CAUGHT THE TILL TAPPERS.

Police Make a Round-Up After Burglars Monday Night.

At an early hour Monday morning Patrolmen Moylan and Klimas caught onto the till tappers who have been doing the town, red-handed, in the saloon of Frank Winchester, but while two men were seen in the place the officers failed to nail them in the building. Officer Klimas going upstairs to awaken the proprietor, the men making their escape from the building in the meantime, walking out the front door.

Later they arrested three men, finding in the room of one of them, John Briggs, a number of stolen articles and other evidence of a nature proving his complicity in the crime.

Briggs was brought up for a hearing Wednesday morning and waived examination, being bound over to the grand jury. The other men arrested were discharged, no evidence sufficient to hold them as accomplices being produced.

Briggs has been employed on the D. M. & N. short line passenger as brakeman during the winter, and the police believe that in him they nailed the right man, the method of entrance to the building being similar to that on other jobs, a pane of glass being removed from a rear window by cutting away the putty.

Entrance was made to Lantry & Nelson's saloon in the same manner Friday night last and to the Missabe depot the following night.

Looking After Terminals.

President W. H. Cook of the Duluth Rainy Lake & Winnipeg road, who was at International Falls and Fort Francis for several days looking after the terminal site and getting the work started at that end of the line, has returned.

He says that within the next thirty days 1,000 men will be at work on the road from the International Falls end, and asserts that the original intention of having the road cross the river at Pithers Point, two miles above the falls, will be carried out. A railway bridge is to be built at that point this summer.

The engineer for the Rainy Lake road is now on the ground to make the plans for the structure, and the contract is about to be let for the extension to connect with the Canadian Northern railway.

It is understood that the company of which Mr. Cook is the head will build a large sawmill on the American side across from Pithers Point. It is also said that a town-site will be platted about two miles east of International Falls.—Duluth Herald.

Getting Down to Business.

The ball enthusiasts have finally got beyond the "talking" stage and organize for the season by the selection of Frank Winchester as manager and Karkeet as captain. The first practice game of the season was held on the school grounds Sunday and the manager will assign positions shortly. Thus far the team is "shy" on a twirler, but a number of suitable men are in view.
