New Disease is Threatened.

Are Londoners to live on tubes? That is to say, is our great metropolis to have a more substantial foundation than underground railways of one kind or another? Where are people, who do not care to vibrate, going to find peace? Already those who live over the existing electric railway under Oxford street find that their house rooms are in a state of constant oscillation, not unlike that produced by a feeble earthquake, and as the process of extension proceeds there will be few thoroughfares of any importance which are not subject to the tremor—a malady that turns out to be a nerve irritant few people can endure. The worst of the outlook is that it is impossible to anticipate the direction which new lines will follow, so that a house taken upon a long lease may become subject to tube vibration. The effect of this new terror is sure to tell upon the nerves of Londoners, and some description of tube affection will be among the maladies of the future.—London Daily Telegraph. #### PRESIDENT OF PRESIDENTS.

A Distinguished Lady, Indeed, Is Mrs.

Mary E. Poole, of Whiting, Ind. Whiting, Ind., Feb. 4, 1901.-(Special.)-The presidents of the Ladies of the Grand Army of the Republic have the presidents of the different State associations. This Presidents' Association chooses a president, and to this very high and distinguished position Mrs. Mary E. Poole of this place has been elected. Mrs. Poole is theroughly deserving of this great honor. Her devotion to the interests of the association is very marked, and her experience with the old soldiers of the G. A. R. is wide. Mrs. Poole is never slow to take advantage of anything that may benefit the veterans, and her zeal has resulted in much that is good to these grand old men. She writes of her experiences: "Honor to whom honor is due, and having seen the numerous cures effected through the use of Dodd's Kidney Pills, I gladly endorse them as being particularly effective to cure that dreaded disease of so many of our old soldiers, Bright's Disease, and Kidney Disorders of different kinds. Kidney Disease soon polsons the entire system, and as a result the vital organs are attacked, and I have found that no remedy so surely, completely and quickly finds the weak spot and heals it as Dodd's Kidney Pills.

"I have used them myself in slight attacks of biliousness and indigestion, and usually find that from three to four pills do the work."

Such evidence from a lady of so much distinction and experience should convince any sufferer from Kidney Trouble that Dodd's Kidney Pills is the remedy that never fails. 50c a box, six boxes for \$2.50. Buy them from your local druggist if you can. If he can't supply you, send to the Dodds Medicine Co., Buffalo, N. Y.

Overland Journey Too Hard for Dogs. J. E. Keats, one of the earliest settlers of Atchison county, Kas., is dead. In the '50s Mr. Keats was a freighter across the plains Once he walked from Salt Lake City to Atchison in thirty-eight days. An Atchison man once told the writer that Keats boasted the ownership of a dog that had walked all the way from the Missouri river to Sacramento, Cal., and that no other dog had ever made this trip on foot. It was a fact well known among plainsmen that dogs could not stand a trip across the plains and the mountains. In the earlier stages they chased rabbits and coyotes until they were themselves out. Keats probably had a dog that kept itself under the wagon and attended strictly to business. J. E. Keats, one of the earliest settlers wagon and attended strictly to business.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mu-cous lining of the Eustachlan Tube. When this tube gets inflamed you have a rumbling this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the nuccous surfaces.

Coal Output Increased by Machines.

The United Kingdom has nearly twice as many miners as there are in the Unit-ed States. Germany also gives work to more miners than this country employs, and yet this country turns out a great deal more iron and coal than either of those kingdoms. The reason why we obtain a far greater product with a much smaller mining force is that we use a great deal of improved mining machinery; so that though we pay the highest wages the cost of mining is less in this country than in most European lands.—New York Sun.

#### A Remedy for the Grippe.

Physicians recommend KEMP'S BAL AM as a remedy for patients afflicted with the grip, as it is especially adapted for the throat and lungs. Large Telescopes Show More Stars. Today the stars visible from the first Today the stars visible from the first to the thirteenth magnitude aggregate to about 43,000,000, of which nearly 10,000,000 have been photographed. In the most powerful telescopes even the fifteenth magnitude has been revealed; of this magnitude perhaps 100,000,000 stars are suspected, but knowledge concerning them is uncertain. In the Milky Way alone there are some 10,000 stars, separated by vast distances. To the eye at the telescope the sky seems no longer dotted with constellations, but powdered with gold dust.—Indianapolis News.

What Do the Children Drink? Don't give them ten or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. A well-known Episcopal clergyman, quoted by the Philadelphia Press, was speaking of the Vanderbilt-French wedding and so came naturally to the question of what he called wedding fright. "It is," he said, "a good deal worse than stage fright, I should think, and it generally, curiously enough, attacks the man rather than the woman. I suppose that is because most women have lived the first part of their lives looking forward to the event, while men—well, men, I rehrst part of their lives looking forward to the event, while men—well, men, I regret to say, don't. It comes to them as always more or less of a surprise. Taken at the appearance of the first symptoms of the grip, not only is Peruna a prompt cure for the grip but it prevents those disastrous after effects so characteristic of this dread disease.

Peruna not only cures the grip, but prevents it.

Taken in time thousands of lives will be saved in this present epidemic. Every family should take the precaution to secure a supply of Peruna once, for the retail and wholesale stock of the remedy may be exhausted

by the enormous demand for it. It is wisdom to have Peruna in the house even before the grip attacks

It has been ascertained by a reporter that the following people of national reputation have given public indorsement and testimonials to Peruna as a remedy for la grippe: Congressman Howard of Alabama says: "I have taken Peruna for the

grip and recommend it as an excellent remedy to all fellow-sufferers." Congressman White of North Carolina says: "I find Peruna to be an excellent remedy for the grip. I have used it in my family and they all join me in recommending it.'

Miss Frances M. Anderson of Washington, D. C., daughter of Judge Anderson of Virginia, says: "I was taken very ill with the grip. I took Peruna and was able to leave my bed in a week.' Mrs. Harriette A. S. Marsh, President of the Woman's Benevolent Association of Chicago, writes: "I suffered with grip seven weeks. Nothing helped

me. Tried Peruna and within three weeks I was fully restored. Shall never be without it again." At the appearance of the first symptoms of grip people should stay in-doors and take Peruna in small doses (teaspoonful every hour) until the

symptoms disappear. This will prevent a long, disastrous sickness and perhaps fatal results.
