is not as pleasing to the taste as eating a good meal, but there are times when it is just as essential to your health and pleasure. Whenever any part of a machine needs repairing it costs less if the work is done promptly and the machine will last much longer.

The human body requires medicine or repairing when any of its organs fail to perform their work properly, and taken at the right time it will save you a long spell of sickness. It is our business to supply the right drug at the right time, and once you realize this fact you will understand how much it means to you, and you will not fail to take advantage of it.

Having breathered of the "pure Alvarado air," they began to feel lighter, and when the sleigh made a little swing, Miss Ruth Nordlund proved a little too light and in another moment was seen sprawling in the snow, surrounded by her favorite books. The girls were hospitably entertained in the pleasant home of Mr. and Mrs. Peter Nordlund and they all say that "Alvarado is the place for a good time." The four college girls returned Monday evening, while Miss Wahlund resumed her teaching there.

Dollar "Decoys"

Did you know that there was a relationship between dollars? Well it must be true anyway. Did you ever notice that once a man gets a few dollars others seem to fly into his pocket as if by magic? Most of the dollars of the United States are gathered together in large amounts. The more dollars a man gets the faster others join them. You may be unable to account for this but it is true, nevertheless. Dollars like to congregate. Why not start a congregation of your own? Let's explain. You make quite a bit of money don't you? You spend it don't you? Well now just for once try putting a few dollars—just a few—in this bank. See if others don't follow. The first few act as a "decoy." You are cordially invited to place your "decoys" in this bank. We are sure that by using one of our bank books for a "blind" you will be able to "bag" considerable.
