GREAT NORTHERN REPORT.

Commenting on the Great Northern's report the Commercial Advertiser says:

"The earning capacity of the Great Northern increases at the same remarkable rate it has shown for a number of years past. It proves that the optimism of Hill with regard to the value and earning capacity of the property was justified. The property continues to hold the record for economical operation."

Discussing the matter of freight rates, the paper says: "Results as shown by the Great Northern indicate that its rates have been made with a view to hurry rather than to retard industrial development on its lines."

According to the official figures the total gross earnings for the Great Northern were \$42,137,600. The operating expenses were only \$20,897,335, leaving net earnings of \$21,240,335, or nearly 51 per cent of the gross earnings. This is even a larger proportion of net earnings than was reported by the Northern Pacific, which in turn was very much larger than the production reported by the Chicago and Northwestern and the St. Paul roads.

CHANGE IN MANAGEMENT.

Eight years ago in February the Bemidji Pioneer was established. With the growth of Bemidji it has grown; it has contributed its share toward the making of Bemidji; it is today the leading newspaper in this section of northern Minnesota.
