of \$17.50, which he
paid.

WILEY'S NEW THEORY.

Says the Human Race Is Becoming
Hairless and Toothless.

Washington, Sept. 19.—Dr. H. W.
Wiley, of the agricultural department,
acquired while abroad a batch of new
theories. According to the doctor the
human race is becoming hairless and
toothless as the result of increased
intellectuality and the prevalence of
"ready chewed" health food. He de-
clares the day is rapidly approaching
when hair and teeth will become as ex-
tinct as the dodo bird.

TALES OF DISASTERS FROM ALL
ALONG THE ATLANTIC
COAST.

MANY VESSELS GO DOWN IN GALE

ANOTHER SEVERE STORM ADDS
TO RECORD OF DEATH AND
DESTRUCTION.

MANY SCOOINERS ARE MISSING

AND IT IS FEARED THEIR CREWS
WILL BE ADDED TO THE
DEATH ROLL.

New York, Sept. 19.—The hurricane
which raged up the coast Tuesday
and hit New York and the New Eng-
land coast Wednesday and which left
the entire coast from Norfolk, Va., to
Maine strewn with wrecks of vessels,
almost every one of which meant
death to one or more of the crew,
passed off to the north during the
night and was raging yesterday and
last night in the Adirondacks.

The record of the loss of life is not
nearly complete and may not be
known for weeks as there are reports
of outgoing steamers rescuing ship-
wrecked crews at sea and taking them
with them to foreign ports, but a rough
estimate of the loss of life puts it at
100, and it is not unlikely to be far in
excess of that number.

The British steamer Mexicano of
Millboro foundered Tuesday and the
British steamer Roxby brought to
Norfolk yesterday one sailor, a Span-
iard, who was supposed to be

The Sole Survivor

of a crew of twenty-two. He was
picked up from a piece of wreckage
somewhere off the coast of Virginia.
Mountainous seas littered battered in
the Mexicano's sides, the sailor said,
and she went to the bottom with a
quick plunge, carrying all but himself
with her. Last night, however, the
steamer Vidar arrived at quarantine
bringing six more of the Mexicano's
crew. The rest were lost, including
Capt. King.

Fifteen sailors of the fishing fleet
were drowned by the wrecks of fishing
smacks off the Jersey coast was the
news brought in by survivors, and it is
believed many others not yet heard
from went down. Only fourteen of
twenty-eight schooners in the fleet got
in yesterday. All those that came in
flew their flags at half-mast.

Almost every port from New York
to the Maine fishing ports report the
loss of some lives by wrecks, mostly
fishermen.

TRAIN HOLD-UP PREVENTED.

Squadron of Police and Detectives Go
to the Scene.

St. Joseph, Mo., Sept. 19.—Five men
were in a plot to hold up the Rock
Island passenger and express train due
to leave here at 8:35 last night for
Texas and the Southwest. A point be-
tween the Missouri river bridge and
Elwood, Kan., was selected for the
hold-up, which doubtless would have
been attempted but for the arrival
of a squadron of police and detectives
from St. Joseph, who arrested several
hoboes, but were unable to capture the
men in the plot. Indisputable evi-
dence of the plot came into possession
of Chief Frans. A boat had been en-
gaged by the bandits with which to
cross the river two miles south of the
bridge.

VICTORY FOR PUBLIC OPINION.

Tolstoi's Anniversary Causes Outburst
of National Admiration.

St. Petersburg, Sept. 19.—Tolstoi's
anniversary is being made the occa-
sion of a remarkable outburst of na-
tional admiration. The St. Petersburg
Gazette, the Novoe Vremya, and the
leading journals of Moscow as well as
hundreds of provincial papers refer to
the novelist-reformer as Russia's
greatest national glory. This demon-
stration made in the face of govern-
mental persecution and excommunica-
tion by the holy synod is acknowl-
edged by the strictest reactionaries as
a victory of public opinion over
clericalism and bureaucracy.

GIVEN UP FOR DEAD.

Lost Boy Returns Home After Ab-
sence of Thirteen Years.

New York, Sept. 19.—After being
mourned as dead by parents and
friends for thirteen years, Walter
Frazee, a former resident of Scotch
Plains, N. J., has returned to that vil-
lage. His aged mother was overcome
with joy and swooned. When Frazee
disappeared the woods and ponds were
scoured in vain and he was given up
as dead. He says he was inspired to
run away by stories of adventure, and
traveled all over the globe.

BAD MONEY FOUND BURIED.

Had Apparently Been Under Ground
Many Years.

Los Angeles, Cal., Sept. 19.—Graders
on the Sunset boulevard, just outside
the city limits, have turned up a peck
of spurious coin, buried by counter-
feiters. The coin had apparently been
buried many years. All the spurious
coins were \$5 and \$10 pieces, and, al-
though corroded from contact with
the damp earth, were good imitations.
